Mediation and Immediacy Jenny Ponzio, Robert A. Yelle, Massimo Leone, 2020-12-07 Religion like any other domain of culture is mediated through symbolic forms and communicative behaviors which allow the coordination of group conduct in ritual and the representation of the divine or of tradition as an intersubjective reality While many traditions hold out the promise of immediate access to the divine or to some transcendent dimension of experience such promises depend for their realization as well on the possibility of mediation which is necessarily conducted through channels of communication and exchange such as prayers or sacrifices An understanding of such modes of semiosis is therefore necessary even and especially when mediation is denied by a tradition in the name of the ineffability of the deity or of mystical experience This volume models and promotes an interdisciplinary dialogue and cross-cultural perspective on these issues by asking prominent semioticians historians of religion and of art linguists sociologists of religion and philosophers of law to reflect from a semiotic perspective on the topic of mediation and immediacy in religious traditions

*The Name of God in Jewish Thought* Michael T Miller,2015-10-16 One of the most powerful traditions of the Jewish fascination with language is that of the Name Indeed the Jewish mystical tradition would seem a two millennia long meditation on the nature of name in relation to object and how name mediates between subject and object Even within the tide of the 20th century s linguistic turn the aspect most notable in the almost entirely secular Jewish philosophers is that of the personal name here given pivotal importance in the articulation of human relationships and dialogue The Name of God in Jewish Thought examines the texts of Judaism pertaining to the Name of God offering a philosophical analysis of these as a means of understanding the metaphysical role of the name generally in terms of its relationship with identity The book begins with the formation of rabbinic Judaism in Late Antiquity travelling through the development of the motif into the Medieval Kabbalah where the Name reaches its grandest and most systematic statement and the one which has most helped to form the ideas of Jewish philosophers in the 20th and 21st Century This investigation will highlight certain metaphysical ideas which have developed within Judaism from the

Biblical sources and which present a direct challenge to the paradigms of western philosophy Thus a grander subtext is a criticism of the Greek metaphysics of being which the west has inherited and which Jewish philosophers often subject to challenges of varying subtlety it is these philosophers who often place a peculiar emphasis on the personal name and this emphasis depends on the historical influence of the Jewish metaphysical tradition of the Name of God Providing a comprehensive description of historical aspects of Jewish Name Theology this book also offers new ways of thinking about subjectivity and ontology through its original approach to the nature of the name combining philosophy with text critical analysis As such it is an essential resource for students and scholars of Jewish Studies Philosophy and Religion
