*Shared Houses, Shared Lives* Eric Raimy, 1979 This book describes the origins of the communal household explores the significance of this growing phenomenon and offers the reader a comprehensive guide to joining or setting up a shared household     Shared Housing, Shared Lives Sue Heath, Katherine Davies, Gemma Edwards, Rachael Scicluna, 2017-10-25 With a growing population rising housing costs and housing providers struggling to meet demand for affordable accommodation more and more people in the UK find themselves sharing their living spaces with people from outside of their families at some point in their lives Focusing on sharers in a wide variety of contexts and at all stages of the life course *Shared Housing Shared Lives* demonstrates how personal relationships are the key to whether shared living arrangements falter or flourish Indeed this book demonstrates how issues such as finances domestic space and daily routines are all factors which can impact upon personal relationships and wider understandings of the home and privacy By directing attention towards people and relationships rather than bricks and mortar *Shared Housing Shared Lives* is essential reading for students and researchers in fields such as sociology housing studies social policy cultural anthropology and demography as well as for researchers and practitioners working in these areas     **Housing and Planning References** ,1980

Challenge! ,1980     HUD Challenge ,1980     *The 60s Communes* Timothy Miller, 2015-02-01 The greatest wave of communal living in American history crested in the tumultuous 1960s era including the early 1970s To the fascination and amusement of more decorous citizens hundreds of thousands of mostly young dreamers set out to build a new culture apart from the established society Widely believed by the larger public to be sinks of drug ridden sexual immorality the communes both intrigued and repelled the American people The intentional communities of the 1960s era were far more diverse than the stereotype of the hippie commune would suggest A great many of them were religious in basis stressing spiritual seeking and disciplined lifestyles Others were founded on secular visions of a better society Hundreds of them became so stable that they survive today This book surveys the broad sweep of this great social yearning from the first portents of a new type of communitarianism in the early 1960s through the waning of the movement in the mid 1970s Based on more than five hundred interviews conducted for the 60s Communes Project among other sources it preserves a colorful and vigorous episode in American history The book includes an extensive directory of active and non active communes complete with dates of origin and dissolution     **Shared Housing** United States. Congress. House. Select Committee on Aging. Subcommittee on Housing and Consumer Interests, 1982     **Religious Vitality in Christian Intentional Communities** Mark Killian, 2017-09-25 Through ethnographic research Killian examines vitality in Philadelphia and Berea two Christian Intentional Communities whose participants live in close proximity with one another to achieve religious values Pulling from Anthony Giddens theory of structuration Killian argues that the vitality of both communities cannot be reduced to deterministic structural individual or organizational causes Rather vitality in these communities is affected by all of these

causes in relationship to one another In other words it s not that each explanation matters e g social structures matter organizational behaviors matter individual religious choices matter but that these explanations matter to each other e g social structures matter to individual choices individual choices matter to organizational behaviors and social structures matter to organizational choices etc To make this argument Killian develops the idea of the vitality nexus the interconnected relationship between the various explanations of religious vitality *Regulatory Impediments to the Development and Placement of Affordable Housing* United States. Congress. House. Committee on Banking, Finance, and Urban Affairs. Subcommittee on Policy Research and Insurance,1990

**Entitlements, Uncontrollables, and Indexing** United States. Congress. House. Committee on the Budget. Task Force on Entitlements, Uncontrollables, and Indexing, 1982      *The Family in America* Joseph M. Hawes, Elizabeth F.

Shores, 2002-05-22 An incisive multidisciplinary look at the American family over the past 200 years written by respected scholars and researchers *Family in America* offers two powerful antidotes to popular misconceptions about American family life historical perspective and scientific objectivity When we look back at our early history we discover that the idealized 1950s family characterized by a rising birthrate a stable divorce rate and a declining age of marriage was a historical aberration out of line with long term historical trends Working mothers we learn are not a 20th century invention most families throughout American history have needed more than one breadwinner In the exciting new scholarship described here readers will learn precisely what is new in American family life and what is not and acquire the perspective they need to appreciate both the genuine improvements and the losses that come with change      *New York Court of Appeals. Records and Briefs*. New York (State).,      **The Humanity of Cities** John Gulick, 1989 I recommend this book highly to social

scientists who are looking for a review or refresher course in urbanology advanced undergraduate students and introductory graduate students As our American college student bodies become more culturally diverse *The Humanity of Cities* provides a welcome respite from the usual culture bound texts that give limited attention for effect only of the stereotypical Third World Contemporary Sociology Gulick's style is to develop each topic by presenting appropriate case studies He manages to include an enormous range of studies and he wisely reaches out beyond anthropology to the many fields that concern themselves with urban life This book is consequently an excellent compilation of the recent history of theoretical and empirical research on an in cities The 28 page bibliography is itself a tour de force American Anthropologist Combining major urban theories with empirical studies from around the world the author offers poignant glimpses into urban life including the streets of San Francisco as seen through the eyes of a proud garbage collector the marketplace of Ibadan as seen by a petty food trader the curiously empty streets of Fun city a California retirement community and Cairo's teeming cemetery the City of the Dead filling with the living The problems of urban life are shown to be more a result of worldwide forces rather than the intrinsic nature of cities This major new and timely contribution to the field is a most useful way to introduce urban scholars planners and students in a variety of disciplines to *The Humanity of Cities* A complete teachers manual makes this the perfect text

Multi-Unit Housing in Urban Cities Katy Chey, 2017-11-06 This book investigates the development of multi unit housing typologies that were predominant in a particular city from the 1800s to present day It emphasises the importance of understanding the direct connection between housing and dwelling in the context of a city and the manner in which the city is an instructional indication of how a housing typology is embodied The case studies presented offer an insight into why a certain housing type flourished in a specific city and the variety span across cities in the world where distinct housing types have prevailed It also pursues how housing types developed evolved and helped define the city looks into how dwellers

inhabited their dwellings and analyses how the housing typologies correlates in a contemporary context The typologies studied are back to backs in Birmingham tenements in London Haussmann Apartment in Paris tenements in New York tong lau in Hong Kong perimeter block linear block and block edge in Berlin perimeter block and solitaire in Amsterdam space enclosing structure in Beijing micro house in Tokyo and high rise in Toronto
