## **Scientific Case For Creation:**

*The Scientific Case Against Scientific Creationism* Jon P. Alston, 2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles

**The Scientific Case for Creation** Bert Thompson, 2000-12-31 This book discusses in a clear yet compelling manner the scientific evidence that supports the biblical account of creation

**The Scientific Case for Creation** Henry Madison Morris, 1977 This book is a brief introduction to the broad field of scientific creationism The subject is treated solely from a scientific point of view leaving the theological and Biblical implications of both evolution and creation to other studies Although a minimal level of scientific background on the part of the reader is helpful even the general reader can follow the arguments and appreciate the conclusions In contrast to other books dealing with the inadequacies of evolution this book concentrates on examining the scientific evidences for creation Publisher

Leon Harris,1981-01-01 In this comprehensive history of evolutionism C Leon Harris has combined primary source readings with clear pertinent background information to provide a solid basic understanding of the ways scientists have arrived at today s views of evolution Harris describes the major contributors to the theory of evolutionism placing each in the context of the general cultural influences to which he was exposed Each chapter also contains an explanation of the philosophical basis of the scientific approach of the period in question A lengthy bibliography provides direction for further reading on this important and timely subject      **Revelation Through Science** James G. Martin,2020-11-26 Revelation through Science is written for the educated non scientist who may be troubled by apparent conflicts between science and religion Are science and faith incompatible Astronomers physicists and biologists have now shown that the more deeply science probes nature the more it reveals evidence pointing us to God After reviewing concepts from those fields Revelation through Science adds new material from chemistry It describes organic structures that are profoundly vital for life yet too complex for self assembly

without some guiding principle It should lift the burden from believers and seekers to realize that science is not the enemy of faith     Deception by Design Lenny Flank,2007 A history of the anti evolution Intelligent Design movement in the US from the Scopes trial in 1925 through the rise of creation science in the 1980 s to the rise of intelligent design theory in the 1990 s Appendix includes the Wedge Document a leaked internal planning paper which spells out the theocratic political goals of the Intelligent Design movement     **Creationism on Trial** Langdon Gilkey,Langdon Brown Gilkey,1998 On the author s role as an expert witness for the ACLU in the creationist trial regarding Arkansas Act 590 of 1981 in Little Rock Arkansas Dec 1981

The Debaters of This Age Steven H Propp,2019-02-05 It is June 2018 as an unusual group of scholars professors lecturers and students gather in a California hotel They are all attendees of an Apologetics conference intended to join qualified representatives of Christian Deist and Atheist thought for a two week no holds barred debate and discussion of their respective positions that will ultimately be included in a book published after the conference Evangelical Christianity is represented by advocates of Evidentialist and Presuppositionalist approaches to Apologetics Catholicism liberal Christianity and Deism are also well supported The Atheist perspective is advocated by a polemical author and a college professor notorious for attacking the views of his Christian students As the participants argue over controversial issues such as cosmology evolution The Bible historical evidence for Jesus the resurrection biblical prophecies and the problem of evil intellectual fireworks result But what will result when such a volatile and eclectic group is placed face to face for more than two weeks The Debaters of this Age is the tale of what happens inside a California hotel in 2018 when a group of intellectuals gather to vigorously discuss the religious issues of our time     Scientists Confront Creationism Laurie R. Godfrey,1984 A fascinating and timely book which demonstrates once and for all why scientific creationism is not only bad science but also bad theology and in the process spells out the principles that guide genuine discovery Basically an expose of all pseudo science A badly needed overview of the scientific view of evolution explaining clearly and straightforwardly exactly what scientists think and why     Lie: Evolution, The (25th Anniversary Edition) Ken Ham,1987-07-01 The Bible prophetically warns that in the last days false teachers will introduce destructive lies among the people Their purpose is to bring God s truth into disrepute and to exploit believers by telling them made up and imagined stories see 2 Pet 2 1 3 Such a lie is among us that lie is evolution Today many laypeople ministers and Christian educators are powerless in their presentation of the gospel They have rejected Genesis the foundation of biblical doctrine They have believed the modern origins myth evolution If you believe that Genesis is not important to presenting the Gospel This book is for you If you believe that what you think about Genesis does not affect you personally This book is for you If you believe that evolution can be made to fit the Bible This book is for you If you are a witnessing Christian seeking to bring the gospel to this spiritually drifting world This book is for you

*Evolution and Creationism* Christian C. Young,Mark A. Largent,2007-06-30 As recently seen by the Kitzmiller vs Dover case the evolution versus creation debate never goes away The best way to understand these debates is to read the

arguments of the individuals involved This reference work provides over 40 of the most important documents to help readers understand the debate in the eyes of the people of the time Each document is from a major participant in the debates from the predecessors of Darwin to the judges of the influential court cases of the present day The editors have included an introduction and analysis of each document that places it within historical and scientific context Evolution and Creationism A Documentary and Reference Guide aims to enhance our understanding of the debate by presenting over 40 documents that shed light on the origins goals and history of the ongoing debate The volume examines such topics as Darwin s theory of natural selection the rise of Fundamentalism and its opposition to evolution and evolution and its discontents at the beginning of the 21st century In addition the work includes an extensive bibliography and reference guide to relevant print and electronic resources

Science and the Spirit James K. A. Smith, Amos Yong, 2010-08-26 What might be described as a Pentecostal worldview has become a powerful cultural phenomenon but it is often at odds with modernity and globalization Science and the Spirit confronts questions of spirituality in the face of contemporary science The essays in this volume illustrate how Pentecostalism can usefully engage with technology and scientific discovery and consider what might be distinctive about a Pentecostal dialogue with the sciences The authors conclude that Pentecostals with their unique perspectives on spirituality can contribute new insights for a productive interaction between theology and science

**The Creationists** Ronald L. Numbers, 1993-01-01 Forty seven percent of the American people according to a 1991 Gallup poll believe that God made man as man is now in a single act of creation and within the last ten thousand years Ronald L. Numbers chronicles the astonishing resurgence of this belief since the 1960s as well as the creationist movement s tangled roots in the theologies of late nineteenth and early twentieth century Baptists Presbyterians Lutherans Adventists and other religious groups Even more remarkable than Numbers s story of today s widespread rejection of the theory of evolution is the dramatic shift from acceptance of the earth s antiquity to the insistence of present day scientific creationists that most fossils date back to Noah s flood and its aftermath and that the earth itself is not more than ten thousand years old Numbers traces the evolution of scientific creationism and shows how the creationist movement challenges the very meaning of science
