Myths and Myth-Makers Old Tales and Superstitions Interpreted by Comparative Myt John Fiske,2018-05-25 Myths and Myth Makers old tales and superstitions interpreted by comparative mythology John Fiske Trieste Publishing has a massive catalogue of classic book titles Our aim is to provide readers with the highest quality reproductions of fiction and non fiction literature that has stood the test of time The many thousands of books in our collection have been sourced from libraries and private collections around the world The titles that Trieste Publishing has chosen to be part of the collection have been scanned to simulate the original Our readers see the books the same way that their first readers did decades or a hundred or more years ago Books from that period are often spoiled by imperfections that did not exist in the original Imperfections could be in the form of blurred text photographs or missing pages It is highly

unlikely that this would occur with one of our books Our extensive quality control ensures that the readers of Trieste Publishing s books will be delighted with their purchase Our staff has thoroughly reviewed every page of all the books in the collection repairing or if necessary rejecting titles that are not of the highest quality This process ensures that the reader of one of Trieste Publishing s titles receives a volume that faithfully reproduces the original and to the maximum degree possible gives them the experience of owning the original work We pride ourselves on not only creating a pathway to an extensive reservoir of books of the finest quality but also providing value to every one of our readers Generally Trieste books are purchased singly on demand however they may also be purchased in bulk Readers interested in bulk purchases are invited to contact us directly to enquire about our tailored bulk rates We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience john fiske books john fisken photos john fiske pdf john fiske theory Myths and Myth-Makers Old Tales and Superstitions Interpreted by Comparative Mythology Fiske John,2016-06-20 Unlike some other reproductions of classic texts 1 We have not used OCR Optical Character Recognition as this leads to bad quality books with introduced typos 2 In books where there are images such as portraits maps sketches etc We have endeavoured to keep the quality of these images so they represent accurately the original artefact Although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy **Myths and Myth-Makers** John Fiske,2017-06-24 **Myths and Myth Makers Old Tales and Superstitions Interpreted by Comparative Mythology** Twentieth Edition is an unchanged high quality reprint of the original edition of 1895 Hansebooks is editor of the literature on different topic areas such as research and science travel and expeditions cooking and nutrition medicine and other genres As a publisher we focus on the preservation of historical literature Many works of historical writers and scientists are available today as antiques only Hansebooks newly publishes these books and contributes to the preservation of literature which has become rare and historical knowledge for the future **Myths and Myth-Makers** Fiske John,2013-03-01 Bonded Leather binding **Myths and Myth-Makers** John Fiske,2015-05-08 observed parenthetically that the charters of Kussenach when examined show that no man by the name of Gessler ever ruled there The chroniclers of the fifteenth century Faber and Hammerlin who minutely describe the tyrannical acts by which the Duke of Austria goaded the Swiss to rebellion do not once mention Tell s name or betray the slightest

acquaintance with his exploits or with his existence In the Zurich chronicle of 1479 he is not alluded to But we have still better negative evidence John of Winterthur one of the best chroniclers of the Middle Ages was living at the time of the battle of Morgarten 1315 at which his father was present He tells us how on the evening of that dreadful day he saw Duke Leopold himself in his flight from the fatal field half dead with fear He describes with the loving minuteness of a contemporary all the incidents of the Swiss revolution but nowhere does he say a word about William Tell This is sufficiently conclusive These mediaeval chroniclers who never failed to go out of their way after a bit of the epigrammatic and marvellous who thought far more of a pointed story than of historical credibility would never have kept silent about the adventures of Tell if they had known anything about them After this it is not surprising to find that no two authors who describe the deeds of William Tell agree in the details of topography and chronology Such Myths and Myth-Makers ,2020-02-16 **Myths and Myth-Makers** John Fisk,2017-03-20 In publishing this somewhat rambling and unsystematic series of papers in which I have endeavored to touch briefly upon a great many of the most important points in the study of mythology I think it right to observe that in order to avoid confusing the reader with intricate discussions I have sometimes cut the matter short expressing myself with dogmatic definiteness where a skeptical vagueness might perhaps have seemed more becoming In treating of popular legends and superstitions the paths of inquiry are circuitous enough and seldom can we reach a satisfactory conclusion until we have traveled all the way around Robin Hood's barn and back again I am sure that the reader would not have thanked me for obstructing these crooked lanes with the thorns and brambles of philological and antiquarian discussion to such an extent as perhaps to make him despair of ever reaching the high road I have not attempted to review otherwise than incidentally the works of Grimm Müller Kuhn Bréal Dasent and Tylor nor can I pretend to have added anything of consequence save now and then some bit of explanatory comment to the results obtained by the labor of these scholars but it has rather been my aim to present these results in such a way as to awaken general interest in them And accordingly in dealing with a subject which depends upon philology almost as much as astronomy depends upon mathematics I have omitted philological considerations wherever it has been possible to do so Fisk from the Preface *Myths and Mythmakers - Old Tales and Superstitions Interpreted by Comparative Mythology* John Fiske,2007-03 This historic book may have numerous typos and missing text Purchasers can download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1902 Excerpt earth's radius of moon or other body P moon's horizontal parallax earth's angular semidiameter as seen from the moon f moon's angular semidiameter Now P in circular measure r r in circular measure r P or radius of earth radius of moon moon's parallax moon's semidiameter Examples 1 Taking the moon's horizontal parallax as 57 and its angular diameter as 32 find its radius in miles assuming the earth's radius to be 4000 miles Here moon's semidiameter $16 \cdot 4000 \cdot 57 \cdot 16 \cdot r \cdot 400 \cdot 16 \cdot 1123$ miles 2 The sun's horizontal parallax being 88 and his angular diameter 32' find his diameter in miles $A = 872 \cdot 727$ miles 3 The synodic period of Venus being 584 days find the angle

gained in each minute of time on the earth round the sun as centre Am $1\ 54$ per minute 4 Find the angular velocity with which Venus crosses the sun's disc assuming the distances of Venus and the earth from the sun are as 7 to 10 as given by Bode's Law Since fig 50 $S\ V\ VA\ 7\ 3$ But Sr has a relative angular velocity round the sun of $1\ 54$ per minute see Example 3 therefore the relative angular velocity of $A\ V$ round A is greater than this in the ratio of 7 3 which gives an approximate result of 3 6 per minute the true rate being about 4 per minute Annual ParaUax 95 We have already seen that no displacement of the observer due to a change of position on the earth's surface could apparently affect the direction of a fixed star However as the earth in its annual motion describes an orbit of about 92 million miles radius round the sun the different positions in space from which an observer views the fixed stars from time to time throughout the year must be separated
