Nach Der Kristallnacht:

A Fatal Balancing Act Beate Meyer, 2013-09-01 In 1939 all German Jews had to become members of a newly founded Reich Association. The Jewish functionaries of this organization were faced with circumstances and events that forced them to walk a fine line between responsible action and collaboration. They had hoped to support mass emigration, mitigate the consequences of the anti-Jewish measures and take care of the remaining community. When the Nazis forbade emigration and started mass deportations in 1941, the functionaries decided to cooperate to prevent the worst. In choosing to cooperate, they came into direct opposition with the interests of their members, who were then deported. In June 1943, all unprotected Jews were deported along with their representatives, and the so-called intermediaries supplied the rest of the community, which consisted of Jews living in mixed marriages. The study deals with the tasks of these men, the fate of the Jews in mixed marriages, and what happened to the survivors after the war.

Egyptology from the First World War to the Third Reich Thomas Schneider, Peter Raulwing, 2012-11-08 Only recently has Egyptology started examining ideology and its implications for our self-understanding and understanding of ancient Egypt. Egyptology and the past as a whole. This edition presents aspects of ideology, scholarship, and individual biographies from World War I to the Third Reich.

A History of Twentieth-century Germany Ulrich Herbert, 2019 Germany in the 20th century endured two world wars, a failed democracy, Hitler's dictatorship, the Holocaust, and a country divided for 40 years. But it has also boasted a strong welfare state, affluence, liberalization, and globalization, a successful democracy, and the longest period of peace in European history. In this award-winning volume of German history, Ulrich Herbert analyzes the trajectory of German politics and culture during a century of extremes.

Protest in Hitler's "National Community" Nathan Stoltzfus, Birgit Maier-Katkin, 2015-12-01 That Hitler's Gestapo harshly suppressed any signs of opposition inside the Third Reich is a common misconception. This book presents studies of public dissent that prove this was not always the case. It examines circumstances under which racial Germans were motivated to protest as well as the conditions determining the regime's response. Workers, women, and religious groups all convinced the Nazis to appease rather than repress racial Germans. Expressions of discontent actually increased during the war, and Hitler remained willing to compromise in governing the German Volk as long as he thought the Reich could salvage victory.

Mapping the Contours of Oppression Owen Evans, 2006-01-01 Despite all the assertions towards the end of the twentieth century that the literary subject had expired along with the author, the wave of autobiographies published in Germany after the Wende was a clear indication that, on the contrary, life stories were very much alive. In this study, Owen Evans examines the work of eight authors: Ludwig Harig, Uwe Saeger, Ruth Kläger, Ginter de Bruyn, Ginter Kunert, Christoph Hein, Grete Weil, and Monika Maron, who all published personal texts after 1989 dealing either with life in Nazi Germany or the GDR and in some cases both. By means of close textual analysis, Evans explores the impact these regimes had on the individuals concerned and the contrasting ways in which the authors handle the autobiographical project. They adopt varying

textual strategies to render the self on the page with some employing overt fiction and yet in each case the project was clearly motivated by the need to treat psychological wounds inflicted on the self by totalitarianism In their mapping of the contours of oppression the texts at the heart of this study combine to offer a powerful defence of literary autobiography in Germany at least as a valuable means of tackling the legacy of totalitarianism

Predicting the Holocaust Jürgen Matthäus, 2018-12-14 Published in association with the United States Holocaust Memorial Museum Historians long have analyzed the emergence of the final solution of the Jewish question primarily on the basis of German documentation devoting much less attention to wartime Jewish perceptions of the growing threat Jürgen Matthäus fills this critical gap by showcasing the highly insightful reports compiled during the first half of World War II by two Geneva based offices those of Richard Lichtheim representing the Jewish Agency for Palestine and of Gerhart Riegner's World Jewish Congress office Since the first days of war Lichtheim's predictions of Jewish dead ran in the millions and increased progressively with the rising tide of Nazi rule over Europe His and Riegner's perceptions of German anti Jewish policy resulted from shared goals and personal experiences as well as from their bureaus range of functions and the massive problems that impacted the gathering and communicating of information on the unfolding Holocaust in German controlled Europe Beyond the specifics of the wartime Geneva setting these sources show how human cognition works in times of extreme crisis and contribute to a better understanding of the potential inherent in Jewish sources for gauging perpetrator actions The reports and contextual information featured here reflect the first narratives on the Holocaust their emergence evolution and importance for post war historiography

