Power Play Oil In The Middle East:

Power Play Leonard Mosley,1973 *The Middle East Between the Great Powers* T. Petersen,2000-05-26 Anglo American rivalry in Egypt Iran and the Persian Gulf in the period 1952 to 1957 represented the transfer of power in the Middle East from Great Britain to the United States As Britain s influence in Egypt and Iran declined its determination to hold on to the Persian Gulf increased at one point threatening to kill any Americans found in the hotly contested Buraimi oasis The episode is little examined by historians but played a large role in the ensuing Suez crisis **Power Play** Asi Burak,Laura Parker,2017-01-31 An insider s view of the good things that can emerge from being glued to a screen A solid piece of pop culture business journalism Kirkus Reviews The phenomenal growth of gaming has inspired plenty of hand wringing since its inception from the press politicians parents and everyone else concerned with its effect on our brains bodies and hearts But what if games could be good not only for individuals but for the world In *Power Play* Asi Burak and Laura Parker explore how video games are now pioneering innovative social change around the world As the former executive director and now chairman of Games for Change Asi Burak has spent the last ten years supporting and promoting the use of video games for social good in collaboration with leading organizations like the White House NASA World Bank and The United Nations The games for change movement has introduced millions of players to meaningful experiences around everything from the Israeli Palestinian conflict to the US Constitution *Power Play* looks to the future of games as a global movement Asi Burak and Laura Parker profile the luminaries behind some of the movement s most iconic games including former Supreme Court judge Sandra Day O Connor and Pulitzer Prize winning authors Nicholas Kristof and Sheryl WuDunn They also explore the promise of virtual reality to address social and political issues with unprecedented immersion and see what the next generation of game makers have in store for the future **Middle East, the Strategic Hub** Army Library (U.S.),1978 *The End of Energy* Michael J. Graetz,2011-03-04 Forty years of energy incompetence villains failures of leadership and missed opportunities Americans take for granted that when we flip a switch the light will go on when we turn up the thermostat the room will get warm and when we pull up to the pump gas will be plentiful and relatively cheap In *The End of Energy* Michael Graetz shows us that we have been living an energy delusion for forty years Until the 1970s we produced domestically all the oil we needed to run our power plants heat our homes and fuel our cars Since then we have had to import most of the oil we use much of it from the Middle East And we rely on an even dirtier fuel coal to produce half of our electricity Graetz describes more than forty years of energy policy incompetence and argues that we must make better decisions for our energy future Despite thousands of pages of energy legislation since the 1970s passed by a Congress that tended to elevate narrow parochial interests over our national goals Americans have never been asked to pay a price that reflects the real cost of the energy they consume Until Americans face the facts about price our energy incompetence will continue and along with it the unraveling of our environment security and independence **The A to Z of the Petroleum**
