**Sex, Lies & Feminism** Peter D. Zohrab, 2002      **The Caveman Mystique** Martha McCaughey, 2008 Has evolution made men promiscuous skirt chasers Pop Darwinian claims about men's irrepressible heterosexuality have become increasingly common and increasingly common excuses for men's sexual aggression The Caveman Mystique traces such claims about the hairier sex through evolutionary science and popular culture After outlining the social and historical context of the rise of pop Darwinism's assertions about male sexuality and their appeal to many men Martha McCaughey shows how evolutionary discourse can get lived out as the biological truth of male sexuality Although evolutionary scientists want to use their theories to solve social problems evolutionary narratives get invoked by men looking for a Darwinian defense of bad boy behaviors McCaughey argues that evolution has nearly replaced religion as a moral guide for understanding who we are and what we must overcome to be good people Bringing together insights from the fields of science studies body studies feminist theory and queer theory The Caveman Mystique offers a fresh understanding of science science popularization and the impact of science on men's identities making a convincing case for deconstructing rather than defending the caveman

**The American Father** Wade C. Mackey, 2013-06-29 In *The American Father* Wade C Mackey documents a wealth of information demonstrating the vast benefits to society when its children are raised in families with fathers The biopsychosocial approach Mackey in human employs is consistent with the current treatment of topics development This approach which is grounded in a variety of diverse sources assumes that we understand little about people when we study them a bit at a time rather the fullness of the individual requires a fullness of examination For example in the cases of fathers we note that humans do not reproduce alone after all we are not an asexual species No human reproduction and its sequelae are social just as clearly as they are biological and involve the whole panoply of psychic function motivation sociability intelligence and the like The evidence marshaled by Mackey indicates strongly that individuals and societies have an essential requirement for something more than mothering they also need

fathering Much of the discourse and publication on fathers during the past several decades has been posited on a more is better model of male parenting in which it is seldom stated who it is better for the father the child the mother the couple or the family Further much of this discussion infers that fathers are merely Mr Moms yet this is not so A Political History of the American Welfare System Brendon O'Connor,2004 John Maynard Keynes once noted that Madmen in authority are distilling their frenzy from some academic scribbler of a few years back O Connor politics and public policy Griffith U Australia supports this observation in his study of the development of the American welfare system and the broader world of political language and rhetoric within which it has been shaped Studying welfare policy from Lyndon Johnson s liberal social agenda to Bill Clinton s ending welfare as we know it he divides the period and his book into three sections corresponding to welfare politics that conformed to liberal ideology the conservative backlash against liberalism and the forging of a conservative welfare system Annotation 2004 Book News Inc Portland OR booknews com **The Night Is Large** Martin Gardner,1997-07-15 The definitive work of Martin Gardner s brilliant seven decades long career The Night Is Large collects 54 of the most significant essays by this popular writer best known for his Mathematical Games columns which appeared in Scientific American magazine for more than 25 years **Catalog of Copyright Entries. dwellers     *Saturday Review* ,1975     **The Dance with Community** Robert Booth Fowler,1991-07-25 Contemporary intellectuals have rushed to embrace the concept of community What does this tell us about American political thought Why are intellectuals uneasy with modern liberal individualism and its institutional policy results Why is political intellectual discourse dominated today by complaint In *The Dance with Community* Robert Booth Fowler reflects upon these and related questions My goal he writes is to present contemporary political thought about community for what it is a conversation interactive spirited and sometimes tough There have been many interpretations of the much discussed decline in community spirit Rather than offer another Fowler steps back to look at the debate itself He examines from the perspective of an intellectual historian the attention to community in current American political thought and explores the setting of that attention He also identifies five alternative models of community integral to the current debates and sketches a clear image of each its relationship to others the logic of its appeal and its emphases and problems In each instance he places the model into the larger conversation over alternative communities and the value of community itself     *Serving the People* Ann Withorn,1984 Moving deftly among literary and visual arts as well as the modern critical canon Christopher Prendergast's book explores the meaning and value of representation as both a philosophical challenge What does it mean to create an image that stands for something absent and a political issue Who has the right to represent whom *The Triangle of Representation* raises a range of theoretical historical and aesthetic questions and offers subtle readings of such cultural critics as Raymond Williams Paul de Man Edward Said Walter Benjamin and Hélène Cixous in addition to penetrating investigations of visual artists like Gros Ingres and Matisse and significant insights into Proust and the onus of translating him Above all Prendergast's work is a striking display of how a firm grounding in theory is essential for the exploration of art and literature     **Media Scandals** Alan Bisbort,2008-09-30 This fascinating volume offers an overview of the most influential and notorious media scandals from newspaper publisher John Peter Zenger's groundbreaking 1735 trial for printing and publishing false scandalous malicious and seditious statements to Dr Phil McGraw's 2008 thwarted attempt to force his television cameras inside Britney Spears hospital room from the attempts to ban literature by the likes of D H Lawrence James Joyce Henry Miller and Allen Ginsberg to the excesses of gossip mongers like Walter Winchell Hedda Hopper Geraldo Rivera and Matt Drudge It delves into the tabloid press and walks through the minefields of political opinion shapers the shouters the muckrakers and whistleblowers America's obsession with scandal and the media's boundless capacity to report and sometimes even create it did not start with O J Simpson Rush Limbaugh or Britney Spears It was ingrained in the fabric of our nation even before Paul Revere made his famous ride Indeed our media's cherished right to free expression was hard won and is now protected by the First Amendment to the U S Constitution but it comes with responsibilities and is fraught with peril The tension between the two forces of free expression and permissible subject matter has throughout American history caused media scandals public outcries legal proceedings denunciations violence and

in the case of Salman Rushdie's 1988 novel *The Satanic Verses* deaths. The early battles by the print media newspapers magazines books over censorship book banning book burning obscenity blasphemy and libel set the groundwork for even greater battles as the media expanded into radio television and the Internet. This fascinating volume offers an overview of the most influential and notorious media scandals from newspaper publisher John Peter Zenger's groundbreaking 1735 trial for printing and publishing false scandalous malicious and seditious statements to Dr Phil McGraw's 2008 thwarted attempt to force his television cameras inside Britney Spears' hospital room from the attempts to ban literature by the likes of D H Lawrence James Joyce Henry Miller and Allen Ginsberg to the excesses of gossip mongers like Walter Winchell Hedda Hopper Geraldo Rivera and Matt Drudge. It delves into the tabloid press and walks through the minefields of political opinion shapers the shouters the muckrakers and whistleblowers. *Media Scandals* examines this fascinating troubled and sometimes inspiring subject from two different perspectives. First through its recurrent themes which reach across all media politics censorship race and religion sex and morals. The second half of the volume then examines each industry in more detail book publishing newspapers and magazines radio and television and the Internet. Augmenting this invaluable resource is a detailed timeline to help students put the wide ranging scandals into historical perspective and a thorough bibliography to encourage further research.
