## **Reader In Peace Studies:**

**Approaches to Peace** David P. Barash, 2010 *Approaches to Peace* provides a unique and interdisciplinary sampling of classic articles and short literary selections focusing on the diverse aspects of peace and conflict studies. Readings cover the causes of war and proposed means of preventing it and reflect upon the universal concern for positive peace. The material examines nonviolence movements, peace movements, religious inspirations, and our future prospects for peace. The book's balanced and unbiased approach makes it easily adaptable to both general discussions of peace and conflict as well as the rapidly changing issues of the moment. *Approaches to Peace* is able to stand on its own as a foundation text in any introductory peace studies course. It is also compact enough to use as a supplement with other more specialized readings or used in conjunction with a text. Each selection is prefaced by a short introduction highlighting the author's background, the work's historical context, and the selection's significance in terms of the big picture. Study questions and a list of suggested readings at the end of each selection also provide a useful resource for students.

**Peace and Conflict Studies** Charles Webel, Jørgen Johansen, 2012 *Peace and Conflict Studies: A Reader* is a comprehensive and intensive introduction to the key works in this growing field. Presenting a range of theories, methodologies, and approaches to understanding peace and to transforming conflict, this edited volume contains both classic and cutting-edge contemporary analyses. The text is divided into six general sections: PART I Peace Studies, Peace Education, and Peace; PART II Peace Theories and Peace Movements; PART III The Meanings and Nature of Conflict; PART IV Conflict Analysis, Transformation, and Prevention; PART V Nonviolent Action and Political Change; PART VI Building Institutions and Cultures of Peace. With an extensive introduction as well as recommendations for further reading and questions for the classroom, *Peace and Conflict Studies: A Reader* will be essential reading for students, teachers, and practitioners of peace and conflict studies and conflict resolution. It is also highly recommended for students of peace operations, peacebuilding, sociology, international security, and IR in general.

**A Reader in Peace Studies** Paul Smoker, Ruth Davies, Barbara Munske, 1990 By providing an introduction to the field of Peace Studies, this collection of articles from authors of all political persuasions and from many countries gives the reader an insight into the issues involved in the understanding of peace and conflict in the modern interdependent global system. The topics covered in the book include what is peace theory and why is it important; the contribution of feminism to the understanding of peace; the contribution of psychology to the understanding of peace; analyses of different forms of international conflict; various aspects of nuclear technology and related decision making; political and economic aspects of development in the Third World; and the alternative of nonviolence. The thought-provoking ideas presented here form the basis for discussion in Peace Studies courses as well as providing the general reader with the range of expert knowledge and learned opinion they need in order to be active and informed citizens.

empirical work on two youth peacebuilding programs in Australia and Northern Ireland countries that appear overtly peaceful but where youth still face structural violence and related direct violence at the community level She also pays careful attention to the ways in which gender norms might influence young people's participation in music based peacebuilding activities Ultimately the book defines a new research area linking youth cultures and music with peacebuilding practice and policy

**The Witch Studies Reader** Soma Chaudhuri, Jane Ward, 2025-02-21 Stories about witches are by their nature stories about the most basic and profound of human experiences healing sex violence tragedies aging death and encountering the mystery and magic of the unknown It is no surprise then that witches loom large in our cultural imaginations In academia studies of witches rarely emerge from scholars who are themselves witches and or embedded in communities of witchcraft practitioners The Witch Studies Reader brings together a diverse group of scholars practitioners and scholar practitioners who examine witchcraft from a critical decolonial feminist perspective that decenters Europe and departs from exoticizing and pathologizing writing on witchcraft in the global South The authors show how witches are keepers of suppressed knowledges builders of new futures exemplars of praxis and theorists in their own right Throughout they account for the vastly different national political economic and cultural contexts in which the witch is currently being claimed and repudiated Offering a pathbreaking transnational feminist examination of witches and witchcraft that upends white supremacist colonial patriarchal knowledge regimes this volume brings into being the interdisciplinary field of feminist witch studies Contributors Maria Amir Ruth Asimwe Bernadette Barton Ethel Brooks Shelina Brown Ruth Charnock Soma Chaudhuri Carolyn Chernoff Saira Chhibber Simon Clay Krystal Cleary Adrianna L Ernstberger Tina Escaja Laurie Essig Marcelitte Failla D Ferrett Marion Goldman Jaime Hartless Margaretha Haughwout Patricia Humura Apoorva Joshi Govind Kelkar Oliver Kellhammer Ay a Kurto lu Helen Macdonald Isabel Machado Brandy Renee McCann Dev Nathan Mary Jo Neitz Amy Nichols Belo Allison or AP Pierce Emma Quilty Anna Rogel Karen Schaller Jacquelyn Marie Shannon Shashank Shekhar Sinha Gabriella V Smith Nathan Snaza Shannon Hughes Spence Eric Steinhart Morena Tartari Nicole Trigg Katie Von Wald Tushabe wa Tushabe Jane Ward

Davis, 2006 The second edition of The Disability Studies Reader builds and improves upon the classic first edition which has sold well over 6000 copies since 1999 As a field disability studies burst onto the scene across the social sciences and humanities in the 1990s and the first edition of the reader gathered the best work that had been written on the subject including essays by famous authors such as Susan Sontag and Erving Goffman The new edition is more global in its coverage and adds material on genetic testing the human genome queer studies and issues in developing countries The size of the audience has grown since the first edition's publication and the second edition's new material will make it even more useful for courses on the subject Courses on the subject have mushroomed in the past ten years and can now be found across the social sciences humanities and behavioral sciences

The Palgrave Handbook of Disciplinary and Regional Approaches to Peace Oliver Richmond, Sandra

Pogodda, Jasmin Ramovic, 2016-03-15 In this handbook a diverse range of leading scholars consider the social cultural economic political and developmental underpinnings of peace This handbook is a much needed response to the failures of contemporary peacebuilding missions and narrow disciplinary debates both of which have outlined the need for more interdisciplinary work in International Relations and Peace and Conflict studies Scholars students and policymakers are often disillusioned with universalist and northern dominated approaches and a better understanding of the variations of peace and its building blocks across different regions is required Collectively these chapters promote a more differentiated notion of peace employing comparative analysis to explain how peace is debated and contested **War, Peace, And The Social**

**Order** Brian E. Fogarty, 2019-09-18 This book is the author's attempt to translate his knowledge of peace studies into the language of sociology so that the former can be grasped as a more complete whole It aims to increase interest among sociologists in issues of war and peace because they provide food for sociological thought **Peacebuilding Paradigms**

Henry F. Carey, 2020-12-17 Peacebuilding Paradigms focuses on how seven paradigms from the Comparative Politics International Relations and Policy Analysis subfields Realism Liberalism Constructivism Cosmopolitanism Critical Theories Locality and Policy analyze peacebuilding The contributors explore the arguments of each paradigm and then compare and contrast them This book suggests that a hybrid approach that incorporates useful insights from each of these paradigms best explains how and why peacebuilding projects and policies succeed in some cases fail in others and provide lessons learned Rather than merely using a theoretical approach the authors use case studies to demonstrate why a focus on just one paradigm alone as an explanatory model is insufficient This collection directly at how peacebuilding theory affects peacebuilding policies and provides recommendations for best practices for future peacebuilding missions **The Antonia**
