Barrett,Sarah Jane Gibbon,2016-11-25 This book is a study of communities that drew their identity and livelihood from their relationships with water during a pivotal time in the creation of the social economic and political landscapes of northern Europe It focuses on the Baltic North and Irish Seas in the Viking Age ad 1050 1200 with a few later examples such as the Scottish Lordship of the Isles included to help illuminate less well documented earlier centuries Individual chapters introduce maritime worlds ranging from the Isle of Man to Gotland while also touching on the relationships between estate centres towns landing places

and the sea in the more terrestrially oriented societies that surrounded northern Europe's main spheres of maritime interaction. It is predominately an archaeological project but draws no arbitrary lines between the fields of historical archaeology, history, and literature. The volume explores the complex relationships between long range interconnections and distinctive regional identities that are characteristic of maritime societies seeking to understand communities that were brought into being by their relationships with the sea and who set waves in motion that altered distant shores. *The Fourteenth-century Sheriff* Richard Gorski, 2003. A study of the careers of over 1200 sheriffs appointed in England during the fourteenth century. The Foundation of Nostell Priory, 1109-1153 Judith A. Frost, 2007. **Rulership and Rebellion in the Anglo-Norman World, c.1066-c.1216** Paul Dalton, David Luscombe, 2016-03-09. The importance of the themes of rulership and rebellion in the history of the Anglo-Norman world between 1066 and the early thirteenth century is incontrovertible. The power, government, and influence of kings, queens, and other lords pervaded and dominated society and was frequently challenged and resisted. But while biographies of rulers, studies of the institutions and operation of central, local, and seigniorial government, and works on particular political struggles abound, many major aspects of rulership and rebellion remain to be explored or further elucidated. This volume, written by leading scholars in the field and dedicated to the pioneering work of Professor Edmund King, will make an original, important, and timely contribution to our knowledge and understanding of Anglo-Norman history. Power and Border Lordship in Medieval France Kathleen Thompson, 2002.
