Prison Transformations Stephen Chinlund,2009-09-30 Prison Transformation is the story of the changes in the New York State prison system from 1962 to 2009 Interwoven with that history is the biography of Stephen Chinlund who lived through those big developments as an active participant in various capacities In 1962 fourteen years before the Attica uprising there were only twenty two prisons in the state system Then there were seventy two now sixty six Discipline was maintained by force often capricious and brutal There was only minimal education and vocational training After growing up in New York City going to good schools and being ordained as an Episcopal priest Chinlund started working inside as a volunteer He created groups of people inside with the plan that they could help each other more effectively than he could help them by preaching or even counseling them directly himself The groups developed into small communities inside the prisons Chinlund also recognized the need to help the men and women after they were released and developed counseling and job training on the outside Parole at the time provided none of that With small steps the prison system was improving reflecting the growing

consciousness of civil rights in the society at large School opportunities were offered and even college courses began to appear But the progress was slow and the discipline was still needlessly harsh Chinlund became a consultant to the Narcotic Addiction Control Commission helping new treatment facilities in the city get started using his experience helping individuals who were locked up He was then recruited in 1968 to be the director of the Manhattan Rehabilitation Center confining three hundred female heroin addicts Then the uprising in Attica occurred in 1971 That tragedy led to a few more improvements inmate grievance committees contact visits conjugal visits inmate liaison committees and some better schooling In addition the legislature created the Commission of Correction to be an independent monitor of the prisons Chinlund had had success at the Manhattan Rehabilitation Center so he moved on in 1973 to become superintendent of the first work release prison in New York State giving reality to an important policy improvement Governor Hugh Carey then asked him to become chairman of the Commission of Correction where he was able to confirm the improvements that were being made As important he was able in 1979 to start the Network program a more formal and extensive implementation of the old groups inside Funded with federal money initially it grew to be a force for good in twenty six prisons at its maximum size Declining Careys request to serve another term Chinlund moved on to a parish and then to be the executive director of the Episcopal Social Services where he has continued the Network program and continued to advocate for progress in the correctional world He continues that work after his retirement in 2005 The book tells the stories of the prisoners staff and politicians of those forty eight years

THAT MCCLLOUD WOMAN Peggy Moreland,2011-07-15 THE BACHELOR S CREED Never settle down That didn t mean Jack Cordell couldn t work side by side with Alayna McCloud even if she was the sexiest lady west of the Mississippi And his instincts to slip his boots under her bed a ring on her finger and passion into her soul well the Texas sun was playing tricks on his tattered heart Because a love wary loner didn t have a blame thing to offer a lady like Alayna Still Jack detected a sadness beneath her perfection And it was time the ultimate do gooder let him do some good and turn that McCloud woman into that McCloud bride TEXAS BRIDES Come on down to the McCloud family ranch cause there s no place like Texas for a wedding

Encore Dave Lindsay,2002-03-17 CRYONICS The frigid controversy surrounding the Ted Williams affair sparked national interest in the science but there were many philosophical aspects that were never even considered The human soul Does it actually exist If it does and departs the body when a person dies as most religions contend will it return upon rejuvenation Encore explores the most alarming scenario of all what if it doesnt What if something else takes its place Time is running out for an elite cartel of five prestigious American scientists working on a Top Secret Cryonic project To advance their efforts a young scientist Eddie Grisham and his associate Maggie Bennett are invited to participate in the balance of the clandestine project The cartels sole objective to rejuvenate one of the most prominent icons of the twentieth century a man secretly frozen down in 1966 In spite of her unbridled commitment to the project Maggie clings to her spiritual convictions and is compelled to explore the philosophical prospects that are inherently linked Armed with a well

supported theory she coaxes her agnostic companion into the scientific realm of theological tenet Modern technology fused with an esoteric interpretation of biblical prophecy serves to justify the incredulous perspective and sets the stage for an enigmatic revelation If Maggie's theory was correct the monumental feat could provide the fabled Antichrist with a socially acceptable means of achieving incarnation As conjectured the magnificent achievement transcends a serendipitous portal which unknowingly permits Satan himself to fill the spiritual void But it's the secret identity of their iconic patient that provides ENCORE with its arcane visionary twist The scientists had no way of knowing that their experiment would inadvertently catapult the world into the prophetic Last Days A Greeting of the Spirit Susan J.
