Superheroes on World Screens Rayna Denison, Rachel Mizsei-Ward, 2015-05-26 Superheroes such as Superman and Spider Man have spread all over the world As this edited volume shows many national cultures have created or reimagined the idea of the superhero while the realm of superheroes now contains many icons whose histories borrow from local folklore and legends Consequently the superhero needs reconsideration to be regarded as part of both local and global culture as well as examined for the rich meanings that such broad origins and reworkings create This collection stands out as the first concentrated attempt to think through the meanings and significance of the superhero not only as a product of culture in the United States but as a series of local transnational and global exchanges in popular media Through analysis of mainly film television and computer screens contributors offer three challenges to the idea of the American superhero transnational reimagining of superhero culture emerging local superheroes and the use of local superheroes to undermine dominant political ideologies The essays explore the shifting transnational meanings of Doctor Who Thor and the Phantom as these characters are reimagined in world culture Other chapters chart the rise of local superheroes from India the Middle East Thailand and South Korea These explorations demonstrate how far superheroes have traveled to inspire audiences worldwide

Video and DVD Industries Paul McDonald, 2019-07-25 When the videocassette recorder was launched on the consumer market in the mid 1970s it transformed home entertainment Bringing together complementary but also competing interests from the consumer electronics industry and the film television and other copyright industries video created a new sector of media business Two decades later DVD reinvented video media for the digital age DVD provided consumers with an innovative form of entertainment technology and almost instantaneously became the catalyst for a huge boom in the video market Although the VCR and DVD created major markets for video hardware and software the video business has been continually shaped by industry conflicts and tensions Repeatedly the video market has become divided when faced with the introduction of competing formats Easy reproduction of films and other works on cassette or disc made video software a lucrative market for the copyright industries but also intensified struggles to combat the effects of commercial piracy Video and DVD Industries examines the business of video entertainment and provides the first study looking at DVD from an industrial perspective Detailing divisions in the video business the book outlines industry battles over incompatible formats from the Betamax VHS war to competing laserdisc systems alternatives such as video compact disc or Digital Video Express and the introduction of HDDVD and Blu ray high definition systems Chapters also look at the formation of international markets in the globalization of video media the contradictory responses of the Hollywood studios to video and DVD and the legal and technological measures taken to control industrialized video piracy

Scheherazade's Children Philip F. Kennedy, Marina Warner, 2013-11-08 Scheherazade s Children gathers together leading scholars to explore the reverberations of the tales of the Arabian Nights across a startlingly wide and transnational range of cultural endeavors The contributors drawn from a wide array of disciplines extend their inquiries into the book s metamorphoses on stage and screen as well as in literature from India to Japan from Sanskrit mythology to British pantomime from Baroque opera to puppet shows Their highly original research illuminates little known manifestations of the Nights and provides unexpected contexts for understanding the book s complex history Polemical issues are thereby given unprecedented and enlightening interpretations Organized under the rubrics of Translating Engaging and Staging these essays view the Nights corpus as a uniquely accretive cultural bundle that absorbs the works upon which it has exerted influence In this view the Arabian Nights is a dynamic living and breathing cross cultural phenomenon that has left its mark on fields as disparate as the European novel and early Indian cinema While scholarly the writers approach is also lively and entertaining and the book is richly illustrated with unusual materials to deliver a sparkling and highly original exploration of

