Soundmaking, Magic and Personality Jacqueline van Ommeren,2023-08-14 **Prohibition of Sex Discrimination, 1975** United States. Congress. Senate. Committee on Labor and Public Welfare. Subcommittee on Education,1976 *The Abusive Personality* Donald G. Dutton,1998-08-06 Physical violence may be the most overt manifestation of relationship abuse but maltreatment of intimate partners takes many other forms as well This integrative work explores the nature of male abusiveness by focusing on the development of a particular personality constellation one that is easily threatened jealous and fearful and that masks these emotions with anger and demands for control Presenting results of controlled research with over 400 batterers Dutton shows that many abusers exhibit high levels of trauma symptoms This symptomatology is cogently linked to elements of childhood experience including witnessing of violence the use of shaming techniques by parents and insecure attachment and in turn to such characteristics as terror of abandonment and the inability to regulate one's emotions or deal with conflict effectively A concluding chapter focuses on treatment **Green Psychology** Ralph Metzner,1999-06-01 A visionary ecopsychologist examines the rift between human beings and nature and shows what can be done to bring harmony to both the ecosystem and our own minds Shows that the solution to our ecological dilemma lies in our own consciousnesses It is becoming more and more apparent that the causes and cures for the current ecological crisis are to be found in the hearts and minds of human beings For millennia we existed within a religious and psychological framework that honored the Earth as a partner and worked to maintain a balance with nature But somehow a root pathology took hold in Western civilization the idea of domination over nature and this led to an alienation of the human spirit that has allowed an unprecedented destruction of the very systems which support that spirit In Green Psychology Ralph Metzner explores the history of this global pathology and examines the ways that we can restore a healing relationship with nature His search for role models takes him from shamanic ceremonies with the Lacandon Maya of Mexico to vision quests in the California desert from the astonishing nature mysticism of Hildegard von Bingen to the Black Goddesses and Green Gods of our pagan ancestors He examines the historical roots of the split between humans and nature showing how first sky god worshiping cultures then monotheisms and finally mechanistic science continued to isolate the human psyche from the life giving Earth His final chapters present a solution showing that disciplines such as deep ecology and ecofeminism are creating a worldview in which the mind of humanity and the health of the Earth are harmoniously intertwined *Routledge Library Editions: Organizations (31 vols)* Various,2021-12-02 Re issuing volumes originally published between 1949 and 1995

this 31 volume set examines the theory and behaviour of organizations Topics covered include the sociology of work leadership and organizations politics at work theory and practice of company organization patterns of business organization company strategy and organizational design **Woody Allen and Philosophy** Mark T. Conard, Aeon J. Skoble, 2011-04-15 Fifteen philosophers representing different schools of thought answer the question what is Woody Allen trying to say in his films And why should anyone care Focusing on different works and varied aspects of Allen's multifaceted output these essays explore the philosophical undertones of *Annie Hall* *Crimes and Misdemeanors* *Manhattan* *A Midsummer Night's Sex Comedy* and reminds us that just because the universe is meaningless and life is pointless is no reason to commit suicide James Merrill Langdon Hammer, 2015 A biography of the acclaimed poet James Merrill *Isherwood on Writing* Christopher Isherwood, 2022-10-25 Isherwood's lectures on writing and writers now all available for the first time In the 1960s Christopher Isherwood gave an unprecedented series of lectures at California universities about his life and work During this time Isherwood who would liberate the memoir and become the founding father of modern gay writing spoke openly for the first time about his craft on writing for film theater and novels and spirituality Isherwood on Writing brings these free flowing wide ranging public addresses together to reveal a distinctly American Isherwood at the top of his form This updated edition contains the long lost conclusion to the second lecture published here for the first time including its discussion of *A Single Man* his greatest novel and *A Meeting by the River* his final novel *Plato's Revenge* William Ophuls, 2011-08-19 A provocative essay that imagines a truly ecological future based on political transformation rather than the superficialities of sustainability In this provocative call for a new ecological politics William Ophuls starts from a radical premise sustainability is impossible We are on an industrial Titanic fueled by rapidly depleting stocks of fossil hydrocarbons Making the deck chairs from recyclable materials and feeding the boilers with biofuels is futile In the end the ship is doomed by the laws of thermodynamics and by the implacable biological and geological limits that are already beginning to pinch Ophuls warns us that we are headed for a postindustrial future that however technologically sophisticated will resemble the preindustrial past in many important respects With *Plato's Revenge* Ophuls author of *Ecology and the Politics of Scarcity* envisions political and social transformations that will lead to a new natural law politics based on the realities of ecology physics and psychology In a discussion that ranges widely from ecology to quantum physics to Jungian psychology to Eastern religion to Western political philosophy Ophuls argues for an essentially Platonic politics of consciousness dedicated to inner cultivation rather than outward expansion and the pursuit of perpetual growth We would then achieve a way of life that is materially and institutionally simple but culturally and spiritually rich one in which humanity flourishes in harmony with nature
