**Lucifer** ,1890      *Theosophy* René Guénon,2004 Since the late nineteenth century the Theosophical Society has been a central force in the movement now known as the New Age Just as the Communist Party was considered old hat by peace activists in the 60s so the Theosophical Society was looked upon by many in the spiritual revolution of those years as cranky uninteresting and pass But the Society like the Party was always there and despite its relatively few members always better organized than anybody else Since then the Society s influence has certainly not waned It plays an important role in today s global interfaith movement and since the flowering of the New Age in the 70s has established increasingly intimate ties with the global elites And its various spinoffs such as Elizabeth Clare Prophet s Summit Lighthouse and Benjamin Creme s continuing attempt to lead a World Teacher Maitreya onto the global stage just as the Society tried to do in the last century with Krishnamurti continue to send waves through the sea of alternative spiritualities Guénon shows how our popular ideas of karma and reincarnation actually owe more to Theosophy than to Hinduism or Buddhism provides a clear picture of the charlatanry that was sometimes a part of the Society s *modus operandi* and gives the early history of the Society s bid for political power particularly its role as an agent of British imperialism in India It is fitting that this work should finally appear in English just at this moment when the influence of pseudo esoteric spiritualities on global politics is probably greater than ever before in Western history      **Lucifer** ,1894-03      **Masters of the Ninth Art** Matthew Screech,2005-01-01 In English speaking countries Francophone comic strips like Hergé s *Les Aventures de Tin Tin* and Goscinny and Uderzo s *Les Aventures d Asterix* are viewed and marketed as children s literature But in Belgium and France their respective countries of origin such strips known as *bandes dessinées* are considered a genuine art form or more specifically the ninth art But what accounts for the drastic difference in the way such comics are received In *Masters of the Ninth Art* Matthew Screech explores that difference in the reception and reputation of *bandes dessinées* Along with in depth looks at *Tin Tin* and *Asterix* Screech considers other major comics artists such as Jacques Tardi Jean Giraud and Moebius assessing in the process their role in Francophone literary and artistic culture Illustrated with images from the artists discussed *Masters of the Ninth Art* will appeal to students of European popular culture literature and graphic art      ,      **Like a Tree Universally Spread** Keith Edward Cantú,2023 This book reconstructs the tantalizing tale of Sri Sabhapati Swami ca 1828-1923-4 today a little known swami who was originally from Tamil Nadu in southern India and historically contextualizes a fascinating type of yoga that Sabhapati claimed would lead to an experience of being like a tree universally spread The practical method of having this experience in technical terms called the *samadhi* or *composure* of *sivarajayoga* or the *Royal yoga for siva* was published in English and multiple Indic languages and lavishly illustrated in diagrams on subtle and physical bodies This book is the first book length treatment on Sabhapati Swami scholarly or otherwise and uses critically edited sources printed in Tamil Devanagari and Bengali scripts to reveal the expansion of his literature across South Asia and globally the vast majority of

which has never before been considered in any scholarly work to date The book shows how intertwined Sabhapati's yoga is with historical Tamil saiva and Siddha movements including the mythos of the rishi Agastya and also with Hathayoga and mantra based ritual It also takes into account his and his followers wrestling with the Victorian scientific worldview and their rationalization of Hindu philosophical discourses in the colonial period Finally the book demonstrates the extent to which Sabhapati's teachings were integrated into esoteric religious movements such as the Theosophical Society the Thelema of Aleister Crowley and New Thought and suggests that a reappraisal of scholarship on the roots of yoga in these movements is long overdue

Blavatsky, 2006 In an enchanting manner it is depicted that the most true and sincere feelings will prevail and conquer An anthology of tales written with lighter mood and vivid imagination Blavatsky has employed her encyclopedic knowledge occult powers and inimitable audacity in this work An engrossing read

