Indigeneity Stephanie Nohelani Teves, 2018-03-14 Aloha is at once the most significant and the most misunderstood word in the Indigenous Hawaiian lexicon For K naka Maoli people the concept of aloha is a representation and articulation of their identity despite its misappropriation and commandeering by non Native audiences in the form of things like the hula girl of popular culture Considering the way aloha is embodied performed and interpreted in Native Hawaiian literature music plays dance drag performance and even ghost tours from the twentieth century to the present Stephanie Nohelani Teves shows that misunderstanding of the concept by non Native audiences has not prevented the K naka Maoli from using it to create and empower community and articulate its distinct Indigenous meaning While Native Hawaiian artists activists scholars and other performers have labored to educate diverse publics about the complexity of Indigenous Hawaiian identity ongoing acts of violence against Indigenous communities have undermined these efforts In this multidisciplinary work Teves argues that Indigenous peoples must continue to embrace the performance of their identities in the face of this violence in order to challenge settler colonialism and its efforts to contain and commodify Hawaiian Indigeneity *Archaeo-Astronometria* Dean Clarke, 2008-10-23 There have been many books on the origin of astronomy some good and some very poorly address the issues of ancient mans interests in the stars The ancient Sumer and Egyptian notions of music mostly confirms how ancient this notion is in their chorded progressions of tone This notion is more an Upper Paleolithic celestial idea In a sense man during this time man was beginning to have a concept of north south east and west in spatial terms It involves the curvature of the ribs of Nut the Egyptian Sky Goddess as a ribbed vaulted sky and sometimes in a horizon sense of a bowing arch of a stars path or the curve of a bone in the stars moving path The half way point of this fall for say our Nut Adam and Eve would thus be about 27 000 BC which falls in a significant period Ice Age re emergence and a deserts expanding in equator regions

These are only a small part of what had to be addressed in origins of night sky studies. The point being this piece as fake or not is that the components of the animals, man, plants, and man's artifacts were very early on displayed. We might ask in such a condition what was their night sky? If we look at all of these constellations, they fall below the Celestial Equator in the South Pole region, mostly. It would seem that all these birds, to them being placed in the night sky like the stars, and as they watched what directions the birds along with stars as to where they went in order to ascertain their relations to dusk or dawn night sky. What caused the South Africa plight of 80,000 BC? The Antarctica had been growing ice forms from 170,000 BC to 80,000 BC towards the north, and then around 70,000 BC there seemed to be a melting trend back south. In an astronomy sense, we can thank him for larger game entering in the pantheon of the constellations or the leaf otter, and some constellations lost to time like the mammoths. What does this have to do with constellations, taboos, or the advent of Cro-Magnon man, well, in the depictions of constellation images. Slowly from east to west, the stars move, but then it did not take man not long after 70,000 BC to note that some planets or stars seemed to move retrograde in the night sky. This book addresses what ideas did they show or have before or after these earth changes. As ideas such as, maybe it was a lasso constellation for some animals capture as a God of Capture. And somewhere around the time of 50,000 BC in the region of northern England to the region above the Black Sea, there occurred a melting phase between the ice ages, and cultures began to spread. The evidence of this is found by different locations in Europe and Central Europe of the use of rock shadows, stars noted by hands in movement, and certain hand symbols by star images or dots as stars, not just stab marks. Ironical again that Man beside Woman on the pole, treetop, does not have strong reminders of the Adam-Eve Tree and the Serpent, as maybe Draco. The symbol, anciently, always shows the snake at the foot of the tree or ascended the tree at the apex of the trunk, which if astronomy wise would mean an ascended constellation to the Zenith or the Pole. Draco thus deposed Adam and Eve from their own constellation garden and domain by it ascending as an ancient Pole Axis Mundi. Thus the smoke screen really is a tie between this local area of France and Late Paleolithic Man's ideas of that region in the night sky of a certain year or month period of hunting. Although we have jumped forward in the time of ancient astronomy beginnings in a way, really, in this sense, we have not. To the real beginnings of little known ancient astronomy.

Cultural History of Marriage in Antiquity Karen Klaiber Hersch, 2021-11-18 Marriage across cultures is often defined as a union between consenting adults that lasts for the life of the partners But is marriage a blessing or curse Does marriage represent the union of two hearts or was it a necessary evil Did matrimony bring a person a helpmeet for life or was it a societally approved state entered into to improve one's social standing and produce legitimate heirs The authors of this volume show that the peoples of the ancient Mediterranean were divided on all of these questions and reveal ancient Greek and Roman opinions on marriage that were as varied and complex as they are today Readers will discover in this book that ancients juggled multiple ideas that to the modern eye may appear to be contradictory Thus for example Greek and Roman wives were expected to come to their grooms spotless virgins while Greek and Roman husbands could enjoy multiple partnerships outside the marital union Guided by our experts we take an extensive journey through time and space encountering evidence from such sources as diverse as Hammurabic law codes Egyptian papyri Greek epic and tragedy Roman inscriptions and writings on the lives of early Christians Applying innovative approaches and diverse methodologies the authors of this volume reveal the tension and reconciliation between representations of marriage in antiquity and its lived reality A Cultural History of Marriage in Antiquity presents an overview of the period with essays on Courtship and Ritual Religion State and Law Kinship and Social Networks the Family Economy Love and Sex the Breaking of Vows and Representations of Marriage

Women of the Mexican Countryside, 1850-1990 Heather Fowler-Salamini, Mary Kay Vaughan, 2022-03-08 Too often in the history of Mexico women have been portrayed as marginal figures rather than legitimate participants in social processes As the twentieth century draws to a close Mexican women of the countryside can be seen as true historical actors mothers and heads of households factory and field workers community activists artisans and merchants In this new book thirteen contributions by historians anthropologists and sociologists from Mexico as well as the United States elucidate the roles of women and changing gender relations in Mexico as rural families negotiated the transition from an agrarian to an industrial society Drawing on Mexican community studies gender studies and rural studies these essays overturn the stereotypes of Mexican peasant women by exploring the complexity of their lives and roles and examining how these have changed over time The book emphasizes the active roles of women in the periods of civil war 1854-76 and the commercialization of agriculture 1880-1910 It highlights their vigorous responses to the violence of revolution their increased mobility and their interaction with state reforms in the period from 1910 to 1940 The final essays focus on changing gender relations in the countryside under the impact of rapid urbanization and industrialization since 1940 Because histories of Latin American women have heretofore neglected rural areas this volume will serve as a touchstone for all who would better understand women's lives in a region of increasing international economic importance Women of the Mexican Countryside demonstrates that contrary to the peasant stereotype these women have accepted complex roles to meet constantly changing situations

 MacBeath, 2011-07-10 The International Handbook of Leadership for Learning brings together chapters by distinguished
 authors from thirty one countries in nine different regions of the world The handbook contains nine sections that provide
 regional overviews a consideration of theoretical and contextual aspects system and policy approaches that promote
 leadership for learning with a focus on educating school leaders for learning and the role of the leader in supporting learning
 It also considers the challenge of educating current leaders for this new perspective and how leaders themselves can develop
 leadership for learning in others and in their organisations especially in diverse contexts and situations The final chapter
 considers what we now know about leadership for learning and looks at ways this might be further improved in the future
 The book provides the reader with an understanding of the rich contextual nature of learning in schools and the role of
 school leaders and leadership development in promoting this It concludes that the preposition for between the two readily
 known and understood terms of leadership and learning changes everything as it foregrounds learning and complexifies
 rather than simplifies what that word may mean Whereas common terms such as instructional leadership reduce learning to
 outcomes leadership for learning embraces a much wider developmental view of learning
