Department of Oriental Printed Books and Manuscripts, Alexander George Ellis, 1894 *Lord of Arabia* H. C. Armstrong, 1940 **The Politics of Truth Management in Saudi Arabia** Afshin Shahi, 2013-12-04 Exploring the management of truth in the Kingdom of Saudi Arabia this book aims to investigate the ways in which the official truth is constructed and institutionalised in the country The Politics of Truth Management in Saudi Arabia argues that there are two interrelated notions which articulate the ways in which truth is conceptualised in Islam One at macro level constitutes the trans historical foundational principles of the religion a set of engrained beliefs which establish the finality and oneness of Islam in relation to other competing narratives The other at a micro level takes place internally to find truth within the truth Unlike Islamic truth at the macro level which is entrenched the Islamic truth at the micro level refers to the various attempts by different agencies to claim to have found the truth within the truth Wahhabism which is the product of an eighteenth century revivalist movement is portrayed as the most authentic reading of Islam It is seen as the *raison d'être* for the prevailing political mechanism in the country and is introduced as an example of truth management at the micro level Arguing that truth is not born in a power vacuum and often its construction and institutionalisation signify domination in one way or another this book will be of interest to students of Religion Politics and Saudi Politics more specifically *Saudi Arabia Under Ibn Saud* J.E. financial and economic matters were not his forte and these he left mostly to a single individual Abdullah al Sulayman al Hamdan He was entrusted with nearly all of the country's early financial dealings and administrative development The Ministry of Finance which he headed from its inception served as nearly the sole government agency dealing with a wide variety of matters many of which had only a peripheral connection to finance or the economy This book examines the role of the Ministry of Finance and its minister Abdullah al Sulayman in holding the country together financially and administratively until the promise of substantial oil income was realized a few years after the end of World War II It will be essential reading for anyone interested in Gulf History and the Economic History of the Middle East **Lord of Arabia, Ibn Saud, an**
