Lauren Elizabeth Miller, Jonathan S. Marion, 2017-12-29 Lauren Miller Griffith and Jonathan S Marion introduce the concept of apprenticeship pilgrimage to help explain why performers travel to places both near and far in an attempt to increase both their skill and their legitimacy within various genres of art and activity What happens when your skill level surpasses local training opportunities whether in dance martial arts or other skills and practices Apprenticeship Pilgrimage provides a new and exciting model of apprenticeship pilgrimages including local regional opportunistic and virtual that practitioners undertake to develop embodied knowledge skills and legitimacy unavailable at home For most people there is a limit to how much training is available from the teachers and classes at home As skill and know how increase the resources and training opportunities available become limits on one's learning Similarly a practitioner's legitimacy may be suspect without exposure to appropriate cultural context such as ties with the homeland of certain dance forms or martial arts Whether for skill alone or activity specific legitimacy individuals may feel compelled to travel for training Such travelers see themselves quite differently from other tourists and the seriousness with which they pursue their journeys makes it appropriate to call them pilgrims Given the goal of learning from and developing their own skills by training with experts at their destinations apprenticeship pilgrims is even more appropriate Rather than focus on specific geographic regions or genres of apprenticeship this book builds a robust theoretical framework for understanding the role of travel for developing expertise in embodied genres This book links and expands on the existing scholarship concerning anthropologies of education and tourism but takes new strides in exploring the global circumstances wherein skill development requires travel Throughout the authors use apprenticeship pilgrimage as a robust new framework for considering the interrelated roles of going learning and doing for identity construction within contemporary globalization For more information check out A Conversation with Lauren Griffith and Jonathan Marion

The Weight of Whiteness Alison Bailey, 2021-02-23 Check your privilege is not a request for a simple favor It asks white people to consider the painful dimensions of what they have been socialized to ignore Alison Bailey's *The Weight of Whiteness A Feminist Engagement with Privilege Race and Ignorance* examines how whiteness misshapes our humanity measuring the weight of whiteness in terms of its costs and losses to collective humanity People of color feel the weight of whiteness daily The resistant habits of whiteness and its attendant privileges however make it difficult for white people to feel the damage White people are more comfortable thinking about white supremacy in terms of what privilege does for them rather than feeling what it does to them The first half of the book focuses on the overexposed side of white privilege the side that works to make the invisible and intangible structures of power more visible and tangible Bailey discusses the importance of understanding privileges intersectionally the ignorance preserving habits of white talk and how privilege and ignorance circulate in educational settings The second part invites white readers to explore the underexposed side of white dominance the weightless side that they would rather not feel The final chapters are powerfully autobiographical Bailey engages readers with a deeply personal account of what it means to hold space with the painful

weight of whiteness in her own life She also offers a moving account of medicinal genealogies which helps to engage the weight she inherits from her settler colonial ancestors The book illustrates how the gravitational pull of white ignorance and comfort are stronger than the clean pain required for collective liberation The stakes are high Failure to hold the weight of whiteness ensures that white people will continue to blow the weight of historical trauma through communities of color
