Lost Universe 5:

The Lost Universe Gene Weltfish, 1977-01-01 A fascinating insight into the life and culture of the Pawnee people is achieved here by the author's presentation of carefully gathered information in the form of a narrative of one year in Pawnee village. The first few chapters lay the groundwork of kinship lines followed by a narration of the life of one person in the village. Customs, ceremonies, beliefs, and hard work become apparent as the author leads one through the intricacies of the activities. Although it presents a great deal of detailed anthropological material, the manner of presentation turns the book into a readable account. The book is based on years of first-hand study as well as scholarly research and is recommended as an in-depth study of Plains Indian life. Reprint Bulletin Book Reviews. Gene Weltfish is coauthor with Ruth Benedict of *The Races of Mankind*. She is also the author of *The Origins of Art* and other books.

Marginality and 'Resistencia' Miguel Rivas Venegas, Martina L. Weisz, 2024-12-30 This book promotes international and interdisciplinary reflections on narratives of exclusion, liminality, dissident power, and the forging of new identities during the last decades. Focusing on the rich case studies presented by the Spanish-speaking world and beyond, it seeks to generate a deeper understanding of the mechanisms of othering and the strategies being developed by the traditionally suppressed voices of marginalized ethnic, gender, and mnemonic communities in order to be heard.

How the West Was Drawn David Bernstein, 2018-08-01 How the West Was Drawn explores the geographic and historical experiences of the Pawnees, the Iowas, and the Lakotas during the European and American contest for imperial control of the Great Plains during the eighteenth and nineteenth centuries. David Bernstein argues that the American West was a collaborative construction between Native peoples and Euro-American empires that developed cartographic processes and culturally specific maps which in turn reflected encounter and conflict between settler states and indigenous peoples. Bernstein explores the cartographic creation of the Trans-Mississippi West through an interdisciplinary methodology in geography and history. He shows how the Pawnees and the Iowas, wedged between powerful Osages, Sioux, the horse and captive-rich Comanche Empire, French fur traders, Spanish merchants, and American Indian agents and explorers, devised strategies of survivance and diplomacy to retain autonomy during this era. The Pawnees and the Iowas developed a strategy of cartographic resistance to predations by both Euro-American imperial powers and strong indigenous empires navigating the volatile and rapidly changing world of the Great Plains by brokering their spatial and territorial knowledge either to stronger indigenous nations or to much weaker and conquerable American and European powers. How the West Was Drawn is a revisionist and interdisciplinary understanding of the global imperial contest for North America's Great Plains that illuminates in fine detail the strategies of survival of the Pawnees, the Iowas, and the Lakotas amid accommodation to predatory Euro-American and Native empires.

perspective detailing the battles in which they served and recounting hitherto neglected episodes Employing military records archival sources and contemporary interviews with current Pawnee tribal members some of them descendants of the scouts Van de Logt presents the Pawnee scouts as central players in some of the army's most notable campaigns He argues that military service allowed the Pawnees to fight their tribal enemies with weapons furnished by the United States as well as to resist pressures from the federal government to assimilate them into white society According to the author it was the tribe's martial traditions deeply embedded in their culture that made them successful and allowed them to retain these time honored traditions The Pawnee style of warfare based on stealth and surprise was so effective that the scouts commanding officers did little to discourage their methods Although the scouts proudly wore the blue uniform of the U S Cavalry they never ceased to be Pawnees The Pawnee Battalion was truly a war party in blue

The Dust Rose Like Smoke James O. Gump, 2016 In 1876 Lakota and Cheyenne warriors annihilated Custer's Seventh Cavalry at Little Bighorn Three years later and half a world away a British force was wiped out by Zulu warriors at Isandhlwana in South Africa In both cases the total defeat of regular army troops by forces regarded as undisciplined barbarian tribesmen stunned an imperial nation Although the similarities between the two frontier encounters have long been noted James O Gump's book *The Dust Rose Like Smoke* is the first to scrutinize them in a comparative context This study issues a challenge to American exceptionalism he writes Viewing both episodes as part of a global pattern of intensified conflict in the latter 1800s resulting from Western domination over a vast portion of the globe Gump's comparative study persuasively traces the origins and aftermath of both episodes He examines the complicated ways in which Lakota and Zulu leadership sought to protect indigenous interests while Western leadership calculated their subjugation to imperial authority The second edition includes a new preface from the author revised and expanded chapters and an interview with Leonard Little Finger great great grandson of Ghost Dance leader Big Foot whose story connects Wounded Knee and Nelson Mandela
