The Rise of the Memoir Alex Zwerdling, 2017 The Rise of the Memoir traces the growth and extraordinarily wide appeal of the memoir Its territory is private rather than public life shame guilt and embarrassment not the achievements celebrated in the public record What accounts for the sharp need writers like Rousseau Woolf Orwell Nabokov Primo Levi and Maxine Hong Kingston felt to write and to publish such works when they might more easily have chosen to remain silent Alex Zwerdling explores why each of these writers felt compelled to write them as that story can be reconstructed from personal materials available in archival collections what internal conflicts they encountered while trying and how each of them resisted the private and public pressures to stop themselves rather than pursuing this confessional route against their own doubts without a reasonable expectation that such works would be welcome in print and eventually find an empathetic audience Reconstructing this process in which a dubious project eventually becomes a compelling product a memoir that will last illuminates both what was at stake and why this serially invented open form has reshaped the expectations of readers who welcomed a vital alternative to the official story

Underserved Women of Color, Voice, and Resistance Sonja M. Brown Givens, Keisha Edwards Tassie, 2014-03-20 Contemporary research on the lives and experiences of women of color tends to neglect the influence of women s perceived access to voice as they manage tensions related to race class and gender Underserved Women of Color Voice and Resistance Claiming a Seat at the Table contributes to current dialogues that construct Black Feminist Theory as active critical engagement within dominant American institutions that oppress women of color in their daily lives Women of color face unique social challenges that exist at the intersections of race gender class and sexual orientation While some challenges are common to women of color others reflect the distinct journey each woman makes as she negotiates her identity within her family professional circle social and romantic relationships and community The editors have constructed a rich collection of voices in this work exploring the politics of women of color across various social contexts

On Reading Marcel Proust, John Ruskin, Eric Karpeles, Damion Searls, 2011-08-24 To understand a profound thought is to have at the moment one understands it a profound thought oneself and this demands some effort a genuine descent to the heart of oneself Only desire and love give us the strength to make this effort The only books that we truly absorb are those we read with real appetite after having worked hard to get them so great had been our need of them Reading was for Marcel Proust more than the pursuit of knowledge a truly spiritual activity it was a means of transforming and transcending the self By reading great authors he contends we not only learn of great ideas but are enriched by the fruits of the world s most inspirational minds
