Resokratisierung Platons Die Platonische Hermeneutik Hansgeorg Gadamer:

Gadamer's Hermeneutics Robert J. Dostal, 2022-01-15 In *Gadamer's Hermeneutics* Robert J Dostal provides a comprehensive and critical account of Hans Georg Gadamer's hermeneutical philosophy arguing that Gadamer's enterprise is rooted in the thesis that being that can be understood is language He defends Gadamer against charges of linguistic idealism and emphasizes language's relationship to understanding though he criticizes Gadamer for too often ignoring the role of the prelinguistic in our experience Dostal goes on to explain the concept of the inner word for Gadamer's account of language The book situates Gadamer's hermeneutics in three important ways in relation to the contestability of the legacy of the Enlightenment project in relation to the work of his mentor Martin Heidegger and in relation to Gadamer's reading of Plato and Aristotle Dostal explores both Gadamer's claim on the Enlightenment and his ambivalence toward it He considers Gadamer's dependence on Heidegger's accomplishment while pointing out the ways in which Gadamer charted his own course rejecting his teacher's reading of Plato and his antihumanism Dostal points out notable differences in the philosophers' politics as well Finally Dostal mediates between Gadamer's hermeneutics and what might be called philological hermeneutics His analysis defends the civic humanism that is the culmination of the philosopher's hermeneutics a humanism defined by moral education common sense judgment and taste Supporters and critics of Gadamer's philosophy will learn much from this major achievement

Plato and Heidegger Francisco J. Gonzalez, 2015-09-10 In a critique of Heidegger that respects his path of thinking Francisco Gonzalez looks at the ways in which Heidegger engaged with Plato s thought over the course of his career and concludes that owing to intrinsic requirements of Heidegger s own philosophy he missed an opportunity to conduct a real dialogue with Plato that would have been philosophically fruitful for us all Examining in detail early texts of Heidegger s reading of Plato that have only recently come to light Gonzalez in parts 1 and 2 shows there to be certain affinities between Heidegger s and Plato s thought that were obscured in his 1942 essay Plato s Doctrine of Truth on which scholars have exclusively relied in interpreting what Heidegger had to say about Plato This more nuanced reading in turn helps Gonzalez provide in part 3 an account of Heidegger s later writings that highlights the ways in which Heidegger in repudiating the kind of metaphysics he associated with Plato took a direction away from dialectic and dialogue that left him unable to pursue those affinities that could have enriched Heidegger s own philosophy as well as Plato s A genuine dialogue with Plato Gonzalez argues would have forced Heidegger to go in certain directions where he did not want to go and could not go without his own thinking undergoing a radical transformation

Alcibiades and the Socratic Lover-Educator , 2013-02-14 In the Platonic work Alcibiades I a divinely guided Socrates adopts the guise of a lover in order to divert Alcibiades from an unthinking political career The contributors to this carefully focussed volume cover aspects of the background to the work its arguments and the philosophical issues it raises its relationship to other Platonic texts and its subsequent history up to the time of the Neoplatonists Despite its ancient prominence the authorship of Alcibiades I is still unsettled the essays and two appendices one historical and one stylometric come together to suggest answers to this tantalising question

Heidegger and Plato Catalin Partenie, Tom Rockmore, 2005-08-26 For Martin Heidegger the fall of philosophy into metaphysics begins with Plato Thus the relationship between the two philosophers is crucial to an understanding of Heidegger and perhaps even to the whole plausibility of postmodern critiques of metaphysics It is also as the essays in this volume attest highly complex and possibly founded on a questionable understanding of Plato As editors Catalin Partenie and Tom Rockmore remark a simple way to describe Heidegger s reading of Plato might be to say that what began as an attempt to appropriate Plato and through him a large portion of Western philosophy finally ended in an estrangement from both Plato and Western philosophy The authors of this volume consider Heidegger s thought in relation to Plato before and after the Kehre or turn In doing so they take up various central issues in Heidegger s Being and Time 1927 and thereafter and the questions of hermeneutics truth and language The result is a subtle and multifaceted reinterpretation of Heidegger s position in the tradition of philosophy and of Plato s role in determining that position

Brill's Companion to the Classics, Fascist Italy and Nazi Germany Helen Roche, Kyriakos N. Demetriou, 2017-10-17 The first ever guide to the manifold uses and reinterpretations of

the classical tradition in Mussolini's Italy and Hitler's Germany Brill's Companion to the Classics Fascist Italy and Nazi Germany explores how political propaganda manipulated and reinvented the legacy of ancient Greece and Rome in order to create consensus and historical legitimation for the Fascist and National Socialist dictatorships The memory of the past is a powerful tool to justify policy and create consensus and under the Fascist and Nazi regimes the legacy of classical antiquity was often evoked to promote thorough transformations of Italian and German culture society and even landscape At the same time the classical past was constantly recreated to fit the ideology of each regime *The Platonic Alcibiades I* François Renaud, Harold Tarrant, 2015-09-09 Although it was influential for several hundred years after it first appeared doubts about the authenticity of the Platonic Alcibiades I have unnecessarily impeded its interpretation ever since It positions itself firmly within the Platonic and Socratic traditions and should therefore be approached in the same way as most other Platonic dialogues It paints a vivid portrait of a Socrates in his late thirties tackling the unrealistic ambitions of the youthful Alcibiades urging him to come to know himself and to care for himself François Renaud and Harold Tarrant re-examine the drama and philosophy of Alcibiades I with an eye on those interpreters who cherished it most Modern scholars regularly play down one or more of the religious erotic philosophic or dramatic aspects of the dialogue so ancient Platonist interpreters are given special consideration This rich study will interest a wide range of readers in ancient philosophy Gadamer Donatella Di Cesare, 2013-02-20 Hans Georg Gadamer 1900-2002 one of the towering figures of contemporary Continental philosophy is best known for Truth and Method where he elaborated the concept of philosophical hermeneutics a programmatic way to get to what we do when we engage in interpretation Donatella Di Cesare highlights the central place of Greek philosophy particularly Plato in Gadamer's work brings out differences between his thought and that of Heidegger and connects him with discussions and debates in pragmatism This is a sensitive and thoroughly readable philosophical portrait of one of the 20th century's most powerful thinkers **Ancient Greek Dialectic and Its Reception** Melina G. Mouzala, 2023-09-05 The volume focusses on ancient Greek dialectic and its impact on later philosophical thought up to Byzantium The contributions are written by distinguished scholars in their respective fields of study and shed light on the relation of ancient Greek dialectic to various aspects of human life and soul to self-knowledge and self-consciousness to science rhetoric and political theory
