Reflexive Ethnography Charlotte Aull Davies, 2012-08-06 Reflexive Ethnography is a unique guide to ethnographic research for students of anthropology and related disciplines It provides practical and comprehensive guidance to ethnographic research methods but also encourages students to develop a critical understanding of the philosophical basis of ethnographic authority Davies examines why reflexivity at both personal and broader cultural levels should be integrated into ethnographic research and discusses how this can be accomplished for a variety of research methods This revised and updated second edition includes a new chapter on internet based research and interethnography chapters on selection of topics and methods data collection and analysis and ethics and politics of research practical advice on writing up ethnographic study new and updated research examples Postmodernist relativism can lead to an over emphasis on reflexivity that denies the possibility of social research Reflexive Ethnography utilises postmodernist insights incorporation of different standpoints exposure of the intellectual tyranny of meta narratives but proposes that reflexive ethnographic research be undertaken from a realist perspective Reflexive Ethnography will help students to use and understand ethnographic research practices that fully incorporate reflexivity without abandoning claims to develop valid knowledge of social reality *Islands and Britishness* Jodie Matthews, 2011-11-15 Islands and archipelagos hold great imaginative power and they have long been a subject of study for cartographers and geographers for anthropologists and historians of colonisation But what does it mean to be an islander Can one feel both British and Manx for example What are British tourists looking for when they go to

Unsettling Whiteness Lucy Michael, Samantha Schulz, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 Unsettling Whiteness brings together an international collection that considers anew the politics practices and representations of whiteness at a time when nations worldwide continue to grapple with issues that are underwritten by whiteness **Journal of Scottish Historical Studies** , 2005 **Social Anthropology** Edward Hedican, 2012-01-15 This is

the first introductory text that focuses on social anthropological research using Canadian examples and perspectives In this groundbreaking new book Edward Hedican provides undergraduate students with a solid background on the theoretical and applied aspects of anthropology while exploring the rich history of the discipline in a Canadian context In ten concise chapters readers are introduced to the basic conceptual building blocks of introductory anthropology in a refreshingly succinct and engaging way With a strong focus on Canadian theory this book includes discussion of evolutionism feminist anthropology marriage and the family and political economy **Dissent, Revolution and Liberty Beyond Earth** Charles Cockell, 2016-03-10 This volume provides an in depth discussion on the central question how can people express and survive dissent and disagreement in confined habitats in space The discussion is an important one because it could be that the systems of inter dependence required to survive in space are so strong that dissent becomes impossible John Locke originally said that people have a right to use revolution to overthrow a despotic regime But if revolution causes violence and damage that causes depressurisation with the risk of killing many people is it even permissible to have a revolution How then are people to express their liberty or dissatisfaction with their rulers The emergence of structures of dissent and disagreement is an essential part of the construction of a framework of liberty in space revolution is just the extreme example and thus the topic deserves in depth and immediate attention Even today the way in which we assemble organisations and corporations for the government and private exploration of space must take into account the need for mechanisms to allow people to express dissent **The Ecology of Pastoralism** P. Nick Kardulias, 2015-04-15 In The Ecology of Pastoralism diverse

Names and Naming Guy Puzey, Laura Kostanski, 2016-02-02 This book explores international trends in naming and contributes to the growing field of onomastic enquiry Naming practices are viewed here through a critical lens demonstrating a high level of political and social engagement in relation to how we name people and places The contributors to this publication examine why names are not only symbols of a person or place but also manifestations of cultural linguistic and social heritage in their own right Presenting analyses of geographically and culturally diverse perspectives and case studies the book investigates how names can represent deeper kinds of identity act as objects of attachment and dependence and reflect community mores and social customs while functioning as powerful mechanisms of inclusion and exclusion The book will be of interest to researchers in onomastics sociology human geography linguistics and history

Environment, labour and capitalism at sea Penny McCall Howard, 2017-04-28 This book explores how fishers make the sea productive through their labour using technologies ranging from wooden boats to digital GPS plotters to create familiar places in a seemingly hostile environment It shows how their lives are affected by capitalist forces in the markets they sell to forces that shape even the relations between fishers on the same boat Fishers frequently have to make impossible choices between safe seamanship and staying afloat economically and the book describes the human impact of the high rate of deaths in the fishing industry The book makes a unique contribution to understanding human environment relations examining the places fishers create and name at sea as well as technologies and navigation practices It combines phenomenology and political economy to offer new approaches for analyses of human environment relations and technologies

Landscapes of Protest in the Scottish Highlands after 1914 Iain J.M. Robertson, 2016-04-15 In November 1918 the implementation of agrarian change in the Scottish Highlands threatened another wave of unemployment and eviction for the land working population which led to widespread and varied social protest Those who had been away on war service and their families faced returning to exactly the same social and economic conditions in the Scottish Highlands they had hoped they had left behind in the struggle to make a land fit for heroes Widespread and varied social protest rapidly followed It argues that previously there has been a failure to capture fully the geography chronology typology and rate of occurrence of these events The book not only offers new insights and a greater understanding of what was happening in the Highlands in this period but illustrates how a range of forms of protest were used which demand attention not least for the fact that these events unlike most of the earlier Land Wars period were successful There are functioning townships in the Highlands today that owe their existence to the land invasions of the 1920s The book innovatively concentrates on formulating explanation and interpretation from within and looks to the crofting landscape as base means and motive to disturbance and interpretation It proposes that protest is much more convincingly understood as an expression of environmental ethics from the bottom up coming increasingly into conflict with conservationist views expressed from the top down It focuses on individual case studies in order to engage more convincingly with an important evidential base that of popular memory of land disturbances and to adopt a frame and lens through which to explore the fluid and contingent nature of protest performances Based upon the belief that in the study of landscapes of social protest the old shibboleth of space as solely passive setting and symbolic register is no longer tenable is paid here to nature culture interactions to vernacular ecological b
