Lost In The Customhouse Authorship In The American Renaissance:

Lost in the Customhouse Jerome Loving, 2005-08 In this spirited challenge to dominant American literary criticism Jerome Loving extends the traditional period of American literary rebirth to the end of the nineteenth century and argues for the intrinsic value of literature in the face of new historicist and deconstructionist readings Bucking the trend for prophetic and revisionist interpretations Loving discusses the major work of the last century's canonized writers as restorative adventures with the self and society From Washington Irving to Theodore Dreiser Loving finds the American literary tradition filled with narrators who keep waking up to the central scene of the author's real or imagined life They travel through a customhouse of the imagination in which the Old World experience of the present is taxed by the New World of the utopian past where life is always cyclical instead of linear and ameliorative Loving argues that the central literary experience in nineteenth century America is the puritanical desire for the time before the loss of innocence that endless chance of coming into experience anew *Lost in the Customhouse* begins with a discussion of Irving Hawthorne Melville Poe Thoreau and Emerson and finds these seminal Renaissance writers waking up primarily to psychological facts which blossomed into the fiction of a self begotten out of the nothingness of experience In part 2 Loving shifts his attention to the urbanization of the American imagination and discusses Whitman Twain Dickinson James Chopin and Dreiser Here the dream driven impulse is more clearly influenced by social history abolition women's suffrage industrialization and the growth of professionalism Loving focuses upon the role of the woman who finds herself on the same frontier as her male precursors with nothing but a carpetbag that is to say the American ego Throughout the study Loving challenges the notion that American literature is preponderately cultural work In the epilogue he packs up his own carpetbag and passes through the European customhouse to find that American writers are more readily perceived as literary geniuses outside of their culture than within it

Masterpieces of American Romantic Literature Melissa McFarland Pennell, 2006-06-30 The Romantic movement led to some of the greatest works of 19th century American literature Written expressly for students this book offers succinct introductions to 10 of the most important works of American Romanticism many of which reflect the social political and historical concerns of the era Included are chapters on Emerson's essays Poe's *The Raven* and selected stories Hawthorne's *The Scarlet Letter* Stowe's *Uncle Tom's Cabin* and several other major texts or collections Each chapter provides biographical information a review of the author's critical reception and a discussion of characters plot themes language and other topics The volume closes with a bibliography of primary and secondary sources Romanticism significantly influenced American literature in the 19th century and led to what has sometimes been called the American Renaissance The Romantic movement and the period roughly contemporaneous with the Civil War gave birth to some of the most creative and enduring poems novels short fiction and essays These works are among the most imaginative and challenging pieces of American literature and hold a central place in the curriculum In addition to their value as literary works they chronicle the enormous

social political and historical changes taking place in America Written expressly for high school students this book conveniently introduces the major works of American Romanticism *Encyclopedia of American Poetry: The Nineteenth Century* Eric L. Haralson, 2014-01-21 With contributions from over 100 scholars the Encyclopedia of American Poetry The Nineteenth Century provides essays on the careers works and backgrounds of more than 100 nineteenth century poets It also provides entries on specialized categories of twentieth century verse such as hymns folk ballads spirituals Civil War songs and Native American poetry Besides presenting essential factual information each entry amounts to an in depth critical essay and includes a bibliography that directs readers to other works by and about a particular poet Women and Authorship in Revolutionary America Angela Vietto, 2017-03-02 Exploring the wealth of writings by early American women in a broad spectrum of genres Women and Authorship in Revolutionary America presents one of the few synthetic approaches to early US women s writing Through an examination of the strategic choices writers made as they constructed their authorial identities at a moment when ideals of both Author and Woman were in flux Angela Vietto argues that the relationship between gender and authorship was dynamic women writers drew on available conceptions of womanhood to legitimize their activities as writers and often simultaneously drew on various conceptions of authorship to authorize discursive constructions of gender Focusing on the half century surrounding the Revolution this study ranges widely over both well known and more obscure writers including Mercy Otis Warren Judith Sargent Murray Sarah Wentworth Morton Hannah Griffiths Annis Boudinot Stockton Elizabeth Graeme Fergusson Deborah Gannett and Sarah Pogson Smith The resulting analysis complicates and challenges a number of critical commonplaces presenting instead a narrative of American literary history that presents the novel as women s entrance into authorship dichotomized views of civic and commercial authorship and of manuscript and print cultures and a persistent sense that women of letters constantly struggled against a literary world that begrudged them entrance based on their gender A Historical Guide to Walt Whitman David S. Reynolds, 2000 This Guide combines contemporary cultural studies and historical scholarship to illuminate Whitman s diverse contexts The essays explore dimensions of Whitman s dynamic relationship to working class politics race and slavery sexual mores the visual arts the idea of democracy **Encyclopedia of American Literature** Manly, Inc., 2013-06 Susan Clair Imbarrato Carol Berkin Brett Barney Lisa Paddock Matthew J Bruccoli George Parker Anderson Judith S **The Scarlet Letter and Other Writings (Second International Student Edition) (Norton Critical Editions)** Nathaniel Hawthorne, 2017-02 This perennially popular Norton Critical Edition has been revised to reflect the most current scholarly approaches to The Scarlet Letter Hawthorne s most widely read novel as well as to the five short prose works Mrs Hutchinson Endicott and the Red Cross Young Goodman Brown The Minister s Black Veil and The Birth mark that closely relate to the 1850 novel This Second Norton Critical Edition also includes Revised and expanded explanatory footnotes a new preface and a note on the text by Leland S Person Key passages from Hawthorne s notebooks and letters that suggest the close relationship between his

private and public writings Seven new critical essays by Brook Thomas Michael Ryan Thomas R Mitchell Jay Grossman Jamie Barlowe John Ronan and John F Birk A Chronology and revised and expanded Selected Bibliography **Walt Whitman of Mickle Street** Geoffrey M. Sill, 1994 **Nineteenth Century Prose**, 1993 Dreaming Revolution Scott Bradfield, 1993

Dreaming Revolution usefully employs current critical theory to address how the European novel of class revolt was transformed into the American novel of imperial expansion Bradfield shows that early American romantic fiction including works by William Godwin Charles Brockden Brown James Fenimore Cooper and Edgar Allan Poe can and should be considered as part of a genre too often limited to the Nineteenth century European novel Beginning with Godwin's Caleb Williams Bradfield describes the ways in which revolution legitimates itself as a means of establishing Political consensus For European revolutionaries like Godwin or Rousseau the tyranny of the king must be replaced by the more indisputable authority of human reason In other words democratic revolution makes people free to investigate the same truths and arrive at the same democratic conclusions In the American novel however the Enlightenment's idealized pursuit of abstract truth becomes restructured as a pursuit of abstract space Instead of revealing knowledge Americans explore further territories manifest destiny limitless regions of the yet to be colonized and the still to be known In a spirited discussion of works by Brown Cooper and Poe Bradfield argues that Americans take the class dynamics of the European psychological novel and apply them to the American landscape reimagining psychological spaces as geographical ones Class distinctions become refigured in terms of the common people's pursuit of a meaning vaster than themselves a meaning which leads them to imagine the always expanding body of colonial America However since class conflict is never successfully eliminated or forgotten the memory of class struggle always reemerges in the narrative like a half repressed dream of politics In Dreaming Revolution Bradfield reveals and interprets these dreams opening these American novels to a richer and more rewarding reading
