Emmerson, 2025-05-08 *Scotland in 100 Buildings* by architect Roger Emmerson is a captivating journey through the architectural marvels of Scotland seen uniquely through Emmerson's personal experiences. This isn't a dry history or textbook; it's a lively, intimate account where each building tells its own story. Emmerson has visited every site featured, offering first-hand insights that bring these places to life, from iconic landmarks to hidden gems. His reflections aim to inspire readers to explore for themselves rather than simply inform, making this book easy to pick up at any page. Ideal for architecture enthusiasts, travellers, and locals alike, *Scotland in 100 Buildings* will appeal to anyone curious about Scotland's diverse buildings and the personal tales they inspire. It's perfect for those seeking an approachable and authentic look at Scotland's architectural legacy.

*What the Victorians Made of Romanticism* Tom Mole, 2020-06-09 This insightful and elegantly written book examines how the popular media of the Victorian era sustained and transformed the reputations of Romantic writers. Tom Mole provides a new reception history of Lord Byron, Felicia Hemans, Sir Walter Scott, Percy Bysshe Shelley, and William Wordsworth, one that moves beyond the punctual historicism of much recent criticism and the narrow horizons of previous reception histories. He attends instead to the material artifacts and cultural practices that remediated Romantic writers and their works amid shifting understandings of history, memory, and media. Mole scrutinizes Victorian efforts to canonize and commodify Romantic writers in a changed media ecology. He shows how illustrated books renovated Romantic writing, how preachers incorporated irreligious Romantics into their sermons, how new statues and memorials integrated Romantic writers into an emerging national pantheon, and how anthologies mediated their works to new generations. This ambitious study investigates a wide range of material objects Victorians made in response to Romantic writing, such as photographs, postcards, books, and collectibles that in turn remade the public's understanding of Romantic writers. Shedding new light on how Romantic authors were posthumously recruited to address later cultural concerns, *What the Victorians Made of Romanticism* reveals new histories of appropriation, remediation, and renewal that resonate in our own moment of media change, when once again the cultural products of the past seem in danger of being forgotten if they are not reimagined for new audiences.

**6,000 Years of Housing** Norbert Schoenauer, 2000 Part architecture, part history, and part anthropology, this encyclopedic book limns the story of housing around the world from the pre-urban dwellings of nomadic, semi-nomadic, and sedentary agricultural societies to the present. Ancient urban dwellings were inward-looking, ranged around a courtyard. Until fairly recently, these dwelling types survived in indigenous urban house forms in the Islamic world, India, China, and the Iberian peninsula and Latin America. After the collapse of the Roman Empire, however, outward-looking house forms replaced the ancient form in most of Europe and the New World. In the Middle Ages, houses served both as homes and as places of work, but gradually the domestic and business lives of the inhabitants became separate. In the wake

of the Industrial Revolution profound changes in the residential development of the western world occurred housing became segregated along socioeconomic lines and dwelling types polarized with low density single family houses at one extreme and tall high density multifamily tenements and apartments at the other Side effects of America automobile intensive suburban dream housing include inefficient land use pollution and urban decay 6 000 Years of Housing chronicles how this came about and suggests solutions based on a rich variety of historical precedents Land of Stone Roger Emmerson,2022-12-06

**Painting the Forth Bridge** Carl MacDougall,2001 With the new Parliament now established Scotland stands poised on

the brink of momentous changes in its political social economic and cultural life In this book Carl MacDougall one of Scotland's most distinguished writers sets out to investigate the nature of the Scottish identity to examine its roots and to evaluate the possibilities of a new flowering in the years ahead Applying his pointed critical analysis to Scottish art architecture dance music and literature MacDougall strips away the layers of romantic mythology associated with Scottishness from Bonnie Prince Charlie to Braveheart and assesses how the deep need for a hero has led the Scots first to deify and then denigrate individuals such as Robert Burns Walter Scott Sean Connery and Billy Connolly Finally he argues persuasively in favor of a newly self confident national identity based on the contemporary realities of Scottish life and culture Witty and frequently controversial Painting the Forth Bridge is indispensable reading not just for Scots but also for all those concerned with the issue of national identity
