

Article Critiques Sample Essay

The American Journal of Public Health published a research titled “An Evaluation of a Classroom Science, Intervention Designed to Extend the Bicycle Helmet Safety Message” in order to create awareness regarding the helmet safety. This study seeks to present the results of an evaluation of the knowledge of students with regard to the head safety and their attitude towards helmet use after the delivery of the Wizards of Motion Head Safety Intervention module that was introduced to grade seven science classrooms. The research question seeks to find out “what is the relationship between student head safety knowledge and their attitude towards helmet use after they were exposed to the delivery of the Wizards of Motion Head Safety Intervention module?”

The World Health Organization reveals that most of the hospitalized children suffering from head injuries that came as a result of bicycle accidents. The population sample for this study was 74 (35 males and 39 females) while two instruments were employed in data collection, and they comprised of a knowledge based test to record student’s knowledge on head safety and biomechanical concepts, as well as the questionnaires to collect information on the student’s present and prospective helmet use. The hypothesis of the study was to find out whether wearing a bicycle helmet was directly connected to the attitudes of these young children.

There is widespread use of bicycles by young children aged between 11 and 15 in varied daily activities, including visiting friends, adventure or for fun activities. From the 74 respondents who were involved in this study, it was reported that 84 percent rode bicycles on a daily basis while only 88 percent of these actually owned a helmet. Despite this, only 32 percent of those who owned the helmets, were reported to be wearing them when riding a bicycle even though the law requires that each child ought to wear a helmet when riding a bicycle. The fact that
