Namibia Under South African Rule Patricia Hayes,1998 Tracing developments in Namibia from 1915 to 1946 this text explores the country as it was under South African rule

Gender and Colonialism Lorena Rizzo,2012-12-29 This book deals with colonialism on a Namibian periphery and considers both the German colonial period as well as South African rule in the country The marginality of the Kaoko region within this colonial topography of power is analysed as a dynamic and fractured feature where power relations and constellations remained highly contested The dynamics of gender within a regional society constituted of men and women African and European receive special attention within frameworks engaging with colonial photography oral histories and gendered visions

Re-Viewing Resistance in Namibian History Jeremy Silvester,2015-07-13 Re Viewing Resistance in Namibian History brings together the work of experienced academics and a new wave of young Namibian historians architects of the past They are working on a range of public history and heritage projects from late nineteenth century resistance to the use of songs from the role of gender in SWAPO s camps to memorialisation and from international solidarity to aspects of the history of Kavango and Caprivi In a culturally and politically diverse democracy such as Namibia there are bound to be different perspectives on the past and history will be as plural as the history tellers The chapters in this book reflect this diversity and combine to create a remarkable collection of divergent voices providing alternative perspectives on the past The book writes forgotten people into history provides a reading of the past that reflects the tensions and competing identities that pervaded the struggle and deals with heritage that hurts

Ruling Nature, Controlling People Luregn Lenggenhager,2018-09-17 Recent nature conservation initiatives in Southern Africa such as communal conservancies and peace parks are often embedded in narratives of economic development and ecological research They are also increasingly marked by militarisation and violence In *Ruling Nature Controlling People* Luregn Lenggenhager shows that these features were also characteristic of South African rule over the Caprivi Strip region in North Eastern Namibia especially in the fields of forestry fisheries and ultimately wildlife conservation In the process the increasingly internationalised war in the region from the late 1960s until Namibias independence in 1990 became intricately interlinked with contemporary nature conservation ecology and economic development projects By retracing such interdependencies Lenggenhager provides a novel perspective from which to examine the history of a region which has until now barely entered the focus of historical research He thereby highlights the enduring relevance of the supposedly peripheral Caprivi and its military scientific and environmental histories for efforts to develop a deeper understanding of the ways in which apartheid South Africa exerted state power

Apartheid's Black Soldiers Lennart Bolliger,2021-10-01 New oral histories from Black Namibian and Angolan troops who fought in apartheid South Africa s security forces reveal their involvement and its impact on their lives to be far more complicated than most historical scholarship has acknowledged In anticolonial struggles across the African continent tens of thousands of African soldiers

served in the militaries of colonial and settler states In southern Africa they often made up the bulk of these militaries and in some contexts far outnumbered those who fought in the liberation movements armed wings Despite these soldiers significant impact on the region s military and political history this dimension of southern Africa s anticolonial struggles has been almost entirely ignored in previous scholarship Black troops from Namibia and Angola spearheaded apartheid South Africa s military intervention in their countries respective anticolonial war and postindependence civil war Drawing from oral history interviews and archival sources Lennart Bolliger challenges the common framing of these wars as struggles of national liberation fought by and for Africans against White colonial and settler state armies Focusing on three case studies of predominantly Black units commanded by White officers Bolliger investigates how and why these soldiers participated in South Africa s security forces and considers the legacies of that involvement In tackling these questions he rejects the common tendency to categorize the soldiers as collaborators and traitors and reveals the un national facets of anticolonial struggles Finally the book s unique analysis of apartheid military culture shows how South Africa s military units were far from monolithic and instead developed distinctive institutional practices mythologies and concepts of militarized masculinity

Lyrical Nationalism in Post-Apartheid Namibia Wendi A. Haugh, 2014-06-25 When Namibia gained its independence from South Africa in 1990 the new government began dismantling the divisive apartheid state and building a unified nation state What does this new nation look like from the perspective of ordinary citizens In *Lyrical Nationalism in Post Apartheid Namibia* Wendi Haugh provides an ethnographic portrayal of the nation as imagined by people living in the former ethnic homeland of Ovamboland with a particular focus on the lyrics of songs composed and performed by Catholic youth The author argues that these youth draw on conflicting ideologies hierarchical and egalitarian nationalist and cosmopolitan from multiple sources to construct a multi faceted sense of national identity She reveals how their vision of the nation framed as neutrally national is deeply rooted in specific local histories and cultures

