Lost Battles Philip Sabin, 2015-02-05 From the author's introduction Ancient battles seize the modern imagination Far from being forgotten they have become a significant aspect of popular culture prompting a continuing stream of books feature films television programs and board and computer games there is a certain escapist satisfaction in looking back to an era when conflicts between entire states turned on clear cut pitched battles between formed armies lasting just a few hours and spanning just a few miles of ground These battles were still unspeakably traumatic and grisly affairs for those involved at Cannae Hannibal's men butchered around two and a half times as many Romans out of a much smaller overall population as there were British soldiers killed on the notorious first day of the Somme However as with the great clashes of the Napoleonic era time has dulled our preoccupation with such awful human consequences and we tend to focus instead on the inspired generalship of commanders like Alexander and Caesar and on the intriguing tactical interactions of units such as massed pikemen and war elephants within the very different military context of pre gunpowder warfare *Lost Battles* takes a new and innovative approach to the battles of antiquity Using his experience with conflict simulation Philip Sabin draws together ancient evidence and modern scholarship to construct a generic grand tactical model of the battles as a whole This model unites a mathematical framework to capture the movement and combat of the opposing armies with human decisions to shape the tactics of the antagonists Sabin then develops detailed scenarios for 36 individual battles such as Marathon and Cannae and uses the comparative structure offered by the generic model to help cast light on which particular interpretations of the ancient sources on issues such as army size fit in best with the general patterns observed elsewhere Readers can use the model to experiment for themselves by re-fighting engagements of their choice tweaking the scenarios to accord with their own judgment of the evidence trying out different tactics from those used historically and seeing how the battle then plays out *Lost Battles* thus offers a unique dynamic insight into ancient warfare combining academic rigor with the interest and accessibility of simulation gaming This book includes access to a downloadable computer simulation where the reader can view the author's simulations as well create their own [The Long Win - 1st edition](#) Cath Bishop, 2020-10-13 Powerful and profound Matthew Syed Anyone interested in motivation should read this book and think deeply Margaret Heffernan Selected as one of the Financial Times's Best Business Books of 2020 THE PEOPLE BOOK PRIZE 2022 23 SHORTLISTED TITLE In this fascinating examination of our widespread obsession with winning Cath Bishop draws on her personal experience of high performance environments to trace the idea of winning through history language and thought to explore how it has come to be a defining concept in fields from sport to business from politics to education Faced with the challenges and opportunities of the 21st century Cath offers a new broader approach *The Long Win* Cath competed as a rower at three Olympic Games becoming the first British woman to win the World Championships and an Olympic medal in the coxless pairs event As a senior diplomat Cath worked on policy and negotiations specializing in stabilization policy for

conflict affected parts of the world In business Cath has acted as a coach and consultant advising on team and leadership development and organizational culture and teaches on the Executive Education Faculty at the Judge Business School Cambridge University In this book she brings that extraordinary mix of experience to examine what winning has come to mean to society and to us as individuals and offers a fresh perspective on how we might redefine success personal and professional for the longer term Looking at life from a different point of view is a rare skill Built on in depth research and broad experience as well as original thought this book will change your outlook on everything Clare Balding OBE This book is so relevant timely and exciting for any person or organization wanting to investigate what success means to them It couldn't be a more relevant book right now and Cath's exceptional ability in so many areas of life make it a gripping read with a lot of key takeaways whatever your area of interest I wish every leader could immediately read this book as the world would be a better place if they did Goldie Sayers Olympic Medallist in the Javelin Coach I love this book It is a must read for educators business executives policy makers politicians and indeed anyone who wants to understand why we need a new narrative around winning and success We need a lot more Long Win Thinking in our homes businesses and institutions and Cath's book is the place to go to find out why and how we get there Dame Helena Morrissey **Battles and Leaders of the Civil War**

Germany's Defeat in the First World War Mark D. Karau, 2015-05-12 A noted World War I scholar examines the critical decisions and events that led to Germany's defeat arguing that the German loss was caused by collapse at home as well as on the front Much has been written about the causes for the outbreak of World War I and the ways in which the war was fought but few historians have tackled the reasons why the Germans who appeared on the surface to be winning for most of the war ultimately lost This book in contrast presents an in depth examination of the complex interplay of factors social cultural military economic and diplomatic that led to Germany's defeat The highly readable work begins with an examination of the strengths and weaknesses of the two coalitions and points out how the balance of forces was clearly on the side of the Entente in a long and drawn out war The work then probes the German plan to win the war quickly and the resulting campaigns of August and September 1914 that culminated in the devastating defeat in the First Battle of the Marne Subsequent chapters discuss the critical factors and decisions that led to Germany's loss including the British naval blockade the role of economic factors in maintaining a consensus for war and the social impact of material deprivation **Battles and Leaders of the Civil War: and 4** Robert Underwood Johnson, Clarence Clough Buel, 1888 **Battles and Leaders of**
