a must read for anyone who appreciates literature that probes the depths of bravery and moral ambiguity *Modern Hungers* Alice Weinreb, 2017-05-01 During World War I and II modern states for the first time experimented with feeding and starving entire populations Within the new globalizing economy food became intimately intertwined with waging war and starvation claimed more lives than any other weapon As Alice Weinreb shows in *Modern Hungers* nowhere was this new reality more significant than in Germany which struggled through food blockades agricultural crises economic depressions and wartime destruction and occupation at the same time that it asserted itself as a military cultural and economic powerhouse of Europe The end of armed conflict in 1945 did not mean the end of these military strategies involving food Fears of hunger and fantasies of abundance were instead reframed within a new Cold War world During the postwar decades Europeans lived longer possessed more goods and were healthier than ever before This shift was signaled most clearly by the disappearance of famine from the continent So powerful was the experience of post 1945 abundance that it is hard today to imagine a time when the specter of hunger haunted Europe demographers feared that malnutrition would mean the end of whole nations and the primary targets for American food aid were Belgium and Germany rather than Africa Yet under both capitalism and communism economic growth as well as social and political priorities proved inseparable from the modern food system Drawing on sources ranging from military records to cookbooks to economic and nutritional studies from a multitude of archives *Modern Hungers* reveals similarities and striking ruptures in popular experience and state policy relating to the industrial food economy In so doing it offers historical perspective on contemporary concerns ranging from humanitarian food aid to the gender wage gap to the obesity epidemic **The Universal Anthology** Richard Garnett, Leon Vallée, Alois Brandl, 1899 **Dead of Night** Randy Wayne White, 2006-03-07 New York Times bestselling author Randy Wayne White spins another terrific Florida tale in this thriller of bio terror and extreme revenge It starts with a simple request check up on the mysteriously reclusive biologist brother of an old friend But what Doc Ford stumbles upon in the doctor's secluded island home is a nightmare He has hanged himself and his body is host to a rare strain of feeding breathing parasites It's not an accident Neither is the fact that the flesh eaters are multiplying in the infested Florida waters A biological catastrophe has arrived And only Doc Ford can find out why and stop it from spreading further The Notorious Ian Grant Mark R Hunter, 2014-08-01 When infamous party boy and b list celebrity Ian Grant learns his sister is marrying a cop he abandons Hollywood and drives to Indiana His plan to make up for all those times he embarrassed his family by taking charge of the wedding planning So Ian's never planned a wedding how hard could it be The tornado ravaged town of Hurricane is like another world a world he'd like to be part of if only people would stop judging him by his previous antics He might even have a chance at romance with his future brother in law's coworker detective Fran Vargas But for Fran everything's gone wrong since the moment Ian arrived including their confrontation with a bullying politician and an influx of nosy reporters and angry ex girlfriends Not to mention Ian's wedding planning keeps getting interrupted by someone trying

Alworth,2018-11-20 Site Reading offers a new method of literary and cultural interpretation and a new theory of narrative setting by examining five sites supermarkets dumps roads ruins and asylums that have been crucial to American literature and visual art since the mid twentieth century Against the traditional understanding of setting as a static background for narrative action and character development David Alworth argues that sites figure in novels as social agents Engaging a wide range of social and cultural theorists especially Bruno Latour and Erving Goffman Site Reading examines how the literary figuration of real material environments reorients our sense of social relations To read the sites of fiction Alworth demonstrates is to reveal literature as a profound sociological resource one that simultaneously models and theorizes collective life Each chapter identifies a particular site as a point of contact for writers and artists the supermarket for Don DeLillo and Andy Warhol the dump for William Burroughs and Mierle Laderman Ukeles the road for Jack Kerouac Joan Didion and John Chamberlain the ruin for Thomas Pynchon and Robert Smithson and the

