Love And Death Talks On Contemporary And Perennial Themes:

Love... and Death Abraham Kaplan, 2025-10-01 In these eleven talks originally presented as the highly acclaimed television series *The Worlds of Abraham Kaplan* a great teacher discusses the most important questions of traditional and contemporary human experience Dr Kaplan's views reflect a deep concern for human dignity and a sensitive awareness of the obstacles which often hinder our self understanding our relationships and our happiness With wisdom and humane wit Kaplan deals with the attitudes and emotions which many of us feel but which few of us can articulate On Women the kind of discrimination which makes a problem for women blacks Catholics Jews Chicanos and all sorts of minorities and special groups in our society is this they are responded to differently in situations in which the differences make no difference On Religion authentic religious life in all cultures and all faiths is something that comes out of the fullness of a man's heart It is a gift in which we express our love rather than something which comes out of the poverty of our lives as a demand that something be given to us On Morals the great moral leaders of mankind the prophets the teachers the martyrs they have been the very men and women who made trouble On Technology We talk of modern technology as a Frankenstein monster that threatens to destroy us the symbol is perhaps better than is often appreciated Frankenstein was not the name of the monster Frankenstein was the name of the human being who created the monster On Loneliness I believe that one of the tragedies of our time is that if we have no other way of relating to others we do so by violence On Aging In many ways it is the old that are to be envied by the young they have so much less to lose that often they are capable of much more dedication and commitment to the values ideals and principles which provide meaning to all our lives On Death To die in a manner that is worthy of a human being is to die with a sense of one's identity as the human being he is as the locus of all the human values which intersect which come to a meeting point in his being as an embodiment of human dignity With Abraham Kaplan as Alfred Slote notes in his Foreword the reader is in the hands of a master teacher a philosopher a gadfly and a delightful and impassioned storyteller *Love and Death* is a book to own to ponder and to give to friends you cherish
