Screaming Whispers:

Friends & Mothers Louise Limerick, 2013-11-12 Never again will you walk past a group of moms having coffee and cake without dying to know what's going on beneath the surface The Sydney Morning Herald Five women all of them mothers meet regularly for tea and cake Their lives are consumed by children school drop offs and casual conversations so their respite at the Vista Cafe is a welcome retreat Until the day that Evelyn's baby disappears Suffering severe postpartum depression Evelyn is now in a psychiatric hospital refusing to utter a word not even any information regarding the whereabouts of her newborn daughter Amy leaving her remaining four friends at a loss In her absence they begin to piece together Evelyn's life as a mother and as a woman and start to take a look at their own lives What ensues is each woman's uncovering of her own lapsed desires those dreams and wants that were slowly sidelined or put off for a later date as husband marriage and child rearing became full time occupations Joanna confronts her halfhearted efforts to lose the baby weight from her second child Sam who is now three years old Clare's lifestyle is as unkempt as her hair a fact that usually has her buying the newest day planner but now makes her question her early beginnings as an artist Susan is the stereotypical supermom who is never late to pick up her kids yet she cannot seem to take the same charge when it comes to her own life And Wendy though the quietest among them perhaps has the biggest secrets In a darkly humorous manner guilty secrets and lives are entwined as the suspense builds during the desperate search for Evelyn's missing daughter Louise Limerick's *Friends Mothers* is a vivid and honest portrayal of real motherhood and the challenges and joys that face the women who occupy this role a contemporary story of the extraordinary strength of love International Praise for *Friends Mothers* A great read Limerick's depictions of the minutiae of raising children are lovingly realistic but not overly sentimental The Age Australia Where Limerick's writing shines is in her buoyant evocation of the sticky constant exasperating and loving realm of small children and their careers There are many such delicious scenes in this novel The Weekend Australian Limerick has a real knack for capturing the small triumphs and tragedies of everyday life a passion and a tenderness for her characters that won us over The Sydney Morning Herald

The Good-bye Window Harriet Brown, 1998-10-12 Have you ever wondered what really goes on at your child's day care center after you say good bye Harriet Brown did To satisfy her curiosity she spent an entire year observing Red Caboose a center in Madison Wisconsin This engaging and thought provoking book is the story of that year In her beautifully written

personal account journalist and mother Brown takes us behind the scenes at a day care center that works At Red Caboose one of the oldest independent centers in the country we meet teachers who have worked with young children for more than twenty years We watch the child care union and parents struggle to negotiate a contract without ripping apart the fabric of trust and love that holds the Red Caboose community together We look at the center s finances to see what keeps Red Caboose going at a time when other good centers are disappearing Best of all we get to know the children families and teachers of Red Caboose their struggles their sorrows their triumphs Started twenty five years ago by a group of idealistic parents the center has not only survived but thrived through some pretty tough times In the world of day care Red Caboose is a special place a model for what child care in this country could and should be not just babysitting not just a service to working parents but a benefit for children families teachers and the community at large Brown sets her rich and engaging stories in the greater political and social context of our time Why is so much child care bad Why should working Americans worry about the link between welfare reform and child care What can we learn from the history of child care This book is a must read for parents educators and anyone who enjoys first rate writing and dead on insight into the lives of our youngest children and those who care for them Brown s writing is beautiful and her scholarship sound Students considering day care careers day care professionals and concerned parents will gain insight by reading this provocative book as will anyone who cares about the future of young children in this country Choice I admire enormously the ambition of this book its eagle eyed witness and engrossing detail plus the social importance of the project I wish there were in the world more books like it Lorrie Moore author of Who Will Run the Frog Hospital The Good bye Window is a fascinating peek into the secret world of children With the poignancy of Anne LaMott and the reportorial grace of Tracy Kidder Harriet Brown has written a terrific and worthwhile book Meg Wolitzer author of This Is Your Life Harriet Brown s well told story of the Red Caboose child care center should be read by teachers and parents but also by every legislator and politician in the land Only a writer as good as Ms Brown could display the dramatic complexities of a school community in which the youngest members enter crawling and emerge a few years later as articulate empathetic and well socialized individuals ready for the real world Vivian Gussin Paley author of The Boy Who Would Be a Helicopter Does Heaven Have a Post Office? Functions of Unnatural Death in Stephen King Rebecca Frost, 2022-03-02 The *Functions of Unnatural Death in Stephen King* Murder, Sickness, and Plots examines over thirty of King's works and looks at the character deaths within them, placing them first within the chronology of the plot and then assigning them a function. Death is horrific and perhaps the only universal horror because it comes to us all. Stephen King, known as the Master of Horror, rarely writes without including death in his works. However, he keeps death from being repetitious or fully expected because of the ways in which he plays with the subject, maintaining what he himself has called a childlike approach to death. Although character deaths are a constant, the narrative function of those deaths changes depending on their placement within the plot. By separating out the purposes of early deaths from those that come during the rising action or during the climax, this book examines the myriad ways character deaths in King can affect surviving characters and therefore the plot. Even though character deaths are frequent and hardly ever occur only once in a book, King's varying approaches to and uses of these deaths show how he continues to play with both the subject and its facets of horror throughout his work.

