Major Political Events In South Africa 1948 1990:

Major Political Events in South Africa, 1948-1990 Eileen Riley, 1991 A detailed chronology of South African history since World War II traces the development of the apartheid system and the rise of anti apartheid movements Political Leadership in an Era of Decolonisation Malcolm Murfett, 2023-11-10 What is leadership and why is it so important In what ways does it look very different in different contexts and in what ways does it look the same Malcolm Murfett brings together a range of emerging and established scholars to examine these questions in light of some of the mid twentieth century s most intriguing national leaders In a series of striking biographical chapters lessons are drawn from the apartheid era in South Africa Lee s remarkable socio economic transformation of Singapore Castro s revolutionary overhauling of Cuba and the playing out of Bandaranaike s populist agenda in Sri Lanka The book illuminates what Brezhnev and Nixon were looking for in the Cold War and what happened when the people turned against Nyerere in Tanzania the Shah in Iran and Ceau escu in Romania These case studies address what leadership meant for the individuals whose record in power is being examined These are not idealised portraits of how to do leadership but warts and all portrayals of exceptional individuals who scrabbled their way to the top and stayed there for several years during a period of great change Business schools have long studied the theoretical axioms of corporate leadership What this book does however is to move beyond the theory into the practical realm of politics and statecraft This is a fascinating book on leadership that will be of interest for students researchers and practitioners studying leadership in business and politics as well as for students of global history decolonisation and the Cold War **IBSS: Political Science: 1991** British Library of Political and Economic Science, 1993 IBSS is the essential tool for librarians university departments research institutions and any public or private institution whose work requires access to up to date and comprehensive knowledge of the social sciences **Information Sources of Political Science** Stephen W. South Africa Siri Gloppen,2019-05-23 Originally published in 1997 South Africa The Battle over the Constitution analyses rivaling positions in the South African constitutional debate from the early 1990s via the 1993 interim constitution to the adoption and certification of the new Final Constitution in December 1996 A theoretical framework is developed to analyze the constitutional structure of the contesting constitutional models and the book looks into their potential for addressing the problems of violence social inequality and ethnic tension and for achieving legitimacy and constitutionalism It argues that the constitutional solutions are premised on incomparable conceptions of South African reality and that the Final Constitution includes elements based on incompatible world views The compromises required by the constitutional moment could pose problems for the constitutional function The book also discusses other factors influencing the consolidation of a constitutional democracy in South Africa such as the role of the Constitutional Court and the attempts to create legitimacy for the constitution by broad public participation in the constitution making process **1993-1994** Brian

From Rwanda to Somalia to the former Yugoslavia one feature of the post Cold War world has become dreadfully clear Ethnic conflicts are escalating and with them demands for international intervention But legally most ethnic conflicts are internal matters How are international organizations their resources stretched woefully thin to know when intervention is appropriate or possible This volume addresses the changing nature of relations between war torn multiethnic states and international organizations particularly the United Nations and its agencies Are the established norms that limit intervention in ethnic conflicts adequate to contemporary conditions Can international organizations meet the increasing demand If not what are the consequences of the disparities between established norms current capabilities and expanding expectations and how might these disparities be narrowed The contributors explore the desirability and potential effectiveness of international

interventions in ethnic conflicts Detailed studies of two specific cases of severe and violent tensions in Lebanon and Yugoslavia complement the general discussion with particular insights into the risks and exigencies of international attempts to manage ethnic civil war A deeply thoughtful overview of one of the most pressing and perplexing issues confronting the world today this volume clarifies the changing role of international organizations in an increasingly fragmented world

Revolutionary Desires Ania Loomba, 2018-07-24 *Revolutionary Desires* examines the lives and subjectivities of militant nationalist and communist women in India from the late 1920s shortly after the communist movement took root to the 1960s when it fractured. This close study demonstrates how India's revolutionary women shaped a new female and in some cases feminist political subject in the twentieth century in collaboration and contestation with Indian nationalist liberal feminist and European left wing models of womanhood. Through a wide range of writings by and about revolutionary and communist women including memoirs autobiographies novels party documents and interviews Ania Loomba traces the experiences of these women showing how they were constrained by but also how they questioned the gendered norms of Indian political culture. A collection of carefully restored photographs is dispersed throughout the book helping to evoke the texture of these women's political experiences both public and private. *Revolutionary Desires* is an original and important intervention into a neglected area of leftist and feminist politics in India by a major voice in feminist studies.