**Utopia** David Ayers, Benedikt Hjartarson, Tomi Huttunen, Harri Veivo, 2015-12-14 Utopian hope and dystopian despair are characteristic features of modernism and the avant garde Readings of the avant garde have frequently sought to identify utopian moments coded in its works and activities as optimistic signs of a possible future social life or as the attempt to preserve hope against the closure of an emergent dystopian present The fourth volume of the EAM series European Avant Garde and Modernism Studies casts light on the history theory and actuality of the utopian and dystopian strands which run through European modernism and the avant garde from the late 19th to the 21st century The book's varied and carefully selected contributions written by experts from around 20 countries seek to answer such questions as how have modernism and the avant garde responded to historical circumstance in mapping the form of possible futures for humanity how have avant garde and modernist works presented ideals of living as alternatives to the present how have avant gardists acted with or against the state to remodel human life or to resist the instrumental reduction of life by administration and industrialisation

**Borderland** William Thomas Stead, 1897 *The Theosophist*, 1899 *The Comics of Hergé* Joe Sutliff Sanders, 2016-07-28 Contributions by J. Nathan Miranda de Araújo Guillaume de Syon Hugo Frey Kenan Kök Andrei Molotiu Annick Pellegrin Benjamin Picado Vanessa Meikle Schulman Matthew Screech and Gwen Athene Tarbox As the creator of Tintin Hergé 1907-1983 remains one of the most important and influential figures in the history of comics When Hergé born Georges Prosper Remi in Belgium emerged from the controversy surrounding his actions after World War II his most famous work leapt to international fame and set the standard for European comics While his style popularized what became known as the clear line in cartooning this edited volume shows how his life and art turned out much more complicated than his method The book opens with Hergé's aesthetic techniques including analyses of his efforts to comprehend and represent absence and the rhythm of mundaneness between panels of action Broad views of his career describe how Hergé navigated changing ideas of air travel while precise accounts of his life during Nazi occupation explain how the demands of the occupied press transformed his understanding of what a comics page could do The next section considers a subject with

which Herg was himself consumed the fraught lines between high and low art By reading the late masterpieces of the Tintin series these chapters situate his artistic legacy A final section considers how the clear line style has been reinterpreted around the world from contemporary Francophone writers to a Chinese American cartoonist and on to Turkey where Tintin has been reinvented into something meaningful to an audience Herg probably never anticipated Despite the attention already devoted to Herg no multi author critical treatment of his work exists in English the majority of the scholarship being in French With contributors from five continents drawing on a variety of critical methods this volume s range will shape the study of Herg for many years to come      **A Dictionary of Plant Names** H. **Iconicity** Angelika Zirker, Matthias Bauer, Olga Fischer, Christina Ljungberg, 2017-09-08 This volume addresses five different Dimensions of Iconicity While some contributions examine the phonic dimensions of iconicity that are based on empirical diachronic and theoretical work others explore the function of similarity from a cognitive point of view The section on multimodal dimensions takes into account philosophical linguistic and literary perspectives in order to analyse for example the diagrammatic interplay of written texts and images Contributions on performative dimensions of iconicity focus on Buddhist mantras Hollywood films and the dynamics of rhetorical structures in Shakespeare Last but not least the volume also addresses new ways of considering iconicity including notational iconicity the interplay of iconicity ambiguity

interpretability and the iconicity of literary analysis from a formal semanticist point of view      **The Clear Line in Comics and Cinema** David Pinho Barros, 2022-06-30 Historical and theoretical analysis of the clear line style in comics and cinema The clear line a term coined in 1977 by Dutch essayist and artist Joost Swarte has become shorthand in the field of comics studies for the style originally developed by Herg and the cole de Bruxelles It refers to certain storytelling strategies that generate a deceptively simple lucid and hygienic narration in Philippe Marion s words it is a style made out of light fluidity and limpid clarity By cataloguing and critically analysing clear line comics from historical and theoretical perspectives this book offers a new outlook on the development of the style in the 20th and 21st centuries especially focused on the context of the European bande dessinée In addition it pioneeringly expands the concept of clear line to other artistic domains by introducing and defending its transmedial use which is particularly relevant for the understanding of the oeuvres of certain filmmakers of the 20th century working in the postwar period such as Yasujir Ozu in Japan Jacques Tati in France and Frank Tashlin in the United States The Clear Line in Comics and Cinema is therefore a key theoretical work for both bande dessinée enthusiasts and comics scholars as well as a fundamental contribution to present day film studies and transmedial narratology      **A Book of French Prosody** Louis Brandin, 1904
