Reading the Architecture of the Underprivileged Classes Nnamdi Elleh, 2016-04-01 The expansion of cities in the late C19th and middle part of the C20th in the developing and the emerging economies of the world has one major urban corollary it caused the proliferation of unplanned parts of the cities that are identified by a plethora of terminologies such as bidonville favela ghetto informal settlements and shantytown Often the dwellings in such settlements are described as shacks architecture of necessity and architecture of everyday experience in the modern and the contemporary metropolis This volume argues that the types of structures and settlements built by people who do not have access to architectural services in many cities in the developing parts of the world evolved simultaneously with the types of buildings that are celebrated in architecture textbooks as modernism It not only shows how architects can learn from traditional or vernacular dwellings in order to create habitations for the people of low income groups in public housing scenarios but also demonstrates how the architecture of the economically underprivileged classes goes beyond culturally inspired tectonic interpretations of vernacular traditions by architects for high profile clients Moreover the essays explore how the resourceful dwellings of the underprivileged inhabitants of the great cities in developing parts of the world pioneered certain concepts of modernism and contemporary design practices such as sustainable and deconstructivist design Using projects from Africa Asia South and Central America as well as Austria and the USA this volume interrogates and brings to the attention of academics students and practitioners of architecture the deliberate disqualification of the modern architecture produced by the urban poor in different parts of the world

Reading for the Body Jay Watson, 2012-08-01 Jay Watson argues that southern literary studies has been overidealized and dominated by intellectual history for too long In *Reading for the Body* he calls for the field to be rematerialized and grounded in an awareness of the

human body as the site where ideas including ideas about the U S South itself ultimately happen Employing theoretical approaches to the body developed by thinkers such as Karl Marx Colette Guillaumin Elaine Scarry and Friedrich Kittler Watson also draws on histories of bodily representation to mine a century of southern fiction for its insights into problems that have preoccupied the region and nation alike slavery Jim Crow and white supremacy the marginalization of women the impact of modernization the issue of cultural authority and leadership and the legacy of the Vietnam War He focuses on the specific bodily attributes of hand voice and blood and the deeply embodied experiences of pain illness pregnancy and war to offer new readings of a distinguished group of literary artists who turned their attention to the South Mark Twain Jean Toomer Zora Neale Hurston William Faulkner Richard Wright Katherine Anne Porter Bobbie Ann Mason and Walker Percy In producing an intensely embodied U S literature these writers Watson argues were by turns extending and interrogating a centuries old tradition in U S print culture in which the recalcitrant materiality of the body serves as a trope for the regional alterity of the South Reading for the Body makes a powerful case for the body as an important methodological resource for a new southern studies

Walk with Me Kate Clifford Larson, 2021 Few figures embody the physical courage unstinting sacrifice and inspired heroism behind the Civil Rights movement more than Fannie Lou Hamer For millions hers was the voice that made This Little Light of Mine an anthem Her impassioned rhetoric electrified audiences At the Democratic Convention in 1964 Hamer's televised speech took not just Democrats but the entire nation to task for abetting racial injustice searing the conscience of everyone who heard it Born in the Mississippi Delta in 1917 Hamer was the 20th child of Black sharecroppers and raised in a world in which racism poverty and injustice permeated the cotton fields As the Civil Rights Movement began to emerge during the 1950s she was struggling to make a living with her husband on lands that her forebears had cleared ploughed and harvested for generations When a white doctor sterilized her without her permission in 1961 Hamer took her destiny into her own hands Bestselling biographer Kate Clifford Larson offers the first account of Hamer's life for a general audience capturing and illuminating what made Hamer the electrifying force that she became when she walked onto stages across the country during the 1960s and until her death in 1977 Walk with Me does justice to the full force of Hamer's activism and example Based on new sources including recently opened FBI files and Oval Office transcripts the biography features interviews with some of the people closest to Hamer and conversations with Civil Rights leaders who fought alongside her Larson's biography will become the standard account of an extraordinary life

A New History of American and Canadian Folk Music Dick Weissman, 2019-09-05 Building on his 2006 book Which Side Are You On Dick Weissman s A New History of American and Canadian Folk Music presents a provocative discussion of the history evolution and current status of folk music in the United States and Canada North American folk music achieved a high level of popular acceptance in the late 1950s When it was replaced by various forms of rock music it became a more specialized musical niche fragmenting into a proliferation of musical styles In the pop folk revival of the 1960s artists were celebrated or rejected for popularizing the music to a mass audience In particular the music seemed to embrace a quest for authenticity which has led to endless explorations of what is or is not faithful to the original concept of traditional music This book examines the history of folk music into the 21st century and how it evolved from an agrarian style as it became increasingly urbanized Scholar performer Dick Weissman himself a veteran of the popularization wars is uniquely qualified to examine the many controversies and musical evolutions of the music including a detailed discussion of the quest for authenticity and how various musicians critics and fans have defined that pursuit

The Invention and Reinvention of Big Bill Broonzy Kevin D. Greene, 2018-09-28 Over the course of his long career legendary bluesman William Big Bill Broonzy 1893 1958 helped shape the trajectory of the genre from its roots in the rural Mississippi River Delta through its rise as a popular genre in the North to its eventual international acclaim Along the way Broonzy adopted an evolving personal and professional identity tailoring his self presentation to the demands of the place and time His remarkable professional fluidity mirrored the range of expectations from his audiences whose ideas about race national belonging identity and the blues were refracted through Broonzy as if through a prism Kevin D Greene argues that Broonzy s popular success testifies to his ability to navigate the cultural expectations of his different audiences However this constant reinvention came at a personal and

professional cost Using Broonzy's multifaceted career Greene situates blues performance at the center of understanding African American self presentation and racial identity in the first half of the twentieth century Through Broonzy's life and times Greene assesses major themes and events in African American history including the Great Migration urbanization and black expatriate encounters with European culture consumers Drawing on a range of historical source materials as well as oral histories and personal archives held by Broonzy's son Greene perceptively interrogates how notions of race gender and audience reception continue to shape concepts of folk culture and musical authenticity To Know the Soul of a People Jamil W. Drake, 2022 To Know the Soul of a People is a history of religion and race in the agricultural South before the Civil Rights era Jamil W Drake chronicles a cadre of social scientists who studied the living conditions of black rural communities revealing the abject poverty of the Jim Crow south These university affiliated social scientists documented shotgun houses unsanitary privies and contaminated water scaly hands enlarged stomachs and malnourished bodies However they also turned their attention to the spiritual possessions chanted sermons ecstatic singing conjuration dreams and visions fortune telling taboos and other religious cultures of these communities These scholars aimed to illuminate the impoverished conditions of their subjects for philanthropic and governmental organizations as well as the broader American public in the first half of the 20th century especially during the Great Depression Religion was integral to their efforts to chart the long economic depression across the South From 1924 to 1941 Charles Johnson Guy Johnson Allison Davis Lewis Jones and other social scientists framed the religious and cultural practices of the black communities as folk practices aiming to reform them and the broader South Drawing on their correspondence fieldnotes and monographs Drake shows that social scientists use of folk reveals the religion was an important site for highlighting the supposed mental moral and cultural deficits of America's so called folk population Moreover these social scientists did not just pioneer rural social science and reform but used their study of religion to plant the seeds of the concept that would become known as the culture of poverty in the latter half of the twentieth century To Know the Soul of a People is an exciting intellectual history that invites us to explore the knowledge that animated the earnest yet shortsighted liberal efforts to reform black and impoverished communities
