Nameless Persons Legal Discrimination Against Non Marital Children In The United States:

Nameless Persons Martha T. Zingo, Kevin E. Early, 1994-08-09 This study examines the legal discrimination suffered in the United States by children born out of wedlock The authors analyze the Supreme Court's equal protection birth status decisions from 1968 to 1992 and in a case by case analysis trace the development of the Court's rulings examine the pattern of equal protection tests utilized and evaluate the consistency of the Court's position In addition the work examines the related discrimination suffered by the families of non marital children especially single parents and alternative family units and concludes that it is impossible to gain full equality for children born out of wedlock unless equality is also gained for their family unit Toward these ends the authors suggest a feminist jurisprudence as a methodology for addressing the underlying issue at the crux of birth status distinctions

Nameless Persons Martha T. Zingo, 1989 [A People's History of the European Court of Human Rights](#) Michael Goldhaber, 2008-12-31 The exceptionality of America's Supreme Court has long been conventional wisdom But the United States Supreme Court is no longer the only one changing the landscape of public rights and values Over the past thirty years the European Court of Human Rights has developed an ambitious American style body of law Unheralded by the mass press this obscure tribunal in Strasbourg France has become in many ways the Supreme Court of Europe Michael Goldhaber introduces American audiences to the judicial arm of the Council of Europe a group distinct from the European Union and much larger whose mission is centered on interpreting the European Convention on Human Rights The Council routinely confronts nations over their most culturally sensitive hot button issues It has stared down France on the issue of Muslim immigration Ireland on abortion Greece on Greek Orthodoxy Turkey on Kurdish separatism Austria on Nazism and Britain on gay rights and corporal punishment And what is most extraordinary is that nations commonly comply In the battle for the world's conscience Goldhaber shows how the court in Strasbourg may be pulling ahead

[A Parent-Partner Status for American Family Law](#) Merle H. Weiner, 2015-09-17 Despite the fact that becoming a parent is a pivotal event the birth or adoption of a child has little significance for parents legal relationship to each other Instead the law relies upon marriage domestic partnerships and contracts to set the parameters of parents legal relationship With over forty percent of American children born to unwed mothers and consistently high rates of divorce this book argues that the law's current approach to regulating parental relationships is outdated A new legal and social structure is needed to guide parents so they act as supportive partners and to deter uncommitted couples from having children This book is the first of its kind to propose a new parent partner status within family law Included are a detailed discussion of the benefits of the status as well as specific recommendations for legal obligations

Measuring Immorality Gail Reekie, 1998-10-13 Why do conservative politicians and scholars in Britain Australia and the United States continue to view rising rates of out of wedlock births and teenage pregnancies as a threat to civilised society This book examines the process by which social science transforms a biological event a birth into a social and moral problem Drawing on Foucault's

archaeology of knowledge Reekie stresses the role of statistics and other social scientific discourses in the emergence of the illegitimacy problem in the early nineteenth century and its continuing cultural significance The book illustrates the continuity in concerns about illegitimacy including pressure on the welfare system fears of racial and intellectual denigration the detrimental nature of fatherless families and the association of rising illegitimacy with the supposed selfishness of excessively independent women *Race, Manhood, and Modernism in America* Mark Whalan, 2007 Narrative gender and history in Winesburg Ohio Sherwood Anderson and primitivism Double dealing in the South Waldo Frank Sherwood Anderson Jean Toomer and the ethnography of region Things are so immediate in Georgia articulating the South in Cane Cane body technologies and genealogy Cane audience and form Marriage Equality William N. Eskridge, Christopher R. Riano, 2020-08-18 The definitive history of the marriage equality debate in the United States praised by Library Journal as beautifully and accessibly written An essential work As a legal scholar who first argued in the early 1990s for a right to gay marriage William N Eskridge Jr has been on the front lines of the debate over same sex marriage for decades In this book Eskridge and his coauthor Christopher R Riano offer a panoramic and definitive history of America s marriage equality debate The authors explore the deeply religious rabidly political frequently administrative and pervasively constitutional features of the debate and consider all angles of its dramatic history While giving a full account of the legal and political issues the authors never lose sight of the personal stories of the people involved or of the central place the right to marry holds in a person s ability to enjoy the dignity of full citizenship This is not a triumphalist or one sided book but a thoughtful history of how the nation wrestled with an important question of moral and legal equality **God's Joust, God's Justice** John Witte, 2006-10-31 God s Joust God s Justice provides a vista of the major debates over law and religion in the West enabling readers to proceed toward a more integrated understanding of the foundational elements of modern democracy The Morality of Adoption Timothy Patrick Jackson, 2005 The Religion Marriage and Family Series investigates marriage and family as major theological and cultural issues Given that both society and the church have debated these topics intensely but have actually studied them very little this series attempts to correct recent theological neglect of these important matters **Reproducing the State** Jacqueline Stevens, 2020-12-08 People are said to acquire their affiliations of ethnicity race and sex at birth Hence these affiliations have long been understood to be natural independent of the ability of political societies to define who we are Reproducing the State vigorously challenges the conventional view as well as post structuralist scholarship that minimizes state power Jacqueline Stevens examines birth based theories of membership and group affiliations in political societies ranging from the Athenian polis to tribes of Australia to the French republic to the contemporary United States The book details how political societies determine the kinship rules that are used to reproduce political societies Stevens analyzes the ways that ancestral and territorial birth rules for membership in political societies pattern other intergenerational affiliations She shows how the notion of ethnicity depends on the implicit or explicit

invocation of a past present or future political society She also shows how geography is used to represent political regions including continents as the seemingly natural underpinning for racial taxonomies perpetuated through miscegenation laws and birth certificates And Stevens argues that sex differences are also constituted through membership practices of political societies In its chronological and disciplinary range *Reproducing the State* will reward the interest of scholars in many fields including anthropology history political science sociology women s studies race studies and ethnic studies
