Times For Young People by Hamilton Wright Mabie In many parts of the country when the soil is disturbed arrow heads are found Now it is a great many years since arrow heads have been used and they were never used by the people who own the land in which they appear or by their ancestors To explain the presence of these roughly cut pieces of stone we must recall the weapons with which the Indians fought when Englishmen Frenchmen Dutchmen and Spaniards first came to this part of the world There may be no authentic history of Indians in the particular locality in which these old fashioned weapons come to light but their presence in the ground is the best kind of evidence that Indians once lived on these fields or were in the habit of hunting over them In many parts of the country these arrow heads are turned up in great numbers museums large and small are plentifully supplied with them and they form part of the record of the men who once lived here and of their ways of killing game and destroying their enemies Wherever there are arrow heads there have been Indians Among every people and in every language there are found stories superstitions traditions phrases which are not to be explained by the thoughts or ideas or beliefs of people now living and the same stories superstitions phrases are found among people as far apart as those of Norway and Australia The people of to day tell these stories or remember the superstitions or use the phrases without understanding where they came from or what they meant when first used As the ground in some sections is full of arrow heads that have been buried no one knows how many centuries so the poetry we read the music we hear the stories told us when we are children have come down from a time in the history of man so early that there are in many cases no other records or remains of it These stories vary greatly in details they fit every climate and wear the peculiar dress of every country but it is easy to see that they are made up of the same materials and that they describe the same persons or ideas or things whether they are told in Greece or India or Norway or Brittany Wherever they are found they make it certain that they come from a very remote time and grew out of ideas or feelings and ways of looking at the world which a great many men shared in common in many places We are delighted to publish this classic book as part of our extensive Classic Library collection Many of the books in our collection have been out of print for decades and therefore have not been accessible to the general public The aim of our publishing program is to facilitate rapid access to this vast reservoir of literature and our view is that this is a significant literary work which deserves to be brought back into print after many decades The contents of the vast majority of titles in the Classic Library have been scanned from the original works To ensure a high quality product each title has been meticulously hand curated by our staff Our philosophy has been guided by a desire to provide the reader with a book that is as close as possible to ownership of the original work We hope that you will enjoy this wonderful classic work and that for you it becomes an enriching experience **Myths That Every Child Should Know**