asylum for Ralph Ellison Gordon Parks and Jeff Wall and shows how this site mediates complex interactions among humans and nonhumans The result is an interdisciplinary study of American culture that brings together literature visual art and social theory to develop a new sociology of literature that emphasizes the sociology in literature     *Encyclopedia of the Novel* Paul Schellinger, 2014-04-08 The *Encyclopedia of the Novel* is the first reference book that focuses on the development of the novel throughout the world Entries on individual writers assess the place of that writer within the development of the novel form explaining why and in exactly what ways that writer is important Similarly an entry on an individual novel discusses the importance of that novel not only form analyzing the particular innovations that novel has introduced and the ways in which it has influenced the subsequent course of the genre A wide range of topic entries explore the history criticism theory production dissemination and reception of the novel A very important component of the *Encyclopedia of the Novel* is its long surveys of development of the novel in various regions of the world     **A Savage Distance** Thom Reese,     *The Rider* R. D. Amundson, 2013-07-08 After marrying his childhood sweetheart Virgil John Jordan is pulled into the Civil War as a captain in the Confederate Army He is a dedicated and brave soldier until news reaches him that his family including his new wife has been murdered by marauding Blue Coats Rage takes over as Virgil becomes a murderer the man he once was disappears He becomes The Rider a vengeful ghostly foe Justice is decided by his hand and he kills those he believes deserve to die After killing four men who were abusing a whore the Rider survives a terrible blizzard only to end up in a town called Witchita With his only companion his horse Gabriel the Rider finds himself in a very strange place The witch in Witchita refers to Mesmerala a powerful sorceress who runs things with the power of magic Its not magic that breaks through the Riders heart of steel though its a gun toting honey named Pistol Ann Rider comes to realize hes in Witchita for a reason His bloodlust can serve a purpose but will he ever find his way home again     *Queer Experimental Literature* Teagan Bradway, 2017-05-09 This volume argues that postwar writers queer the affective relations of reading through experiments with literary form Tyler Bradway conceptualizes bad reading as an affective politics that stimulates queer relations of erotic and political belonging in the event of reading These incipiently social relations press back against legal economic and discursive forces that reduce queerness into a mode of individuality Each chapter traces the affective politics of bad reading against moments when queer relationality is prohibited obstructed or destroyed from the pre Stonewall literary obscenity debates through the AIDS crisis to the emergence of neoliberal homonormativity and the gentrification of the queer avant garde Bradway contests the common narrative that experimental writing is too formalist to engender a mode of social imagination Instead he illuminates how queer experimental literature uses form to redraw the affective and social relations that structure the heteronormative public sphere Through close readings informed by affect theory *Queer Experimental Literature* offers new perspectives on writers such as William S Burroughs Samuel R Delany Kathy Acker Jeanette Winterson Eve Kosofsky Sedgwick Alison Bechdel and Chuck Palahniuk *Queer Experimental Literature* ultimately reveals that the

recent turn to affective reading in literary studies is underwritten by a para academic history of bad reading that offers new idioms for understanding the affective agencies of queer aesthetics      **In the Blood** Scott Miller, 2000 An unlikely romance between a hematologist and a vampire in the early years of the AIDS pandemic is the focus of Scott Miller's genre defying riff on vampire legends American pop culture and contemporary horror fiction Part romance part gothic horror part bawdy comedy and part steamy eroticism *In the Blood* crosses all boundaries and serves up an entertaining roller coaster ride you'll never forget *In the Blood* tells the story of the vampire Zachary Church and Adam Graham a gay hematologist with HIV and their budding relationship in the early era of AIDS If vampires are the only ones who can't be affected by the AIDS virus do they have some responsibility to pass on their immunity And for someone with AIDS what price is too high for acquiring that immunity When Adam asks Zach to turn him so he won't die Zach is torn He has vowed never to make another vampire never to subject anyone else to the horrific loneliness he has known for so long Ultimately Zach has to choose between condemning Adam to the tormented life of vampirism or watching him die knowing he could've saved him knowing that he will be utterly alone once more