the Arabian Nights radiating influence on world literature performance and culture Books in Print ,1994 Hero Vol.1
Ashok Raj,2009-11-01 This volume traces the growth of the indigenous Hindi film hero from the silent era up to Dilip Kumar
The film hero is depicted as a credible representative of the social cultural and political milieu of his era The author contends
that the development of Hindi cinema has been largely centered round the frontal figure of the hero In the course of the
narrative the subject matter presents a compact history of mainstream Hindi cinema by placing personalities events and
trends in specific time frames **Korean War Filmography** Robert J. Lentz,2016-05-01 The Korean experience changed
the way Americans viewed war The lack of a clear cut victory inspired filmmakers to try to make sense of fighting another
country s civil war and risking American lives for an unpopular cause This filmography details more than 90 English language
films Each entry includes complete cast and credit listings a plot synopsis evaluation review snippets and notice of video
availability This book places each film in its historical context assesses the essential truthfulness of each film and evaluates
its entertainment value and discusses how and why Korean War films differ from other Hollywood war genres Four
appendices list the films by chronology production company and studio level of historical accuracy and subject and theme
Additional appendices list films with incidental references to the Korean War documentaries on the Korean War and South
Korean films about the war Photographs a bibliography and an index are included Documentary Screens Keith
Beattie,2017-04-29 Documentary productions encompass remarkable representations of surprising realities How do
documentaries achieve their ends What types of documentaries are there What factors are implicated in their production
Such questions animate this engaging study Documentary Screens is a comprehensive and critical study of the formal
features and histories of central categories of documentary film and television Among the categories examined are
autobiographical indigenous and ethnographic documentary compilation films direct cinema and cinema verite and television
documentary journalism The book also considers recent so called popular factual entertainment and the future of
documentary film television and new media This provocative and accessible analysis situates wide ranging examples from
each category within the larger material forces which impact on documentary form and content The important connection
between form content and context explored in the book constitutes a new and lively documentary studies approach to
documentary representation The Screen Media Reader Stephen Monteiro,2017-01-12 Offers key historical and
interpretative texts on the development and role of the screen in communications and the social sphere *Wanted Cultured
Ladies Only!* Neepa Majumdar,2010-10-01 Wanted Cultured Ladies Only maps out the early culture of cinema stardom in
India from its emergence in the silent era to the decade after Indian independence in the mid twentieth century Neepa
Majumdar combines readings of specific films and stars with an analysis of the historical and cultural configurations that
gave rise to distinctly Indian notions of celebrity She argues that discussions of early cinematic stardom in India must be
placed in the context of the general legitimizing discourse of colonial improvement that marked other civic and cultural

spheres as well and that vernacular modernist anxieties over the New Woman had limited resonance here. Rather it was through emphatically nationalist discourses that Indian cinema found its model for modern female identities. Considering questions of spectatorship, gossip, popularity, and the dominance of a star-based production system, Majumdar details the rise of film stars such as Sulochana, Fearless Nadia, Lata Mangeshkar, and Nargis. **The Big Picture** United States. Congress. Office of Technology Assessment, 1990. *Presenting Persis Khambatta* Sherilyn Connelly, 2021-04-26. In 1965, 18-year-old Persis Khambatta became the third woman to be crowned Miss India. After moving to England and then to the United States, she found worldwide fame in the first Star Trek movie in 1979 and in 1980 she became the first Indian presenter at the Academy Awards. The American film industry seemed never to forgive Khambatta for being a non-white woman who refused to do nude scenes. After failing to sustain a career as either a producer or a performer, she achieved a triumph before her sudden death in 1998 with the publication of her book *Pride of India: A Tribute to Miss India*. Based on contemporary news articles and primary sources, this first biography examines Khambatta's Hindi and English language film and television work and demonstrates the many ways she was ahead of her time as a filmmaker, feminist, and humanitarian. Understanding Curriculum as Racial Text Louis Anthony Castenell, William Pinar, 1993-01-01. This book examines issues of identity and difference both theoretically and as represented in curriculum materials. Here, debates over the cultural character of the curriculum are characterized as debates over the American national identity. The editors argue that historically, cultural conservatives have failed to appreciate that the United States is in a fundamental and central way an African and African American place. European Americans are in a cultural sense also black, and the failure to teach sequestered suburban, usually Caucasian students about their cultural African and African American heritage perpetuates their delusion regarding their deeper identities. A curriculum which reflects the non-synchronous identity of Americans is sketched in the last section. Such a curriculum involves not only the inclusion of African and African American content but interracial intellectual marriage as well. Contributors to this book include Peter Taubman, Susan Edgerton, Beverly Gordon, Alma Young, Wendy Luttrell, Cameron McCarthy, Patricia Collins, Roger Collins, Brenda Hatfield, Marianne H. Whatley, and Joe L. Kincheloe. **Film Genre Reader III** Barry Keith Grant, 2003-12-01. More than 30 essays by some of film's most distinguished critics are included in this volume, which presents the latest developments in genre study, including teen films, genre hybridity, neo-noir, genre in the age of globalization, and an up-to-date bibliography. *Reagan* Robert P. Metzger, 1989-07.
