## **Naming The Idols Biblical Alternatives For Us Foreign Policy By Shaull:**

Naming the Idols Richard Shaull,1992-01-01      *Liberation Theology* Robert McAfee Brown,1993-01-01 Brown explains and illuminates liberation theology for North American readers who may have no previous knowledge of this recent dynamic Christian movement Growing out of the experience of oppressed people in Latin America liberation theology lends a transforming power to both the study of the Bible and the Christian duty to work for justice for all God s people      *America and Its Guns* James E. Atwood,2012-06-01 James Atwood contends that the thirty thousand gun deaths America suffers every year cannot be understood apart from our national myth that God has appointed America as the trustee of the civilization of the world and even Christ s light to the nations Because these purposes are noble and we are supposedly a good and trustworthy people violence is sometimes required and gives license to individuals to carry open or concealed weapons which save lives and can even be redemptive Atwood an avid hunter cautions that an absolute trust in guns and violence morphs easily into idolatry Having spent thirty six years as a Presbyterian pastor fighting against the easy access to firearms one of which took the life of a friend he uses his unique experience and his biblical and theological understanding to graphically portray the impact guns have on our society He documents how Americans have been deceived into believing that the tools of violence whether they take the form of advanced military technology or a handgun in the bedside stand will provide security He closes with a wake up call to the faith community which he says is America s best hope to unmask the extremism of the Gun Empire      **Gustavo Gutierrez** Robert McAfee Brown,2013-03-01 Here is a definitive introduction to liberation theology through the life and work of its most significant proponent Gustavo Gutierrez Robert McAfee Brown draws extensively on Gutierrez s own writings some never published in English and on personal conversations with him Brown clearly and compellingly presents the basics of liberation theology and the differences between North American and Latin American theologies The form of Gustavo Gutierrez is that of a drama Brown s initial program notes introduce and situate the author the actors the critics He sets the stage with a history of church and state in Latin America and introduces its definitive figures themes and milestones A collective biography of Gutierrez s spiritual predecessors is followed by a biography of Gutierrez himself which takes critical account of his works Then we are ready dramatically and theologically to move to the first act that of commitment to the poor The second act in two scenes explores first liberation theology s method of critical reflection on praxis and also its content nothing less than the Word of God Brown delves next into the controversies and criticisms Gutierrez faces especially the challenges from authorities in Rome Finally in act three readers discover that in this particular drama they too are on stage and must take part by reflecting on what this drama really means for them

**Gundamentalism and Where It Is Taking America** James E. Atwood,2017-01-09 Gundamentalism and Where It Is Taking America is the work of James Atwood a retired Presbyterian pastor and an avid deer hunter for half a century who has also been in the forefront of the faith community s fight for two constitutional rights the right to keep and bear arms and the

right to live in domestic tranquility free of gun violence He explains why guns mystically control so many Americans and exposes the fallacies of the gun industry's spurious claim that firearms actually protect us He argues there are no bona fide scientific studies that show defensive guns save us from harm while there is voluminous research showing a defensive gun puts the owner and his or her family at greater risk Atwood's book which details his learning of a lifetime in the struggle for reasonable gun laws in America puts dependable social and theological analysis of our unique national epidemic into your hands along with scientific data that will provoke honest reflection and discussion for the building of a safer and saner America Questions for group discussion and suggestions for action are included

**Contextual Theology and Revolutionary Transformation in Latin America** Angel D. Santiago-Vendrell, 2010-06-01 U.S. audiences know Latin American liberation theologies largely through translations of Latin American Catholics from the 1970s and beyond Most of the few known Protestant authors were students of Richard Shaull whose critical thinking on social change prophetic Christianity and dialogue with Marxism and Christian use of Marxist analysis precedes the emergence of the formal schools of liberation theology by two decades His own education at Princeton and the education he provided in Brazil charts the course of Protestant influences into this stream of theological reflection that became a global phenomenon in the latter decades of the twentieth century Also Shaull's career roughly parallels the emergence of the World Council of Churches and the engagement of the Catholic Church in Latin America and around the world after the Second Vatican Council He himself was engaged and became the flash point in some of the major conferences movements and institutions of the 1960s and beyond Santiago Vendrell documents the entrance of the ecumenical movement in Brazil among the most dramatic transformations in Catholic Protestant relations around the globe as well as Shaull's role in that development Along the way he notes Shaull's prophetic and destabilizing role in the worldwide student movement in the 60s and 70s charting decisions that mark the ecumenical movement Shaull's contributions are important for an understanding of the ethical debates in the worldwide ecumenical Protestant and Orthodox communities Santiago Vendrell examines primary secondary and historical documents that shine a light on Shaull's transformation into a contextual theologian of the poor He offers a definitive view of this North American Protestant missionary who wrote extensively on Latin American liberation theology the base Christian communities and how conversion to solidarity with the poor offers transforming possibilities for the mainline churches theological identity and practical faith

