White Women, Rape, and the Power of Race in Virginia, 1900-1960 Lisa Lindquist Dorr, 2005-12-15 For decades historians have primarily analyzed charges of black on white rape in the South through accounts of lynching or manifestly unfair trial proceedings suggesting that white southerners invariably responded with extralegal violence and sham trials when white women accused black men of assault Lisa Lindquist Dorr challenges this view with a careful study of legal records newspapers and clemency files from early twentieth century

Virginia White Virginians inflammatory rhetoric she argues did not necessarily predict black men's ultimate punishment. While trials were often grand public spectacles at which white men acted to protect white women and to police interracial relationships, Dorr points to cracks in white solidarity across class and gender lines. At the same time, trials and pardon proceedings presented African Americans with opportunities to challenge white racial power. Taken together, these cases uncover a world in which the mandates of segregation did not always hold sway in which whites and blacks interacted in the most intimate of ways and in which white women and white men saw their interests in conflict. In Dorr's account, cases of black on white rape illuminate the paradoxes at the heart of segregated southern society: the tension between civilization and savagery, the desire for orderly and predictable racial boundaries despite conflicts among whites and relationships across racial boundaries, and the dignity of African Americans in a system dependent on their supposed inferiority. The rhetoric of protecting white women spoke of white supremacy and patriarchy, but its practice revealed the limits of both.

Interracial Intimacy Rachel F. Moran, 2001. Crossing disciplinary lines. Moran looks in depth at interracial intimacy in America from colonial times to the present. She traces the evolution of bans on intermarriage and explains why blacks and Asians faced harsh penalties while Native Americans and Latinos did not. She provides fresh insight into how these laws served complex purposes: why they remained on the books for so long and what led to their eventual demise. As Moran demonstrates, the United States Supreme Court could not declare statutes barring intermarriage unconstitutional until the civil rights movement, coupled with the sexual revolution, had transformed prevailing views about race, sex, and marriage.

Conjugal Misconduct William Kuby, 2018-03. Examines the experiences of couples in controversial unions and the legal and cultural backlash against contested marital arrangements in twentieth-century America. Will appeal to readers studying marriage law, gender, sexuality, class, and race in the US and those seeking historical insight into the recent debates over the definition of marriage.

Working through Whiteness Cynthia Levine-Rasky, 2012-02-01. What is whiteness? What is gained by claiming it as a critical perspective in anti-racism work? How do whiteness studies both redeem and assert the white subject? *Working through Whiteness* explores these questions through essays by Canadian, American, British, and Australian scholars reflecting the broad array of academic inquiry into whiteness in the areas of law, ethics, education, feminism, politics, psychology, sociology, criminology, and social geography. Rarely has knowledge of whiteness as the practice of social domination been drawn from this far and wide. By embracing the leading edge in critical theory, this book is a crucial addition to the growing literature on whiteness.

The African-American Male Jacob U. Gordon, 1999-07-30. The plight of the Black male in American society has been well documented by scholars and practitioners. Although Black males represent only 6 percent of the American population, they represent about 40 percent of the prison population; the number of Black males in prison and jail exceeds the number of Black males in higher education. The homicide rates for Black males were 72.5 percent per 100,000, nearly eight times higher than for White males. This bibliographic volume explores the extent to which American

academia has addressed these problems It will be an invaluable resource for researchers as well as practitioners in social service programs In addition to more than 400 annotated publications the book includes a selected list of works on the African American male and a compilation of doctoral dissertations This publication will serve as a reference in public as well as academic libraries human service agencies government policymaking agencies and in academic courses in gender and ethnic studies criminal justice and social psychology

Flowe,2020-05-12 Early twentieth century African American men in northern urban centers like New York faced economic isolation segregation a biased criminal justice system and overt racial attacks by police and citizens In this book Douglas J Flowe interrogates the meaning of crime and violence in the lives of these men whose lawful conduct itself was often

surveilled and criminalized by focusing on what their actions and behaviors represented to them He narrates the stories of men who sought profits in underground markets protected themselves when law enforcement failed to do so and exerted control over public commercial and domestic spaces through force in a city that denied their claims to citizenship and manhood Flowe furthermore traces how the features of urban Jim Crow and the efforts of civic and progressive leaders to restrict their autonomy ultimately produced the circumstances under which illegality became a form of resistance Drawing from voluminous prison and arrest records trial transcripts personal letters and documents and investigative reports Flowe opens up new ways of understanding the black struggle for freedom in the twentieth century By uncovering the relationship between the fight for civil rights black constructions of masculinity and lawlessness he offers a stirring account of how working class black men employed extralegal methods to address racial injustice **Claiming Place** Marion

Matters of the Heart Angela Wanhalla,2014-01-01 From whalers and traders marrying into Maori families in the early 19th century to the growth of interracial marriages in the later 20th Matters of the Heart unravels the long history of interracial relationships in New Zealand It encompasses common law marriages and Maori customary marriages alongside formal arrangements recognized by church and state and shows how public policy and private life were woven together It also explores the gamut of official reactions from condemnation of interracial immorality or racial treason to celebration of New Zealand s unique intermarriage patterns as a sign of its progressive attitude toward race relations This social history focuses on the lives and experiences of real Maori and Pakeha people and reveals New Zealand s changing attitudes to race marriage and intimacy Amalgamation Schemes Jared Sexton,2008 In this analysis Sexton pursues a critique of contemporary multiracialism from the splintered political initiatives of the multiracial movement to the academic field of multiracial studies to the melodramatic media declarations about the browning of America He contests the rationales of colorblindness and multiracial exceptionalism and the promotion of a repackaged family values platform in order to demonstrate that the true target of multiracialism is the singularity of blackness as a social identity a political organizing principle and an object of desire From this vantage Sexton interrogates the trivialization of sexual violence under chattel slavery and the convoluted relationship between racial and sexual politics in the new multiracial consciousness BOOK JACKET
