scholars of Japanese religions as well as Japanese Studies more broadly *The Culture of Copying in Japan* Rupert Cox, 2007-09-12 This book challenges the perception of Japan as a copying culture through a series of detailed ethnographic and historical case studies It addresses a question about why the West has had such a fascination for the adeptness with which the Japanese apparently assimilate all things foreign and at the same time such a fear of their skill at artificially remaking and automating the world around them Countering the idea of a Japan that deviously or ingenuously copies others it elucidates the history of creative exchanges with the outside world and the particular myths philosophies and concepts which are emblematic of the origins and originality of copying in Japan The volume demonstrates the diversity and creativity of copying in the Japanese context through the translation of a series of otherwise loosely related ideas and concepts into objects images texts and practices of reproduction which include shamanic theatre puppetry tea utensils Kyoto town houses architectural models genres of painting calligraphy and poetry sample food displays and the fashion and car industries

The Essence of Japanese Cuisine Michael Ashkenazi, Jeanne Jacob, 2013-10-11 The past few years have shown a growing interest in cooking and food as a result of international food issues such as BSE world trade and mass foreign travel and at the same time there has been growing interest in Japanese Studies since the 1970s This volume brings together the two interests of Japan and food examining both from a number of perspectives The book reflects on the social and cultural side of Japanese food and at the same time reflects also on the ways in which Japanese culture has been affected by food a basic human institution Providing the reader with the historical and social bases to understand how Japanese cuisine has been and is being shaped this book assumes minimal familiarity with Japanese society but instead explores the country through the topic of its cuisine **Household Horror** Marc Olivier, 2020-02-11 A scholar examines 14 everyday objects featured in horror films and how they manifest their power and speak to society's fears Take a tour of the house where a microwave killed a gremlin a typewriter made Jack a dull boy a sewing machine fashioned Carrie's prom dress and houseplants might kill you while you sleep In *Household Horror* Marc Olivier highlights the wonder fear and terrifying dimension of objects in horror cinema Inspired by object oriented ontology and the nonhuman turn in philosophy Olivier places objects in film on par with humans arguing for example that a sleeper sofa is as much the star of *Sisters* as Margot Kidder that *The Exorcist* is about a possessed bed and that *Rosemary's Baby* is a conflict between herbal shakes and prenatal vitamins *Household Horror* reinvigorates horror film criticism by investigating the unfathomable being of objects as seemingly benign as remotes radiators refrigerators and dining tables Olivier questions what Hitchcock's *Psycho* tells us about shower curtains What can we learn from Freddie Krueger's greatest accomplice the mattress Room by room Olivier considers the dark side of fourteen household objects to demonstrate how the objects in these films manifest their own power and connect with specific cultural fears and concerns Provides a lively and highly original contribution to horror studies As a work on cinema it introduces the reader to films that may be less well known to casual fans and scholars more conspicuously

it returns to horror staples gleefully reanimating works that one might otherwise assume had been critically done to death Psycho The Exorcist The Shining Allan Cameron University of Auckland

Ceremony and Ritual in Japan D. P. Martinez, Jan Van Bremen, 2013-02-01 Japan is one of the most urbanised and industrialised countries in the world Yet the Japanese continue to practise a variety of religious rituals and ceremonies despite the high tech highly regimented nature of Japanese society Ceremony and Ritual in Japan focuses on the traditional and religious aspects of Japanese society from an anthropological perspective presenting new material and making cross cultural comparisons The chapters in this collection cover topics as diverse as funerals and mourning sweeping women's roles in ritual the division of ceremonial foods into bitter and sweet the history of a shrine the playing of games the exchange of towels and the relationship between ceremony and the workplace The book provides an overview of the meaning of tradition and looks at the way in which new ceremonies have sprung up in changing circumstances while old ones have been preserved or have developed new meanings

Cuisine and Empire Rachel Laudan, 2013-11-21 Rachel Laudan tells the remarkable story of the rise and fall of the world's great cuisines from the mastery of grain cooking some twenty thousand years ago to the present in this superbly researched book Probing beneath the apparent confusion of dozens of cuisines to reveal the underlying simplicity of the culinary family tree she shows how periodic seismic shifts in culinary philosophy beliefs about health the economy politics society and the gods prompted the construction of new cuisines a handful of which chosen as the cuisines of empires came to dominate the globe Cuisine and Empire shows how merchants missionaries and the military took cuisines over mountains oceans deserts and across political frontiers Laudan's innovative narrative treats cuisine like language clothing or architecture as something constructed by humans By emphasizing how cooking turns farm products into food and by taking the globe rather than the nation as the

stage she challenges the agrarian romantic and nationalistic myths that underlie the contemporary food movement
