Personal Power Program:

PersonalPower Alok Sood,2019-10-18 Adolescence is the age when aspirations germinate in a young mind and grow Every youngster wants to be successful in life and has role models to look up to But does every youngster have the clarity on what it takes to become a role model for others to emulate in life Unfortunately no Is it not important then to introduce your young one to those attributes It will provide that clarity to them and help in developing those attributes in time to taste success not just for sure but also early in life We all know that despite a few of the students scoring high marks in the examinations and having a brilliant academic career there are examples of many others who just perform average or even below average and yet become far more successful in life So what makes them so exceptionally successful It has to be something more than just performance in the examinations These attributes are known as the soft skills or what we sometimes refer to as the life skills But are all life skills equally important for achieving success Certainly not There are certain life skills which are critical to achieving all round success in personal social and professional domains in our lives These are what I call as PersonalPowerSkills Interested to know more about these skills Here is the opportunity to get your young one and yourselves introduced to these skills so that your child gets the idea and the enabling environment to learn and perfect these skills to be a successful individual in life

Tedeschi, 2017-07-12 Social psychologists have always been concerned with two person interactions and the factors enabling one person to gain dominance Although social psychology has devised a revolutionary set of techniques to investigate the phenomenon of power hypotheses are too often ambiguously stated research programs end in cul de sacs and experiments take on the character of one shot studies In an attempt to stimulate new directions in research and to provide cumulative emphasis on the development of scientific theory in the area of power relations Tedeschi has assembled original and path breaking essays from a dozen outstanding scholars and researchers in the behavioral sciences More tightly integrated than leading books in the field of power relations The Social Influence Processes focuses on two person interactions A full explanation of the terms power and influence is followed by an analysis of the major variables in connections between two persons that must be taken into account in a scientific theory of social influence The subsequent chapters respond to the categories established attempting a comprehensive construction of social reality and offering suggestions and techniques for measuring and ordering its complexity Particular areas of research and theory are isolated for consideration in depth such topics as personality as a power construct Power and Personality by Henry L Minton influence in exchange theory The Tactical Use of Social Power by Andrew Michener and Robert W Suchner and leadership through charisma Interpersonal Attraction and Social Influence by Elaine Walster and Darcy Abrahams In the final chapter Tedeschi Thomas Bonoma and

Barry R Schlenker attempt to provide a general theory of social influence processes as they affect the target individual by reviewing the research literature in their own theoretical terms This remarkable volume will be of interest to students as well

Substance Abuse Intervention, Prevention, Rehabilitation, and Systems Change Edith Freeman,2001-09-26 This book is the first to utilize the empowerment approach of social work practice with substance abusing clients bridging clinical community and social policy approaches in order to place individual addiction in its sociopolitical context As Lorraine Gutierrez points out in her foreword the book challenges us to transform our thinking about substance abuse and move beyond our existing focus on individual deficits Arguing that pathology focused definitions of substance abuse tend to transform people into their problems Freeman instead advocates for strengths centered policies and regulations as the means to empower clients communities and society as a whole Freeman outlines basic empowerment principles and practices then details the service delivery processes offers a context for power policy and funding decisions and examines the needs of special populations Case examples supplement each chapter and the final part examines four exemplary programs that demonstrate the empowerment process in action
