Screening Scotland:

Scotland David Martin-Jones, 2010-08-18 Scotland Global Cinema focuses on the explosion of filmmaking in Scotland in the 1990s and 2000s It explores the various cinematic fantasies of Scotland created by contemporary filmmakers from all over the world who braved the weather to shoot in Scotland Directory of World Cinema: Scotland Bob Nowlan, Zach Finch, 2015-05-29 Scotland its people and its history have long been a source of considerable fascination and inspiration for filmmakers film scholars and film audiences worldwide A significant number of critically acclaimed films made in the last twenty five years have ignited passionate conversations and debates about Scottish national cinema Its historical industrial and cultural complexities and contradictions have made it all the more a focus of attention and interest for both popular audiences and scholarly critics Directory of World Cinema Scotland provides an introduction to many of Scottish cinema s most important and influential themes and issues films and filmmakers while adding to the ongoing discussion concerning how to make sense of Scotland s cinematic traditions and contributions Chapters on filmmakers range from Murray Grigor to Ken Loach and Gaelic filmmaking radical and engaged cinema production finance and documentary are just a few of the topics explored Film reviews range from popular box office hits such as *Braveheart* and *Trainspotting* to lesser known but equally engaging independent and lower budget productions such as *Shell* and *Orphans* This book is both a stimulating and accessible resource for a wide range of readers interested in Scottish film *Scotland's Muslims* Peter Hopkins, 2018-05-31 Re frames the computer animated film as a new genre of contemporary cinema *Scotland in feature film* Sandra-Elisabeth Haider, 2002-11-22 Inhaltsangabe Abstract At Glasgow s University Library I discovered a book about Scotland on film *Scotch Reels* Originally *Scotch Reels* is the title of a research carried out in 1982 about the depiction of Scotland on screen It was revealed then that the predominant image of Scotland was very much engaged with stereotypes defined as the heather and haggis image by one of the book s critics and had obviously nothing to do with the contemporary reality of Scotland Not surprisingly that radical view has found a lot of stern critics On superficial examination when I think of all the recent films set in Scotland ranging from the historical epos *Braveheart* to the contemporary fast paced drug story *Trainspotting* to mention two of the more popular examples it seems to me that contemporary films set in Scotland show a wider spectrum of Scottish life than they apparently did before the 1980s when the stories were mostly with a few exceptions only set in the Highlands or on an island in a community far away from contemporary modern and industrial life As a classic example of those films one can mention the musical *Brigadoon* by Vicente Minnelli from the year 1954 However in my thesis I want to concentrate on films set in the City of Glasgow since there would be far too much material concerned if I considered every single available recent film set in Scotland I would like to find out whether the image of Glasgow has improved or widened in its conception through the release of recent films compared to its depiction in older movies As I could not analyse all recent feature films set in Glasgow in this context I decided to concentrate on a few examples By taking a closer look at these films I

hope to be able to demonstrate how varied or one sided as will be determined the contemporary portrayal of the city is I do not want to omit mentioning my awareness of the fact that my selection is very subjective Had I selected other movies the result would naturally have been a different one Also I have not taken into account television films or series set in the Glasgow area Especially in recent years a whole range of series has been produced and broadcasted for instance the surreal hospital drama Psychos starring Douglas Henshall the controversial Tinsel Town set in Glasgow s lively clubbing scene or Glasgow Kiss which portrays the city as a modern airy place inhabited by sympathetic educated middle class people

Representing Scotland in Literature, Popular Culture and Iconography A. Riach, 2004-12-10 This fascinating new study is about cultural change and continuities At the core of the book are discrete literary studies of Scotland and Shakespeare Walter Scott R L Stevenson Arthur Conan Doyle the modern Scottish Renaissance of the 1920s and more recent cultural and literary phenomena The central theme of literature and popular representation recontextualises literary analysis in a broader multi faceted picture involving all the arts and the changing sense of what the popular might be in a modern nation New technologies alter forms of cultural production and the book charts a way through these forms from oral poetry and song to the novel and includes studies of paintings classical music socialist drama TV film and comic books The international context for mass media cultural production is examined as the story of the intrinsic curiosity of the imagination and the intensely local aspect of Scotland s cultural self representation unfolds *Journal of the National Cancer Institute*

it uncovers the overlooked from the 1980s comedic film makers who followed in the footsteps of Bill Forsyth to the variety of present day Scottish film making a body of work that encompasses explorations of multiculturalism exploitation of the macabre and much else in between In addition to analysing an eclectic range of films and filmmakers The New Scottish Cinema also examines the diverse industrial institutional and cultural contexts which have allowed Scottish film to evolve and grow since the 1970s and relates these to the images of Scotland which artists have put on screen In so doing the book narrates a story of interest to any student of contemporary British film Health in Scotland ,2003 **Air Quality**

