The Psychology of Romantic Love Nathaniel Branden, 2008-01-31 What love is why love is born why it sometimes grows and why it sometimes dies Have you ever

wondered how romantic love evolves What the difference is between mature and immature love What role sex plays in romantic love and whether love necessarily implies sexual exclusivity And most important how can we make love last Originally published in 1980 this updated edition of *The Psychology of Romantic Love* explores the nature of romantic love on many levels the philosophical the historical the sociological and the physiological Nathaniel Branden explains why so many people say that romantic love is just not possible in today s world and drawing on his experience with thousands of couples finds that such love is still a possibility for anyone who understands its essence and is willing to accept its challenges Branden sees it as a pathway not only to extraordinary joy but also to profound self discovery His vision of love is thoroughly appropriate to our time and grounded in our humanness **American Book Publishing Record** ,1990 **Women, Epic, and Transition in British Romanticism** Elisa Beshero-Bondar,2011 *Women Epic and Transition in British Romanticism* argues that early nineteenth century women poets contributed some of the most daring work in modernizing the epic genre The book examines several long poems to provide perspective on women poets working with and against men in related efforts contributing together to a Romantic movement of large scale genre revision Women poets challenged longstanding categorical approaches to gender and nation in the epic tradition and they raised politically charged questions about women s importance in moments of historical crisis While Romantic epics did not all engage in radical questioning or undermining of authority this study calls attention to some of the more provocative poems in their approach to gender culture and history This study prioritizes long poems written by and about women during the Romantic era and does so in context with influential epics by male contemporaries The book takes its cue from a dramatic increase in the publication of epics in the early nineteenth century At their most innovative Romantic epics provoked questions about the construction of ideological meaning and historical memory and they centralized women s experiences in entirely new ways to reflect on defeat loss and inevitable transition For the first time the epic became an attractive genre for ambitious women poets The book offers a timely response to recent groundbreaking scholarship on nineteenth century epic by Herbert Tucker and Simon Dentith and should be of interest to Romanticists and scholars of 18th and 19th century literature and history gender and genre and women s studies
