

Henry Reed
(1914-1986)

Today we have naming of parts. Yesterday,
We had daily cleaning. And tomorrow morning,
We shall have what to do after firing. But today,
Today we have naming of parts. Japonica
Glistens like coral in all of the neighboring gardens,
And today we have naming of parts.

5

This is the lower sling swivel. And this
Is the upper sling swivel, whose use you will see,
When you are given your slings. And this is the piling swivel,
Which in your case you have not got. The branches
Hold in the gardens their silent, eloquent gestures,
Which in our case we have not got.

10

This is the safety-catch, which is always released
With an easy flick of the thumb. And please do not let me
See anyone using his finger. You can do it quite easy
If you have any strength in your thumb. The blossoms
Are fragile and motionless, never letting anyone see
Any of them using their finger.

15

And this you can see is the bolt. The purpose of this
Is to open the breech as you see. We can slide it
Rapidly backwards and forwards: we call this
Easing the spring. And rapidly backwards and forwards
The early bees are assaulting and fumbling the flowers:
They call it easing the Spring.

20

They call it easing the Spring: it is perfectly easy
If you have any strength in your thumb: like the bolt,
And the breech, and the cocking-piece, and the point of balance,
Which in our case we have not got; and the almond- blossom
Silent in all of the gardens and the bees going backwards and forwards,
For today we have naming of parts.

Defining Knowledge Stephen Hetherington,2022-11-10 Post Gettier epistemology is increasingly modalized epistemology proposing and debating modally explicable conditionals with suitably epistemic content an approach initially inspired by Robert Nozick s 1981 account of knowledge as needing to be added to true belief in order to define or understand knowing s nature This *Element* asks whether such modalized attempts construed as responding to what the author calls Knowing s Further Features question bequeathed to us by the Meno and the Theaetetus can succeed The answer is that they cannot Plato s and Aristotle s views on definition reinforce that result Still in appreciating this we might gain insight into knowing s essence We might find that knowledge is essentially nothing more than true belief [A Linguistic Guide to English Poetry](#) Geoffrey N. Leech,2014-06-11 Seeks to demonstrate that the study of English poetry is enriched by the insights of modern linguistic analysis and that linguistic and critical disciplines are not separate but complementary Examining a wide range of poetry Professor Leech considers many aspects of poetic style including the language of past and