The Economic Ideal in British Government Phyllis Colvin, 1985

Cinema at the Periphery Dina Iordanova, David Martin-Jones, Belén Vidal, 2010 Highlights the industries markets identities and histories that distinguish cinema beyond the traditional hubs of mainstream Western cinema From Iceland to Iran from Singapore to Scotland a growing intellectual and cultural wave of production is taking cinema beyond the borders of its place of origin exploring faraway places interacting with barely known peoples and making new localities imaginable In these films previously entrenched spatial divisions no longer function as firmly fixed grid coordinates the hierarchical position of place as center is subverted and new forms of representation become possible In Cinema at the Periphery editors Dina Iordanova David Martin Jones and Bel n Vidal assemble criticism that explores issues of the periphery including questions of transnationality place space passage and migration Cinema at the Periphery examines the periphery in terms of locations practices methods and themes It includes geographic case studies of small national cinemas located at the global margins like New Zealand and Scotland but also of filmmaking that comes from peripheral cultures like Palestinian stateless cinema Australian Aboriginal films and cinema from Quebec Therefore the volume is divided into two key areas industries and markets on the one hand and identities and

histories on the other Yet as a whole the contributors illustrate that the concept of periphery is not fixed but is always changing according to patterns of industry ideology and taste Cinema at the Periphery highlights the inextricable interrelationship that exists between production modes and circulation channels and the emerging narratives of histories and identities they enable In the present era of globalization this timely examination of the periphery will interest teachers and students of film and media studies **William Wallace** Graeme Morton,2014-10-08 A deconstruction of the national biography and mythology of William Wallace Freed from the historian's bedrock of empiricism by a lack of corroborative sources the biography of this short lived late medieval patriot has long been incorporated into the ideology of nationalism

The Routledge Companion to Alternative and Community Media Chris Atton,2015-05-15 The Routledge Companion to Alternative and Community Media provides an authoritative and comprehensive examination of the diverse forms practices and philosophies of alternative and community media across the world The volume offers a multiplicity of perspectives to examine the reasons why alternative and community media arise how they develop in particular ways and in particular places and how they can enrich our understanding of the broader media landscape and its place in society The 50 chapters present a range of theoretical and methodological positions and arguments to demonstrate the dynamic challenging and innovative thinking around the subject locating media theory and practice within the broader concerns of democracy citizenship social exclusion race class and gender In addition to research from the UK the US Canada Europe and Australia the Companion also includes studies from Colombia Haiti India South Korea and Zimbabwe enabling international comparisons to be made and also allowing for the problematisation of traditional often Western approaches to media studies By considering media practices across a range of cultures and communities this collection is an ideal companion to the key issues and debates within alternative and community media Scottish cinema Christopher Meir,2016-05-16 Over the last three decades

Scottish cinema has seen an unprecedented number of international successes Films ranging from Local Hero to The Last King of Scotland have not only raised the profile of film making north of Hadrian's Wall but have also raised a number of questions about the place of cinema originating from a small historically marginalised as yet stateless nation within national and transnational film cultures By providing detailed case studies of some of the biggest films of contemporary Scottish cinema including Local Hero Mrs Brown Morvern Callar and others this volume will help readers to understand the key works of the period as well as the industrial critical and cultural contexts surrounding their creation and reception As the field of Scottish film studies has also grown and developed during this period this volume will also introduce readers to the debates sparked by the key works discussed in the book **None a Stranger There** Scott Oldenburg,Matteo Pangallo,2024 None a Stranger There offers a collection of wide ranging essays that explore the creation and understanding of English identity through the lens of early modern drama Drawing together a rich array of disciplines literary criticism theater history linguistics book history and performance studies the scholars in this collection illuminate how diverse or competing notions

of Englishness can be seen and studied in early modern English plays They are an especially fertile site of study because they enabled collective performances in a variety of settings such as public theaters royal courts and streets They engaged with live audiences from a cross section of society The contributors also draw parallels in plays of the period between past and present They identify vivid struggles over controversies especially Brexit and neonationalism that still bedevil Britain and much of the western world attitudes about and experiences of immigrants xenophobia and tolerance multiculturalism assimilation and hybridity patriotism and jingoism racial and ethnic identity border making and border crossing transnational itinerancy and other topics *None a Stranger There* provides a nuanced understanding of how early modern dramatists shaped and responded to questions about English identity and its relationship with Europe and beyond It emphasizes the fluidity and complexities of national identity reminding us that these debates remain deeply relevant in an interconnected world