The Courage of Doing Philosophy, 2007-01-01 In recent years, the problem of idealization has been one of the central issues discussed in philosophy of science. This volume gathers original essays written by well-known philosophers. The papers address the method of idealization and its applications in science as well as ontological and epistemological problems that have arisen. Among the questions addressed are: What is the logical form of idealizational statements and how should they be interpreted? Is the possible worlds semantics useful in understanding idealization? What is the relation between idealization and truth? The volume is a celebration of Leszek Nowak's sixtieth birthday.

Death Just Happens Margaret J. Scott, 2011-01-03 This is an inspirational memoir by a Registered Nurse whose career ended with one incident and diagnosis of Post-Traumatic Stress Disorder after a string of trauma victims in a Australian rural hospital mortuary. The search for her identity without nursing will take you through her childhood memories, her adventures as a bush nurse in a remote ski resort, travels abroad, and the adversity faced with an injured husband, raising three toddlers. Using her father's wisdom and her strong beliefs, life comes full circle, reminding us we can overcome death, loss, and labels by living life. Share this story that took her on full circle and has to be told so others can overcome tough times, combating death and labels by living life.

BOOK REVIEW The memoir of an accomplished bush nurse and nursing supervisor, inspired by the career-ending encounter with a particularly gruesome death, Scott's memoir opens with her receiving a diagnosis of post-traumatic stress disorder, a condition induced by her first-hand exposure to the severely damaged corpse of a swimmer. Facing the prospect of not returning to work, Scott ruminates on her life leading up to that moment. She takes us through her happy girlhood on a farm, painting lush imagery. One of the book's strong suits: The young Margaret makes for an endearing presence; the forbearance and no-nonsense work ethic that will later assist her is evident in her youth. While Scott shares a few relevant memories from farm life, such as the bandage she instinctively created when her father lost a finger and the demise of various animals, many events described at length distract from the central

theme The author covers her decision to enter nursing strongly colored by her desire to travel via bush nursing her early schooling and the acquisition of her first nursing jobs While details concerning the niche brand of skier injury nursing she s acquainted with in her pioneering work at a remote resort are interesting in their own right they re not well blended with the book s main focus and the inclusion of the non nursing related minutiae of her many travels and friendships take the narrative further from an examination of the psychological toll inherent in regularly confronting death A purported brush with telepathic communication serves to jolt focus from practical nursing entirely Suffering from a lack of integration with the rest of the memoir s subject matter this instance brings the credibility of surrounding observations into question Scott s return in the final chapter to the aphorism that death just happens should inspire one to live emphatically but it feels forced rather than a graceful punctuation of the grand arc of her story Also Scott s sentence structure throughout much of the book is confused in terms of subject verb agreement tense and singularity plurality which makes the text unnecessarily challenging Scott covers independently interesting topics but the book would greatly benefit from improved focus and grammatical polishing

Kirkus Discoveries Post traumatic stress disorder is commonly assumed to be an unwelcome souvenir of battle but PTSD also affects people who have never heard a bomb explode or a rifle shot fired in anger Margaret J Scott enjoyed most of her duties as a respected and hard working nursing supervisor in an Australian hospital What she didn t realize was the enormous strain her job put on her psyche Apparently after studying the hospital mortuary stats with the hospital s occupational health and safety officer the numbers I had been involved in were excessive I was supposed to have snapped years prior He went on to say I had been working a 93 percent rate of trauma the analogy he used was in Beirut Lebanon the medical and nursing are monitored to work only 30 percent trauma in any given year I had been doing this for over fifteen
