Leonard Orr, Theodore Billy

Lord Jim After The Truth:

Lord Jim Ross C. Murfin, 1992 A tale of dramatic experiences in far away places and of the ongoing fight between the primitive and the civilized *Lord Jim* 1900 is one of Joseph Conrad's most highly regarded works His forceful style and perceptive treatment of very modern problems have earned him the respect and admiration of both the general reader and writers such as William Faulkner and Graham Greene *Lord Jim After the Truth* is only the second critical study devoted entirely to Conrad's most far flung and disparate novel It deftly combines a fascinating introduction to biographical and historical background a fast paced survey of major critical response chapters on the novel's significances and a clearly organized and carefully developed reading of *Lord Jim* Murfin argues that because Conrad's novel creates conditions that militate against one central viewpoint it cannot be declared optimistic or nihilistic any more than Jim can be called a hero or a failure *Lord Jim After the Truth* holds our constant interest in these issues by aiming a multifaceted interpretation towards reader response A strong chronology and annotated bibliography make it an essential reference tool for all fans of *Lord Jim*

The Cambridge Companion to Joseph Conrad J. H. Stape, 1996-06-27 The Cambridge Companion to Joseph Conrad offers a wide ranging introduction to the fiction of Joseph Conrad one of the most influential novelists of the twentieth century Through a series of essays by leading Conrad scholars aimed at both students and the general reader the volume stimulates an informed appreciation of Conrad's work based on an understanding of his cultural and historical situations and fictional techniques A chronology and overview of Conrad's life precede chapters that explore significant issues in his major writings and deal in depth with individual works These are followed by discussions of the special nature of Conrad's narrative techniques his complex relationships with late Victorian imperialism and with literary Modernism and his influence on other writers and artists Each essay provides guidance to further reading and a concluding chapter surveys the body of Conrad criticism

Conrad's Fiction as Critical Discourse Richard Ambrosini, 1991-07-26 Joseph Conrad's comments about his works have commonly been dismissed as theoretically unsophisticated while the critical notions of James Woolf and Joyce have come to shape our understanding of the modern novel Richard Ambrosini's study of Conrad's Fiction as Critical Discourse makes an original claim for the importance of his theoretical ideas as they are formed tested and eventually redefined in *Heart of Darkness* and *Lord Jim* Setting the narrator's discourse in these tales in the context of the dynamic interplay of Conrad's fictional with his non fictional writings and of the transformations in his narrative forms Ambrosini defines Conrad's view of fiction and the artistic ideal underlying his commitment as a writer in a new and challenging way Conrad's innovatory techniques as a novelist are shown in the continuity of his theoretical enterprise from the early search for an artistic prose and a personal novel form to the later dislocations of perspective achieved by manipulation of conventions drawn from popular fiction This reassessment of Conrad's critical thought offers a new perspective on the transition from the Victorian novel to contemporary fiction

Heidegger on Literature, Poetry, and Education after

the "Turn" James M. Magrini, Elias Schwieler, 2017-08-07 Offering new and original readings of literature poetry and education as interpreted through the conceptual lens of Heidegger's later philosophy of the Turn this book helps readers understand Heidegger's later thought and presents new takes on how to engage the themes that emerged from his later writing Suggesting novel ways to consider Heidegger's ideas on literature poetry and education Magrini and Schwieler provide a deep understanding of the Turn a topic not often explored in contemporary Heideggerian scholarship Their inter and extra disciplinary postmodern approaches offer a nuanced examination taking into account Heidegger's controversial place in history and filling a gap in educational research

Travel, Modernism and Modernity Robert Burden, 2016-03-09 Focusing on the significance of travel in Joseph Conrad E M Forster D H Lawrence Henry James and Edith Wharton Robert Burden shows how travel enabled a new consciousness of mobility and borders during the modernist period For these authors Burden suggests travel becomes a narrative paradigm and dominant trope by which they explore questions of identity and otherness related to deep seated concerns with the crisis of national cultural identity He pays particular attention to the important distinction between travel and tourism at the same time that he attends to the slippage between seeing and sightseeing between the local character and the stereotype between art and kitsch and between older and newer ways of storytelling in the representational crisis of modernism Burden argues that the greater awareness of cultural difference that characterizes both the travel writing and fiction of these expatriate writers became a defining feature of literary modernism resulting in a consciousness of cultural difference that challenged the ethnographic project of empire

Armstrong, 2018-03-15

The Challenge of Bewilderment treats the epistemology of representation in major works by Henry James Joseph Conrad and Ford Madox Ford attempting to explain how the novel turned away from its traditional concern with realistic representation and toward self consciousness about the relation between knowing and narration Paul B Armstrong here addresses the pivotal thematic experience of bewilderment an experience that challenges the reader s very sense of reality and that shows it to have no more certainty or stability than an interpretative construct Through readings of *The Sacred Fount* and *The Ambassadors* by James Lord Jim and *Nostromo* by Conrad and *The Good Soldier* and *Parade s End* by Ford Armstrong examines how each writer dramatizes his understanding of the act of knowing Armstrong demonstrates how the novelists attitudes toward the process of knowing inform experiments with representation through which they thematize the relation between the understanding of a fictional world and everyday habits of perception Finally he considers how these experiments with the strategies of narration produce a heightened awareness of the process of interpretation **Realism, Form, and Representation in the Edwardian Novel** Charlotte Jones, 2021 Charts developments in literary realism between fin de siècle naturalism and early modernism by examining a wide range of realist novels from the Edwardian period focusing in particular on works by Joseph Conrad May Sinclair Arnold Bennett H G Wells and Ford Madox Ford **Art, Mind, and Narrative** Julian Dodd, 2016 This volume presents new essays on art mind and narrative inspired by the work of the late Peter Goldie Topics covered include the role of narrative thinking in our lives the nature of our imaginative engagement with fiction the emotions and their role in motivating action and the nature of conceptual art
