by some kind of accident in the cosmos What happens and transpires when people no longer feel a purpose to life and this feeling causes an insurrection and destruction of one's soul where not only do they lash out at each other they eventually despise themselves This issue is what happens in the absence of God in one's life and how the soul starves while the flesh feasts in misery and selfishness The absence of purpose which is a greater good God causes a systematic breakdown where the tentacles of misery and chaos run wild as one adopts the mentality of every man woman and child The more selfish people become the less they care about those further and further away from their personal space to the point where they do not care about their own country their own state community right up to their own backyard As evil advances the faithless retreat one grows more and more selfish in the absence of God Good and evil right and wrong become meshed together and a veil of gray causes one unable to discern between the two

Trailin' Max Brand, 2022-11-21 Max Brand's *Trailin'* is a quintessential western adventure that delivers a compelling narrative with a classical poetic flair typical of early 20th century literature. The protagonist's transition from innocence to a more rugged persona mirrors the transformation of the American landscape during the frontier period. Brand's narrative technique weaves a tale of revenge and self-discovery where the lyrical descriptions of the environment pair with the terse dialogues emblematic of the western genre's stoic characters. His portrayal of the encounter between man and beast captures the raw essence of the west, providing a fertile ground for themes of bravery, resilience, and the quest for justice within a land ruled by the gun and the lasso. In the annals of western fiction, Max Brand stands as a monumental figure, and *Trailin'* is a testament to his ability to craft compelling worlds anchored in the mythos of the American West. His insightful understanding of the sociocultural backdrop where a man's worth was tested against the untamed elements highlights his authenticity and firsthand knowledge of the terrain and its pioneers. This knowledge facilitated a narrative that resonates with the struggles between civilization and wilderness, drawing readers into a time when the echoes of gunshots were as common as the call of the wild. Recommending *Trailin'* is to invite the reader to embark upon a journey back to a time of legendary heroes and notorious villains. This saga will grip enthusiasts of historical adventures and those intrigued by the transformation of a young eastern man into a rugged western icon. Max Brand's storytelling prowess ensures that *Trailin'* is not just a celebration of the western spirit but also a dynamic exploration of human character sculpted by the very frontier it endeavors to tame. Step into the boots of Brand's protagonist and ride into a narrative that gallops with relentless pace, heart, and the unyielding pursuit of justice that defines a timeless American tradition.