**Don'T Call Me out of My Name Spirituality for the 21St Century a Member of the Christian Left Speaks Out**

Larry Boudreau,2013-01-18 This book challenges the unwritten laws that dominate U S society creating great wealth and even greater poverty Social Structural Analysis uncovers the hidden agenda behind this system of political economy that exploit the majority while enriching the few Modern liberal economics holds the proverbial carrot in front of the world s population while the real winners the multi national banks and corporations reap scandalous profits This political economic monopoly treats the living earth as if it was a disposable resource and turns the majority of the world s population into mere cogs in its machinery Like a cancer if untreated it will destroy its host Social analysis cannot cure this cancer but it can remove the rose colored glasses from people s eyes so that they can understand it Free Market Capitalism has undoubted benefits It becomes evil when it is a law unto itself A system of political economy endowed with a wider vision and a more just definition of profits might evolve out of the dialogue between the mechanisms of Capitalism and the priorities of socialism Such a system would allow all peoples to enjoy a decent life while preserving the integrity of the earth Utopia the perfect society may never become a reality but we should never stop trying to implement it Social analysis is a necessary first step towards a more just world

*Speaking of Christianity* Robert McAfee Brown,1997-01-01 Renowned theologian Robert McAfee Brown believes that Christianity cannot be fenced off or separated from the world but is always in relation to something else Here he puts his belief to the test writing on Christianity and a multitude of topics puzzles earthquakes worship martyrdom beauty sex God politics joy anti-Semitism and the environment Sacred Interconnections David Ray Griffin,1990-04-05 This book shows the interconnections between postmodernism religion politics economics and art It shows that the awareness of interconnectedness is at the center of the postmodern sensibility Sacred Interconnections illustrates the rejection of the modern idea that these subjects can be discussed as separate disciplines While the term postmodern has been widely used for deconstructive cynical even nihilistic attitude especially in the world of art and literature the book represents the emergence of a reconstructive reenchanted postmodernism even within the artistic and literary circles

**Traditions of International Ethics** Terry Nardin,David R. Mapel,1992 This is the first comprehensive study of how different ethical traditions deal with the central moral problems of international affairs Using the organizing concept of a tradition it shows that ethics offers many different languages for moral debate rather than a set of unified doctrines Each

chapter describes the central concepts premises vocabulary and history of a particular tradition and explains how that tradition has dealt with a set of recurring ethical issues in international relations Such issues include national self determination the use of force in armed intervention or nuclear deterrence and global distributive justice *Giving Account of Faith and Hope in Africa* John Samuel Pobee,2017-07-10 What is African theology What are its distinctive traits and characteristics modes of investigation and style of expression Can African theology reach wider and run deeper than simple propositional articulation What concerns and special circumstances have shaped its outlook What unique burdens or hurdles imposed by the past must African theology surmount What challenges and opportunities lie before it What are African theology s prospects As a field of Christian engagement is it condemned to be only an appendage to theology imported from the West and the North Or does it have a distinctive contribution to make and gifts to share not just within the continent of Africa but also with the Christian world at large These questions exercise the mind and soul of the African church A worthy capstone to a lifetime of service as a theologian educator and ecumenical leader this volume offers John Samuel Pobee s considered and mature reflections on issues he raised nearly forty years ago when he published *Toward an African Theology*

**Holistic Living** Euckay U. Onyeizugbo,2011-06-01 Wholeness is a process that encompasses all that we are as humans in interaction The contemporary human is in a great deal of psychological distress As a result people do all sorts of extreme things to ease the tension For instance some become hedonistic with inordinate desires for drugs alcohol tranquilizers etc food and sex whereas some become fanatical in their belief system including religious beliefs with tendency toward externality The extent that the human person succeeds in integrating the physical psychosocial and spiritual domain is the extent that humanity evolves to a higher level of consciousness whereby the individual being at peace with oneself reaches out creatively and assertively to neighbours and to the larger world that encompasses humans and the natural order in harmony *Latinamerica Press* ,1993 **Religion and Humane Global Governance** R. Falk,2016-04-30 Falk argues that the failure to achieve what he terms humane global governance is partially due to the exclusion of religious and spiritual dimensions of human experience from the study and practice of government The book begins with a section on dominant world order trends and tendencies with respect to global governance This is followed by consideration of the extent to which these recent world order trends that are shaping the historical situation at the end of the second millennium are also creating a new unexpected opening for religious and spiritual energies a development that has problematic as well as encouraging aspects This religious resurgence is also discussed as part of the double edged relevance of religion to global governance The final section argues in support of the inclusion of emancipatory religious and spiritual perspectives in world order thinking and practice along with an enumeration of potential contributions *Christian Social Action* ,1988 **Be Not Conformed** John Culley,Kristi Culley,1989 **Kingdom to Commune** Patricia Faith Appelbaum,2009 *Kingdom to Commune* Protestant Pacifist Culture between World War I and the Vietnam Era **Elenchus of Biblica** ,1993
