Shell Shock Cinema Anton Kaes, 2009-08-24 How war trauma haunted the films of Weimar Germany Shell Shock Cinema explores how the classical German cinema of the Weimar Republic was haunted by the horrors of World War I and the devastating effects of the nation's defeat In this exciting new book Anton Kaes argues that masterworks such as *The Cabinet of Dr Caligari* *Nosferatu* *The Nibelungen* and *Metropolis* even though they do not depict battle scenes or soldiers in combat engaged the war and registered its tragic aftermath These films reveal a wounded nation in post traumatic shock reeling from a devastating defeat that it never officially acknowledged let alone accepted Kaes uses the term shell shock coined during World War I to describe soldiers suffering from nervous breakdowns as a metaphor for the psychological wounds that found expression in Weimar cinema Directors like Robert Wiene F W Murnau and Fritz Lang portrayed paranoia panic and fear of invasion in films peopled with serial killers mad scientists and troubled young men Combining original close textual analysis with extensive archival research Kaes shows how this post traumatic cinema of shell shock transformed extreme psychological states into visual expression how it pushed the limits of cinematic representation with its fragmented story lines distorted perspectives and stark lighting and how it helped create a modernist film language that anticipated film noir and remains incredibly influential today A compelling contribution to the cultural history of trauma Shell Shock Cinema exposes how German film gave expression to the loss and acute grief that lay behind Weimar's sleek facade

major problem confronting European society at the time in which this book was first published in 1987 and is arguably still the case today This collection of essays by British and German historians contributes to the debate by taking a close look at unemployment in the Weimar Republic What groups were most severely affected and why How did they react How effective were welfare and job creation schemes Did unemployment fuel social instability and political extremism How far was unemployment a cause of the collapse of the Weimar Republic and the triumph of the Third Reich Did the Nazis solve the unemployment problem by peaceful Keynesianism or through massive rearmament This book is ideal for students of history sociology and economics

Mirrors of Mortality (Routledge Revivals) Joachim Whaley, 2012-08-06 First published in 1981 this reissue examines mankind's preoccupation with death and mortality by isolating various societies in different periods of time The authors examine not only the formal rituals associated with the last rite of passage but also the social attitudes to death and dying which these rituals evidence The essays establish that different periods do seem to be characterized by different images of death and attitudes to it but the authors wisely avoid trying to impose strict chronological pattern A pioneering work in the historical study of attitudes to death this reissue should reignite discussion on the significance of death in human history Christiane Sourvinou Inwood examines attitudes to death as reflected in myth and religious thought in Ancient Greece and relates them to social and economic change R C Finucane analysis the social significance of the exemplary deaths of kings criminals traitors and saints in medieval Europe Paul Fritz's essay illustrates the importance of royal burials in early modern Britain while Joachim Whaley examines the social and political significance of funerals in Hamburg between 1500 and 1800 John McManners discusses the work of Philippe Aries and other prominent French scholars on the history of attitudes to death David Irwin examines the images of death portrayed in European tombs around 1800 C A Bayly analyzes the relationship between death ritual and society in Hindu Northern India while David Cannadine discusses the impact of war on attitudes to death in modern Britain

Veteran MPs and Conservative Politics in the Aftermath of the Great War Richard Carr, 2016-03-03 Between 1918 and 1939 448 men who performed uniformed service in the First World War became Conservative MPs This relatively high profile cohort have been under explored as a distinct body yet a study of their experiences of the war and the ways in which they and the Conservative Party represented those experiences to the voting public reveals much about the political culture of Interwar Britain and the use of the Great War as political capital Radicalised ex servicemen have thus far been considered a rather continental phenomenon historiographically And whilst attitudes to Hitler and Mussolini form part of this analysis the study also explores why there were fewer such types in Britain The Conservative Party it will be shown played a crucial part in such a process with British politics serving as a contested space for survivors interpretations of what the war should mean

Words in Time Francesco Benigno, 2017-04-21 Examines the origins and development of the words we use critiquing the ways in which they have traditionally been employed in historical thinking and examining their potential usefulness today Provided by the publisher

Cultures, Communities, and Conflict Euthalia Lisa Panayotidis, Paul James Stortz, 2012-01-01 Contributing to the social intellectual and academic history of universities the collection provides rich approaches to integral issues at the intersection of higher education and wartime including academic freedom gender peace and activism on campus and the challenges of ethnic diversity The contributors place the historical university in several contexts not the least of which is the university's substantial power to construct and transform intellectual discourse and promote efforts for change both on and off campus
