**Heidegger in Russia and Eastern Europe** Jeff Love, 2017-07-17 Heidegger s influence in the twentieth century probably outstrips that of any other philosopher at least in the so called Continental tradition The revolution Heidegger brought about with his compelling readings of the broader philosophical tradition transformed German philosophy and spread quickly to most of Europe the United States and Japan This volume examines Heidegger s influence in a region where his reception has had a remarkable and largely hidden history Eastern Europe and Russia The book begins by addressing two important literary influences on Heidegger Dostoevsky and Tolstoy It goes on to examine Heidegger s philosophical influence and features three crucial figures in the reception of

Heidegger's thought in Eastern Europe and Russia Vladimir Bibikhin Krzysztof Michalski and Jan Patocka Finally the volume deals with an often vexed issue in current treatments of Heidegger the importance of Heidegger's philosophy for politics The book includes essays by an international team of contributors including leading representatives of Heideggerian thought in Russia today Heidegger's thought plays a key role in debates over Russian identity and the geopolitical role Russia has to play in the world The volume surveys the complicated landscape of post Soviet philosophy and how the rise of widely differing appropriations of Heidegger exploit familiar fault lines in the Russian reception of Western thinkers that date back to the first stirrings of a distinctively Russian philosophical tradition

**Russia's Regional Identities** Edith Clowes, Gisela Erbslöh, Ani Kokobobo, 2018-01-17 Contemporary Russia is often viewed as a centralised regime based in Moscow with dependent provinces made subservient by Putin's policies limiting regional autonomy This book however demonstrates that beyond this largely political view by looking at Russia's regions more in cultural and social terms a quite different picture emerges of a Russia rich in variety with different regional identities cultures traditions and memories The book explores how identities are formed and rethought in contemporary Russia and outlines the nature of particular regional identities from Siberia and the Urals to southern Russia from the Russian heartland to the non Russian republics

**The Cambridge History of Russia: Volume 2, Imperial Russia, 1689-1917** Maureen Perrie, D. C. B. Lieven, Ronald Grigor Suny, 2006-08-17 A definitive new history of Russia from early Rus to the collapse of the Soviet Union

**Oil and the Economy of Russia** Nat Moser, 2017-10-20 This book examines the development of the Russian economy from tsarist times to the present through the lens of the oil industry It considers the role of the state business state relations foreign participation enterprise performance and technology Besides providing much rich detail on the changing nature of the oil industry the book also puts forward important conclusions including the fact that in the late nineteenth century private enterprise rather than the state was the principal driver of economic development and that after the collapse of the Soviet Union incumbent managers were more effective in running their companies than financier entrants whose main concern was short term gain

compelling aspect of Russian social history Marriage Household and Home in Modern Russia is crucial reading for any student or scholar of modern Russian history      **Social Identity in Imperial Russia** Elise Kimerling

Wirtschafter,1997-10-01 A broad panoramic view of Russian imperial society from the era of Peter the Great to the revolution of 1917 Wirtschafter's study sets forth a challenging interpretation of one of the world's most powerful and enduring monarchies A sophisticated synthesis that combines extensive reading of recent scholarship with archival research it focuses on the interplay of Russia's key social groups with one another and the state The result is a highly original history of Russian society that illuminates the relationships between state building large scale social structures and everyday life Beginning with an overview of imperial Russia's legal and institutional structures Wirtschafter analyzes the ruling classes and service elites the land owning nobility the civil and military servicemen the clergy and then examines the middle groups the *raznochintsy* the commercial industrial elites the professionals the intelligentsia before turning to the peasants townspeople and factory workers Wirtschafter argues that those very social political and legal relationships that have long been viewed as sources of conflict and crisis in fact helped to promote integration and foster the stability that ensured imperial Russia's survival      *Russia Before The 'Radiant Future'* Michael Confino,2011-05-01 One of the major historians of prerevolutionary Russia has collected in this volume some of his most important essays Written over a number of years these pioneering works have been revised and updated and are complemented by others being published for the first time Thematically they cover major subjects in Imperial Russian history and in historical writing such as ideas and their role in historical change the intelligentsia the nobility and peasant society and historiography The twelve essays raise cardinal questions about current scholarship on Russian history before the upheavals of 1917 and offer original interpretations that are of interest to the educated layman as well as the professional historian      Russia's Protectorates in Central Asia Seymour Becker,2004-08-02

This book examines the Russian conquest of the ancient Central Asian khanates of Bukhara and Khiva in the 1860s and 1870s and the relationship between Russia and the territories until their extinction as political entities in 1924 It shows how Russia's approach developed from one of non intervention with the primary aim of preventing British expansion from India into the region to one of increasing intervention as trade and Russian settlement grew It goes on to discuss the role of Bukhara and Khiva in the First World War and the Russian Revolution and how the region was fundamentally changed following the Bolshevik conquest in 1919-20 The book is a re issue of a highly regarded classic originally published in 1968 and out of print for some years The new version includes a new introduction some corrections of errors and a survey of new work undertaken since first publication      Liberalism in Pre-revolutionary Russia Susanna Rabow-Edling,2018-08-06 Nineteenth century Russian intellectuals were faced with a dilemma They had to choose between modernizing their country thus imitating the West or reaffirming what was perceived as their country's own values and thereby risk remaining socially underdeveloped and unable to compete with Western powers Scholars have argued that this led to the emergence of an anti Western anti

modern ethnic nationalism In this innovative book Susanna Rabow Edling shows that there was another solution to the conflicting agendas of modernization and cultural authenticity a Russian liberal nationalism This nationalism took various forms during the long nineteenth century but aimed to promote reforms through a combination of liberalism nationalism and imperialism

**Shocking Mother Russia** Andrea M. Chandler, 2004-01-01 Examining the reform process of the old age pension system in Russia from its Soviet origins to the Putin era *Shocking Mother Russia* adds significantly to the growing body of literature on comparative social policy and the political challenges of pension reform Andrea Chandler explains why Russia's old age pension system went into decline after the collapse of the Soviet Union in 1991 even though it was a prominent issue in the political arena at the outset of the post communist transition While tracing the roots of the system's difficulties to the Soviet Union's first efforts to establish a national social welfare system after 1917 Chandler nonetheless devotes the bulk of her study to the period from 1990 to 2001 While political factors impeded reform for much of this eleven year period ultimately Russia's striking policy reversals provide a case study for developing nations In 1990 a new Russian pension law was adopted during the Soviet reform process of perestroika The system was again significantly altered in 2001 when a market reform oriented package of pension legislation was passed *Shocking Mother Russia* places the Russian experience in comparative perspective and suggests lessons for pension reform derived from analysis of the Russian case
