

# Funny Faces

You can have lots of fun drawing your own sprites in Scratch - you don't have to stick to the ones in the sprite library. Creating your own sprites will give your projects a unique look. For this project, you can go wild making facial features and accessories for a DIY face.

## How it works

This project starts with a blank face surrounded by a collection of eyes, noses, and other items that you can drag into the middle to create crazy expressions. Press the green flag to reset the face and start again.

## △ Funny, funnier, funniest!

This project lets you use your creativity and imagination to the fullest. You don't have to make human faces. You can make aliens, monsters, or anything!
