Byzantium and British Heritage Amalia G. Kakissis, 2023-07-12 Byzantium was a very influential part of the development of the Arts and Crafts Movement 1880-1910 in Britain and although the influence of the Gothic Revival 1830-80 is well known that of the Byzantine Revival 1840-1910 is not This volume is about the people and the movements that created the Byzantine Revival and shows how they influenced British heritage from architecture to the decorative arts during the late nineteenth and early twentieth centuries The central pillars of the volume are the architects and scholars who created the Byzantine Research Fund BRF Archive a unique collection of architectural drawings and photographs of numerous monuments across the Byzantine world and the social and professional networks in which they circulated The BRF members an eclectic and little known group who based themselves at the newly founded British School at Athens established the research of Byzantium in Britain and Greece They were trained in the traditions of the Arts and Crafts Movement which sought authenticity in design and decoration in reaction to the styles that had developed through industrialisation Their work uniting a distinctively British design tradition with Byzantine arts and crafts represents a highly significant and under researched link between Britain and the Hellenic world This volume is the first contribution to try to fill this knowledge gap Byzantium and British Heritage will appeal to all those interested in the relation between Byzantine and British culture and Byzantine art

Chronologically arranged chapters will help readers to better understand British history as it includes pre Roman Britain Britain s Tudors the Reformation and World Wars I and II in addition to current events such as Brexit and others for which Theresa May has been prime minister A timeline a glossary and an appendix of significant individuals in the history of Great Britain help to round out the text The strong narrative line allows readers to understand the ways in which Great Britain has both responded to and guided global changes in economics and class gender and race and the politics of expansionism and nativism **European Integration Since the 1920s** Mark Hewitson,2024-10-14

Brexit populism and Euroscepticism seem to have challenged old assumptions about European integration and raised the prospect of disintegration This book re examines why the European Union and its forerunners were created and investigates how and why they have changed It links contemporary events to historical explanation arguing that there were long term sets of conditions dating back to the 1920s which pushed European governments to cooperate economically and to try to resolve their diplomatic differences The failure of the French and German governments to create what Aristide Briand had called a European federal union demonstrated both the precariousness of the enterprise and its connection to the domestic politics of European states After 1945 the unexpected advent of a Cold War and the military diplomatic and economic presence of the United States in Europe facilitated the gradual development of habits of cooperation and institutional integration but they also placed limits on European governments activities as did disagreements between political parties and the expectations of citizens As a consequence supranational bodies such as the European Commission have been accompanied and often overshadowed by intergovernmental institutions such as the European Council with the EU as a whole functioning in important respects as a type of confederation The volume addresses a series of large scale historical questions which are integral to an understanding of the European Union It asks how and why citizens of member states have identified with the EU how matters of security affected the development of the European Community during and after the Cold War whether economic and social convergence have taken place and with what consequences and why European institutions have come to function

as they have The study is thematic focusing on the most important aspects of European integration and explaining why member states have decided to carry out or have consented to the unique experiment of the European Union
