

Strategies

for Writing Scientific Articles

Determine the target journal and download articles from the target journal, including Scopus, Web of Science, Sinta, DOAJ, and Copernicus

Make notes on the research background, issues, gaps, and criticism based on previously read journal articles

Include criticisms that differentiate the research from previous studies

Perform a similarity check in the writing

1

2

Critically read the articles available in the journal

3

Follow the template and the writing flow of the target journal

4

5

6

Use credible references that are relevant to the topic

7

Scientific Strategies

Stephanie Macceca

Scientific Strategies:

Spirituality and Scientific Strategies for Managing Your Emotions Pollis Robertson PhD, 2019-10-07 How do you keep a positive attitude How do you maintain a strong faith in God work hard and consistently work at forming the right daily habits that lead to success and happiness in life What stories do you tell yourself about how you manage your emotions and do you know why you are where you are on your life's journey Spirituality and Scientific Strategies for Managing Your Emotions helps you answer these questions and it will increase your awareness of the power that spirituality and science offers in your life for managing your emotions and making enriched life choices Author Pollis Robertson presents some of the major research findings on the benefits of using both spirituality and science to enhance individual well being serving as a practical guide for those who are concerned about improving their emotional intelligence By applying these principles you too can grow in your emotional intelligence skills encourage responsible decision making and foster strong personal and professional relationships among all socioeconomic classes Now is the time to become even more inspired to search for greater knowledge and continue to grow your interpersonal and professional relationship skills [Strategies for Teaching Science](#) Barbara Houtz, 2011-05-04 Support inquiry exploration with research based strategies to develop scientific thinking This resource provides model lessons management techniques and strategies to build students real world understanding of scientific concepts [Strategies for Team Science Success](#) Kara L. Hall, Amanda L. Vogel, Robert T. Croyle, 2019-11-13 Collaborations that integrate diverse perspectives are critical to addressing many of our complex scientific and societal problems Yet those engaged in cross disciplinary team science often face institutional barriers and collaborative challenges Strategies for Team Science Success offers readers a comprehensive set of actionable strategies for reducing barriers and overcoming challenges and includes practical guidance for how to implement effective team science practices More than 100 experts including scientists administrators and funders from a wide range of disciplines and professions explain evidence based principles highlight state of the art strategies tools and resources and share first person accounts of how they've applied them in their own successful team science initiatives While many examples draw from cross disciplinary team science initiatives in the health domain the handbook is designed to be useful across all areas of science Strategies for Team Science Success will inspire and enable readers to embrace cross disciplinary team science by articulating its value for accelerating scientific progress and by providing practical strategies for success Scientists administrators funders and others engaged in team science will also leave equipped to develop new policies and practices needed to keep pace in our rapidly changing scientific landscape Scholars across the Science of Team Science SciTS management organizational behavioral and social sciences public health philosophy and information technology among other areas of scholarship will find inspiration for new research directions to continue advancing cross disciplinary team science [Strategies to Integrate the Arts in Science](#) Vivian Poey, Nicole Weber, Gene Diaz, Sam Smiley, 2013-07-01 This teacher friendly resource provides practical arts based

strategies for classroom teachers to use in teaching science content

Approaches and Strategies in Next Generation
