*Lord of Light* Roger Zelazny, 2004-05-11 Earth is long since dead On a colony planet a band of men has gained control of technology made themselves immortal and now rules their world as the gods of the Hindu pantheon Only one dares oppose them he who was once Siddhartha and is now Mahasamatman Binder of Demons *Lord of Light* *Fiction, 1876-1983: Titles* R.R. Bowker Company. Department of Bibliography, R.R. Bowker Company. Publications Systems Department, 1983

**Religion in Science Fiction** Steven Hrotic, 2014-07-31 Religion in Science Fiction investigates the history of the representations of religion in science fiction literature Space travel futuristic societies and non human cultures are traditional themes in science fiction Speculating on the societal impacts of as yet undiscovered technologies is after all one of the distinguishing characteristics of science fiction literature A more surprising theme may be a parallel exploration of religion its institutional nature social functions and the tensions between religious and scientific worldviews Steven Hrotic investigates the representations of religion in 19th century proto science fiction and genre science fiction from the 1920s through the end of the century Taken together he argues that these stories tell an overarching story a metanarrative of an evolving respect for religion paralleling a decline in the belief that science will lead us to an ideal and religion free future Science fiction s metanarrative represents more than simply a shift in popular perceptions of religion it also serves as a model for cognitive anthropology providing new insights into how groups and identities form in a globalized world and into how crucial a role narratives may play Ironically this same perspective suggests that science fiction as it was in the 20th century may no longer exist **Fiction, 1876-1983: Authors** R.R. Bowker Company. Department of Bibliography, R.R. Bowker Company. Publications Systems Department, 1983

**Roger Zelazny** F. Brett Cox, 2021-05-11 Challenging convention with the SF nonconformist Roger Zelazny combined poetic prose with fearless literary ambition to become one of the most influential science fiction writers of the 1960s Yet many critics found his later novels underachieving and his turn to fantasy a disappointment F Brett Cox surveys the landscape of Zelazny s creative life and contradictions Launched by the classic 1963 short story *A Rose for Ecclesiastes* Zelazny soon won the Hugo Award for Best Novel with *And Call Me Conrad* and two years later won again for *Lord of Light* Cox looks at the author s overnight success and follows Zelazny into a period of continued formal experimentation the commercial triumph of the *Amber sword* and sorcery novels and renewed acclaim for Hugo winning novellas such as *Home Is the Hangman* and *24 Views of Mt Fuji* by Hokusai Throughout Cox analyzes aspects of Zelazny s art from his preference for poetically alienated protagonists to the ways his plots reflected his determined individualism Clear eyed and detailed Roger Zelazny provides an up to date reconsideration of an often misunderstood SF maverick **Monographic Series** Library of Congress, 1981 **National Union Catalog** , 1973

Includes entries for maps and atlases **Library of Congress Catalogs** Library of Congress, 1980 *Slow Light: Invisibility, Teleportation, And Other Mysteries Of Light* Sidney Perkowitz, 2011-07-26 *Slow Light* is a popular treatment of

today's astonishing breakthroughs in the science of light. Even though we don't understand light's quantum mysteries, we can slow it to a stop and speed it up beyond its Einsteinian speed limit 186,000 miles/sec. Use it for quantum telecommunications, teleport it, manipulate it to create invisibility and perhaps generate hydrogen fusion power with it. All this is lucidly presented for non-scientists who wonder about teleportation, Harry Potter invisibility cloaks, and other fantastic outcomes. *Slow Light* shows how the real science and the fantasy inspire each other and projects light's incredible future. Emory physicist Sidney Perkowitz discusses how we are harnessing the mysteries of light into technologies like lasers and fiber optics that are transforming our daily lives. Science-fiction fantasies like Harry Potter's invisibility cloak are turning into real possibilities. Department of Bibliography, 1978. *Great Themes of Science Fiction* John J. Pierce, 1987. The most comprehensive work of its kind. *Great Themes of Science Fiction* looks at the most important elements of the genre and shows how each has evolved over time. Among the topics examined are aliens and alien worlds, supermen and adapted men, immortality and paranormal powers, robots and computers, space civilizations and colonies, wars on earth and in space, worldwide disasters, time travel, and parallel worlds. Selected examples of each theme are discussed together with changes that have become apparent with shifts in popular attitudes and the increasing sophistication of readers. The impact and significance of each type of science-fiction scenario is considered, and the challenges it poses to human ingenuity, understanding, and responsibility are discussed. **LJ Special Report**, 1977. **Weekly Record**, 1980. **Subject Catalog**, 1982. Biographical and bibliographical entries on some 400 black authors active in the 20th century. Some of the sketches are updated from Gale's Contemporary authors series; others were written especially for this volume. Covers not only contemporary American authors but also earlier 20th-century writers, social figures, e.g., Malcolm X, Desmond Tutu, and important African and Caribbean writers. In addition to the descriptive personal and career information, there are illuminating biographical critical essays, including comments often by the authors themselves on personal interests, aspirations, motivations, and thoughts on writing. **The Politics and Ethics of Identity** Richard Ned Lebow, 2012-08-30. Challenges the notion of consistent unitary identities, arguing that we are multiple, changing selves shaped by social contexts and processes. [A Checklist of Roger Zelazny](#), 1993.