Children during the Holocaust Patricia Heberer, 2011-05-31 Children during the Holocaust from the United States Holocaust Memorial Museum's Center for Advanced Holocaust Studies tells the story of the Holocaust through the eyes and fates of its youngest victims The ten chapters follow the arc of the persecutory policies of the Nazis and their sympathizers and the impact these measures had on Jewish children and adolescents from the years leading to the war to the roundups deportations and emigrations to hidden life and death in the ghettos and concentration camps and to liberation and coping in the wake of war This volume examines the reactions of children to discrimination the loss of livelihood in Jewish homes and the public humiliation at the hands of fellow citizens and explores the ways in which children's experiences paralleled and diverged from their adult counterparts Additional chapters reflect upon the role of non Jewish children as victims perpetrators and bystanders during World War II Offering a collection of personal letters diaries court testimonies government documents military reports speeches newspapers photographs and artwork Children during the Holocaust highlights the diversity of children's experiences during the nightmare years of the Holocaust

"Getting History Right" Mark Wolfgram, 2011 How do individuals societies and nations deal with their difficult pasts Getting History Right examines this question in a comparative context by looking at an authoritarian East Germany and a pluralistic democratic West Germany Eschewing a narrow focus on elites this work draws extensively on societal level discussions of the past in popular

culture such as film television radio and newspapers It examines how societal level discussions of the past shaped individual perceptions and interpretations of the past and how individual perceptions and struggles over the meaning of the past shaped societal level discussions These struggles over meaning and getting history right are not only shaped by political power but are also a source of symbolic power To understand political life scholars must embrace not only material political power but also the symbolic and cultural roots of power The research presented here makes extensive use of public opinion data cinema attendance and television viewer data as well as other sources to look at the multiple meanings that East and West Germans assigned to the Holocaust and World War II across time Rather than culture merely being an extension of political power this work argues that culture and the boundaries of the cultural matrix shape the use of political power by different social actors Getting history right is not only a reflection of political power it is a source of power itself

Flight and Concealment Susanna Schrafstetter, 2022-09-06 Between ten thousand and twelve thousand Jews tried to escape Nazi genocide by going into hiding With the help of Jewish and non Jewish relatives friends or people completely unknown to them these U boats as they came to be known dared to lead a life underground Flight and Concealment brings to light their hidden stories Deftly weaving together personal accounts with a broader comparative look at the experiences of Jews throughout Germany historian Susanna Schrafstetter tells the story of the Jews in Munich and Upper Bavaria who fled deportation by going underground Archival sources and interviews with survivors and with the Germans who aided or exploited them reveal a complex often intimate story of hope greed and sometimes betrayal Flight and Concealment shows the options and strategies for survival of those in hiding and their helpers and discusses the ways in which some Germans enriched themselves at the expense of the refugees

The Wages of Destruction Adam Tooze, 2008-02-26 Masterful A painstakingly researched astonishingly erudite study Tooze has added his name to the roll call of top class scholars of Nazism Financial Times An extraordinary mythology has grown up around the Third Reich that hovers over political and moral debate even today Adam Tooze's controversial book challenges the conventional economic interpretations of that period to explore how Hitler's surprisingly prescient vision ultimately hindered by Germany's limited resources and his own racial ideology was to create a German super state to dominate Europe and compete with what he saw as America's overwhelming power in a soon to be globalized world The Wages of Destruction is a chilling work of originality and tremendous scholarship that set off debate in Germany and will fundamentally change the way in which history views the Second World War

hrer in April 1945 Longerich shows just how ruthless Hitler was in his path to power He emphasizes Hitler s political skills as Germany gained prominence on the world s stage Hitler s rise to and ultimate hold on power was more than merely a matter of charisma rather it was due to his ability to control the structure he created His was an image constructed by his regime an essential piece self created of propaganda This comprehensive biography is the culmination of Longerich s life long pursuit to understand the man behind the century s worst crimes **"Erzählen heisst, der Wahrheit verschworen sein."** Patricia
