The Lost City of the Exodus Ahmed Osman, 2014-03-24 Recent archaeological findings confirm Osman's 25 year old discovery of the location of the city of the Exodus Explains why modern scholars have been unable to find the city of the Exodus they are looking in the wrong historical period and thus the wrong region of Egypt Details the author's extensive research on Hebrew scriptures and ancient Egyptian texts and records which allowed him to pinpoint the Exodus site Reveals his effort to have his finding confirmed by the Egyptian government including his debates with Zahi Hawass Egyptian Minister for Antiquities Affairs

When the first archaeologists visited Egypt in the late 1800s they arrived in the eastern Nile Delta to verify the events described in the biblical Book of Exodus. Several locations believed to be the city of the Exodus were found but all were later rejected for lack of evidence. This led many scholars to dismiss the Exodus narrative merely as a myth that borrowed from accounts of the Hyksos expulsion from Egypt. But as Ahmed Osman shows, the events of Exodus have a historical basis and the ruins of the ancient city of Zarw where the Road to Canaan began have been found. Drawing on decades of research as well as recent archaeological findings in Egypt, Ahmed Osman reveals the exact location of the lost city of the Exodus as well as his 25 year effort to have this finding confirmed by the Egyptian government, including his heated debates with Zahi Hawass, former Egyptian Minister for Antiquities Affairs. He explains why modern scholars have been unable to find the city of the Exodus: they are looking in the wrong historical period and thus the wrong region of Egypt. He details his extensive research on the Pentateuch of the Hebrew scriptures, the historical scenes recorded in the great hall of Karnak and other ancient source texts which allowed him to pinpoint the Exodus site after he discovered that the Exodus happened not during the pharaonic reign of Ramses II but during that of his grandfather Ramses I. Osman concluded that the biblical city of the Exodus was to be found at Tell Heboua, at the ruins of the fortified city of Zarw, the royal city of Ramses I, far from the Exodus locations theorized by previous archaeologists and scholars. In 2012, after 20 years of archaeological work, the location of Zarw was confirmed by Egyptian officials exactly where Osman said it would be 25 years ago. Thus Osman shows that time and again if we take the creators of the source texts at their word, they will prove to be right.

The Lost Science M. G. Bucholtz B.Sc MBA, 2013-06-21. Can the movements of Jupiter, Saturn and Uranus affect market cycles? Are price swings on the Dow Jones Industrial Average and the S P 500 a reflection of lunar and planetary placements? Many people are surprised to find that changes in price trends on the financial markets are a reflection of the changing psychological emotions of market participants. Our emotions are impacted by the varying gravitational pulls and energy levels in our planetary cosmos. Scientific techniques such as square root mathematics, the Golden Mean, the Golden Sequence and astrological phenomena like lunar events, planetary transits and planetary aspects can thus be used to identify short term changes in price trend and long term market cycles. In the early part of the 20th century, many successful traders on Wall Street, including the venerable W D Gann and the mysterious Louise McWhirter, understood that emotion was intimately linked to the forces of nature. They used these scientific techniques and astrological phenomena to predict changes to price trend and to profit from the markets. The Lost Science will acquaint you with an extensive range of astrological and mathematical phenomena. From the Golden Mean and Fibonacci Sequence through planetary transit lines and square roots to an examination of lunar astrology, planetary aspects and market cycles, the numerous illustrated examples in this book will assist you to deepen your understanding of the financial markets and make better informed and more timely trading and investing decisions.
