James,2023-09-19 A playful embrace of tall tales and exaggeration Monumental Lies explores the evolution of folklore in the Wild West Monumental Lies Early Nevada Folklore of the Wild West opens the door to understanding how legends and traditions emerged during the first decades following the Rush to Washoe which transformed the region beginning in 1859 During this Wild West period there was widespread celebration of deceit manifesting in tall tales burlesque lies practical jokes and journalistic hoaxes Humor was central to these endeavors and practitioners easily found themselves scorned if they failed to be adequately funny This ethos became central to the way folklore emerged during the formative years of the Nevada territory and state The tens of thousands of people who came to the West attracted by gold and silver mining brought distinct cultural legacies The interaction of diverse perspectives even while new stories and traditions coalesced or simply appeared was a complex process Author Ronald M James addresses how the fluidity of the region affected new expressions of folklore as they took root Mark Twain often a go to source for collections of early tall tales of this region cannot be overlooked but his interaction with local traditions was specific and narrow More importantly William Wright publishing as Dan De Quille arose as a key collector of legends a counterpart of early European folklorists With a bedrock understanding of what unfolded in the nineteenth century it is possible to consider **The Lost Canyon of Gold** W.C. Jameson,2017-09-01 Join the Search for Lost Treasure First popularized by folklorist and author J Frank Dobie in his book Apache Gold and Yaqui Silver in 1928 the legend of the Lost Adams Diggings is one of the most mythologized tales of lost treasure on the continent In the 1860s Gold was taken from Adams canyon in enormous quantities with nuggets ranging from dust size to some as large as hen s eggs all being plucked from the bottom of a shallow stream This true story of the Lost Adams Diggings starts with the discovery of the rich deposit of gold in a remote mountain range and ends with the author s own story of search and discovery in the twentieth century **Larger Than Life** Ferenc Morton Szasz,2006 Larger than Life offers eleven essays that touch on New

Zucker, 2014 The famous legend of the Iron Door Mine, a forgotten mission and a lost city somewhere in the Santa Catalina Mountains north of Tucson, Arizona, has lured prospectors and treasure hunters for hundreds of years. The discoveries of early Spanish placer mining sites, stone ruins and stories of the mountains only fueled speculation about the riches still left behind. Common knowledge among the locals eventually gained legendary status. Even more surprising was the abundance in gold, silver and copper etched into the mountains. These stories became embedded in Arizona's early history and were spun into some sensational legends and featured in numerous literary and film adventures. *Treasures of the Santa Catalina Mountains* explores the legends and history of the Catalinas compiled from out-of-print books, magazines, newspapers and recollections from local prospectors. What became Apache Junction in the Salt River Valley was already an established home for prehistoric Native Americans and the Apache tribe when it was further settled and cultivated by Spanish and Mexican expeditions, American wagon trains, mountain men and the U.S. military in the late 19th century. But Apache Junction became legendary when German immigrant Jacob Waltz discovered a secret gold mine. Thousands of prospectors traversed the crooked top of Superstition Mountains in search of this treasure, enriching the area's history and leading to the development of a unique community that has endured and grown alongside the famous legend *Great Mysteries of the West* Ferenc Morton Szasz, 1993 In this collection of essays, 14 scholars review
