The first study to look at the intersection of the discourse of the Anthropocene within the two highly influential storytelling modes of fantasy and myth this book shows the need for stories that articulate visions of a biocentric ecological civilization Fantasy and myth have long been humanity's most advanced technologies for collective dreaming Today they are helping us adopt a biocentric lens re-kin us with other forms of life and assist us in the transition to an ecological civilization Deliberately moving away from dystopian narratives toward anticipatory imaginations of sustainable futures this volume blends chapters by top scholars in the fields of fantasy myth and Young Adult literature with personal reflections by award winning authors and illustrators of books for young audiences including Shaun Tan Jane Yolen Katherine Applegate and Joseph Bruchac Chapters cover the works of major fantasy authors such as J R R Tolkien Terry Pratchett J K Rowling China Miéville Barbara Henderson Jeanette Winterson John Crowley Richard Powers George R R Martin and Kim Stanley Robinson They range through narratives set in the UK USA Nigeria Ghana Pacific Islands New Zealand and Australia Across the chapters fantasy and myth are framed as spaces where visions of sustainable futures can be designed with most detail and nuance Rather than merely criticizing the ecocidal status quo the book asks how mythic narratives and fantastic stories can mobilize resistance around ideas necessary for the emergence of an ecological civilization True Myth James W Menzies, 2015-02-26

True Myth examines the meaning and significance of myth as understood by C S Lewis and Joseph Campbell and its place in the Christian faith in a technological society C S Lewis defined Christianity and being truly human as a relationship between the personal Creator and his creation mediated through faith in his son Jesus The influential writer and mythologist Joseph Campbell had a different perspective understanding Christianity as composed of mythical themes similar to those in other religious and secular myths While accepting certain portions of the biblical record as historical Campbell taught the theological and miraculous aspects as symbolic as stories in which the reader discovers what it means to be human today In contrast Lewis presented the theological and the miraculous in a literal way Although Lewis understood how one could see symbolism and lessons for life in miraculous events he believed they were more than symbolic and indeed took place in human history In True Myth James W Menzies skilfully balances the two writers differing approaches to guide the reader through a complex interaction of myth with philosophy media ethics history literature art music and religion in a contemporary world **Four and a Half Shades of Fantasy** W.J. Myth and Creative Writing Adrian May, 2013-11-19 Myth and Creative Writing is a unique and practical guide to the arts of creative writing It Gives a historical perspective on the storyteller s art Takes a wide view of myth to include legends folklore biblical myth classical myth belief myths balladry and song Considers all aspects of the creative process from conception to completion Provides tips on seeking inspiration from classical and mythic sources Shows how myths can be linked to contemporary concerns Enables beginning writers to tap into the deeper resonances of myth Guides students to further critical and creative resources A secret that all writers know is that they are part of a long tradition of storytelling whether they call it mythic intertextual interactive or original And in the pantheon of storytelling myths those stories that tell

us in often magical terms how the world and the creatures in it came to be are the bedrock a source of unending inspiration One can dress the study of literature in the finest critical clothing or intellectualise it until the cows come home but at its heart it is nothing more and nothing less than the study of the human instinct to tell stories to order the world into patterns we can more readily understand Exploring the mythic nature of writing by considering where the connections between instinct and art are made and where the writer is also seen as a mythic adventurer is a way of finding close links to what it is we demand from literature which is again something to do with the essences of human nature Further in the course of examining the nature of myth Adrian May provides a very practical guide to the aspiring writer whether in a formal course or working alone on how to write stories myths of their own from how to begin how to develop and how to close