The Oxford Handbook of Historical Ecology and Applied Archaeology Christian Isendahl, Daryl Stump, 2019-01-10 The Oxford Handbook of Historical Ecology and Applied Archaeology presents theoretical discussions methodological outlines and case studies describing the field of overlap between historical ecology and the emerging sub discipline of applied archaeology to highlight how modern environments and landscapes have been shaped by humans Historical ecology is based on the recognition that humans are not only capable of modifying their environments but that all environments on earth have already been directly or indirectly modified This includes anthropogenic climate change widespread deforestations and species extinctions but also very local alterations the effects of which may last a few years or may have legacies lasting centuries or more With contributions from anthropologists archaeologists human geographers and historians this volume focuses not just on defining human impacts in the past but on the ways that understanding these changes can help inform contemporary practices and development policies Some chapters present examples of how ancient or current societies have modified their environments in sustainable ways while others

highlight practices that had unintended long term consequences The possibilities of learning from these practices are discussed as is the potential of using the long history of human resource exploitation as a method for building or testing models of future change The volume offers overviews for students researchers and professionals with an interest in conservation or development projects who want to understand what practical insights can be drawn from history and who seek to apply their work to contemporary issues *The Nature State* Wilko Hardenberg, 2017-07-14 Following the industrial revolution and post war exponential increase in human population and consumption conservation in myriad forms has been one particularly visible way in which the government and its agencies have tried to control manage or produce nature for reasons other than raw exploitation Using an interdisciplinary approach and including case studies from across the globe this edited collection brings together geographers sociologists anthropologists and historians in order to examine the degree to which socio political regimes facilitate and shape the emergence and development of nature states **Administration and Taxation in Former Portuguese Africa** Philip J. Havik, Alexander Keese, Maciel Santos, 2015-06-18 This book addresses a notable gap in the knowledge of Portuguese colonial administration and the policies implemented in the main territories of its third African empire Angola Mozambique and Guinea In recent years the question of colonial taxation has become a topic in the academic debate on colonial empires and has led to a comparative long term focus on its impact in African societies Given that former Portuguese colonies in Africa have been largely absent from this debate this book **Breweries, Politics and Identity** Tycho van der, 2019-09-09 Namibian beer is celebrated as an inextricable part of Namibian nationalism both within domestic borders and across global markets But for decades on end the same brew was not available to the black population as a consequence of colonial politics This book aims to explain how a European style beer has been transformed from an icon of white settlers into a symbol of the independent Namibian nation The unusual focus on beer offers valuable insight into the role of companies in identity formation and thus highlights an understudied aspect of Namibian history namely business-state relations **Namibia and Germany: Negotiating the Past** Reinhart Kessler, 2015-08-12 100 years since the end of German colonial rule in Namibia the relationship between the former colonial power and the Namibian communities who were affected by its brutal colonial policies remains problematic and interpretations of the past are still contested This book examines the ongoing debates conflicts and confrontations over the past It scrutinises the consequences of German colonial rule its impact on the descendants of victims of the 1904/08 genocide Germany's historical responsibility and ways in which post colonial reconciliation might be achieved **Photography and History in Colonial Southern Africa** Lorena Rizzo, 2019-09-16 This book studies the relationship between photography and history in colonial Southern Africa using a series of encounters with Southern African photographic archives to reflect on photography as a distinct historical form Through use of private and public archives images produced by African itinerant photographers white settlers and colonial state institutions this book explores the relationship between photography and history in colonial Southern

Africa Late nineteenth century Cape Colonial prison albums police photographs from German Southwest Africa African studio portraits identity documents travel permits and passports from the 1920s and 1930s visual studies of whiteness and blackness authored by settler photographers South African dompas photographs from the 1950s and 1960s and aerial photography from the Eastern Cape in the mid twentieth century are examined to highlight the ways in which photographic images cut across conventional institutional boundaries and complicate rigid distinctions between the private and the public the political and the aesthetic the colonial and the vernacular or the subject and the object Photography and History in Colonial Southern Africa argues that rather than understanding photographs as a means of preserving and recreating the past in the present we can value them for how they evoke at once the need for and the limits of historical reconstruction This book will be of interest to students and scholars of colonial history photographic history visual media and African studies
